OFFICIAL PAPER OF NORTH YAKIMA

THAT President Roosevelt has a good many surprises in store for the leaders of his party is a fact that is now beginning to be recognized. The stand already taken by the new executive in making several appointments is sufficient evidence of this. In the selection of a circuit judge in the district of Alabama, the new executive has turned down the candidate proposed by the regular republican organization in that state on the ground of unfitness and named instead ex-Governor Jones, a man who professes to be a lifelong democrat. This policy, it is said, will be followed generally in making appointments throughout the South. In other sections of the country too, Mr. Roosevelt has shown a most independent disposition. This is notably the case in Kansas, where the president has flatly refused to appoint a certain candidate for U. S. district attorney. This candidate had the warm indorsement of Senator Burton of that state, but was turned down as being unworthy. To make matters still worse for that senator the president, it seems, has asked advice regarding this appointment from people who live in Kansas, but hold no official position whatever. In New York, it seems, there has been some attempt made to propitiate Boss Platt, or at least Platt seeks to convey that impression. It is doubtful, however, if much courtesy is shown the New York senator, as it is well known that the president not only distrusts, but dislikes him. And thus it goes. Roosevelt is a man who is strongly wedded to theories and is naturally therefore a good deal of an idealist in his ideas of administering the affairs of government. There is no reason thus far to doubt his good intentions. But as was stated by this paper immediately after his accession, neither is there reason to doubt that he will make plenty of trouble within the ranks of his own party. He cannot ignore the leaders of his party and still hope to secure their support in carrying out his policies. But appointments are not the only source of impending trouble. The new president is not in full accord with the dominating influences within his party on some vital matters of principle. This is true in the matter of tariff especially. He is regarded as being at most only a moderate protectionist and indeed is credited in some quarters with a very strong leaning toward free trade. He will doubtless be in full sympathy with any effort made to lower tariff duties at this session of congress and the protected interests will be sure to raise a roar of disapproval. In foreign relations too, there is much danger of serious disagreement. Roosevelt has no such a warm side for Great Britain as had his predecessors

and is not likely to treat that nation with the same consideration as did Mr. McKinley. Taken all in all there are plenty of dangerous appearing clouds on the republican horizon. The constant chatter that we see in the republican organs about "Teddy" following in the footsteps of the lamented McKinley is really pure balderdash. It reminds one of the boy who whistled in the dark woods to keep his courage up. Theodore Roosevelt is not going to follow in anybody's footsteps for the simple reason that he isn't built that way. His is a unique character in politics and he is nothing if not original. He is a man with an opinion on every subject and like Grover Cleveland does not take kindly to opposition. It is possible that he may make a good president, but it is more than probable that he will make a bad party leader.

L. H. CLOGG, a whilom resident of this place, has added his mite to the education of the masses by contributing a learned essay on "anarchy" to a local paper. The article referred to was evidently penned while its author was waiting for his train, or perhaps, while suffering from a passing spasm of indigestion. It is at least charitable to assume that it was not written by our good friend while in the full possession of all his mental faculties. We have been asked by some of our readers to dissect the contribution of Mr. Clogg in order to show up the numerous fallacies therein, but this we will not do. In the first place it is quite unnecessary, for the article carries with it its own complete refutation with every thinking mind that wishes to be fair. In the second place it is such a mass of inaccuracies and inconsistencies and so tinctured with partisan bias that it will hardly admit of intelligent discussion. We will be content by merely suggesting to Mr. Clogg that in his desire to make it appear that William J. Bryan is the leading spirit of anarchy in this country that he has been most unfortunate in his quotations of that great and gifted man. Better remove the scales from your own eyes brother before you make another attempt to enlighten the public.

THE Yakima Herald has evidently been imposed upon in its review of the local "spud" market. In its last week's issue it attempted to give out some valuable and exclusive information about the price of potatoes from the standpoint of an interested buyer. To such as are posted on the real situation the article might be construed as humorous were it not mischievous and hurtful to the interests of the producers. We have the information from men who have traveled over the Palouse country in search of potatoes, that that whole vast territory has not produced this year over 100 cars of tubers for outside shipment. Neither can anybody pretend that the quality of spuds grown in that section can compare with the famous potato of the Yakima valley. The Herald says that its informant, Mr. White, has been shipping an average of 15 cars of potatoes

and onions per day out of the state for the past seven weeks. That would make a total of 630 cars for Mr. White. A pretty good showing, indeed. Since Mr. White has absorbed practically the whole spud crop of the state, he can probably afford to go to California and take a needed rest.

