Mr. Click Relander
1212 North 32nd Ave.
Yakima, Washington

Dear Mr. Relander,

I was in Portland briefly about two months ago to attend the display of Indian artifacts put on yearly by the Oregon Archaeological Society.

In the company of Jay Perry of Kennewick, I later was driven up the Columbia River valley - a trip I shall never forget. He is the father of the Sacajawea Museum at Pasco - where so many of the Columbia River gem points are so beautifully displayed. Last year, I presented to the museum the bulk of my collection of these points which I got a number of years ago from the late Charlie Beckman, a professional arrow head collector - who lived like a hermit on the rivers edge at Roosevelt, Wash. - over 6,000 points. Some of these which were from the Priest Rapids area were so pitted - and probably

Jay has them so recounted - so that the section of the
River from which they came will not be lost.

Later, with Jay, I visited the Priest Rapids section
of the River - where the new dam is being built - and
should like to increase my knowledge of that remarkably
interesting part of the country.

I am enclosing \$6.00 for a copy of your book "Dreamers
& Dreamers" - and am looking forward to receiving it with
the greatest anticipation. Should you see fit to
sign my copy on the fly leaf, I would be most pleased.

Sincerely,

Chas. F. Bassett