ONCE in a while our boasted "Yankee shrewdness" is made to play second fiddle. A British contractor recently performed a neat trick on an American steel manufacturing concern. The Englishman in question secured a contract for building a section of an elevated railway in Boston. Knowing that because of the curious operations of the American protective tariff he could buy American made steel cheaper in England than Americans could buy it at their own doors he proceeded to take advantage of the fact. The Englishman wrote from England to several American structural iron works asking bids on a certain lot of iron. He selected the best bid and closed the contract. When the contract was properly signed he cabled the American iron manufacturer not to ship to Liverpool but to ship to Boston. The point of the Englishman's joke will not be seen by those who still cling to the idea that Americans can tax themselves rich. Neither will it be seen by those who still labor under the delusion that the foreigner pays the tax—Commoner.

THE Republic shakes its fist at the Ankenytes and warns them to keep off the grass in Yakima county. Without directly saying so, it intimates very broadly that this is a Wilson pasture ground and that no stray Ankeny beeves are wanted herein. Now in the language of the street urchin, "wouldn't that cramp you?" If it were the intention of the local organ to be fair and impartial—as it sometimes tries to assume—why did it not serve a similar notice upon the Wilsonites. Has Colonel Robertson closed his eyes and kept them closed while the Wilson clan has been laying the plans to secure not a part only, but the whole of the Yakima delegation. And by the way, if the colonel is as fond of publishing the news as he pretends to be why has he not told his readers ere this, that the energetic little man from Spokane, while here recently, had picked out the legislative ticket from this county.

A MERCHANT who had two stores in small villages tried an experiment. He put a bargain counter in each store containing the same articles at exactly the same price. In the newspaper of one village he did not advertise and sold goods amounting to \$984. In the store the same month in the village where he did advertise he sold goods amounting to \$1,723. In commenting on the result of his experiment, that merchant says: "People who read the advertisement would pass by one of my stores and drive miles to the other for what they could have gotten at the same price in my store at their door."—Ex.

Tobias Beckner, the pioneer merchant of Mabton, paid this office a pleasant call Wednesday while in the city on business. Mr. Beckner states that they are doing all kinds of business at Mabton this fall as the result of a good year for the farmers. New settlers are constantly coming in to that section and

buying land. A party has been there recently who desires to establish a French colony of 40 families and has been negotiating for a body of land lying north of Mabton.

Alfred Penny, of Staceyville, Iowa, is looking over the country with a view of locating.

All delinquent taxes prior to 1896 will be foreclosed, unless settled immediately, is the ultimatum of County Treasurer Dudley.

Mrs. A. Anderson left Yakima Wednesday, to join her husband who is now employed in Seattle.

A marriage license was granted to Nicholas Cullen and Miss Kate B. Campbell, of Prosser, Saturday.

Miss Nellie Rogers, who is attending the Normal at Ellensburg, came home Thursday for a few days visit.

The Congregational church has extended a call to the Rev. H. P. James, of Colfax, to occupy its vacant pulpit.

School district No. 57 which was recently formed from district No. 39, has issued \$400 in bonds for the erection of a school house.

Mrs. Maud Hill filed a suit in the superior court Thursday for divorce from J. C. Hill. The complaint alleges desertion and failure to provide.

The report, which was circulated about town, that a man was held up and robbed of \$40 near the water tank Monday night, proved to be a hoax.

William Martin aged 71 died at the home of W. J. Hess, on the Natcheez, Wednesday. Mr. Martin was a recent arrival from the eastern part of the state.

Read's steam laundry is being converted this week from one to a two story building. More room is needed to install the new machinery that has been ordered.

Miss Catherine Hayden, who has been sick at Waterville, was brought home by her father Thursday. Although not yet able to sit up, she bore the arduous journey very well and no serious results are feared.

The Hotel Yakima management has purchased E. W. Dooley's dray business and are now prepared to fill all orders promptly in the way of hauling trunks and parcels or moving household goods. Leave orders at hotel office. Phone 271.

A very pleasant house warming was held in the Cowiche Friday night of last week. The residence recently built by Geo. Weikel for his tenant C. M. Dilley, being completed, the young folks of the neighborhood all gathered in and dedicated the new structure. Dancing was the principal amusement.

Coffin Bros. have secured an option on the lots opposite the Yakima hotel, where the band stand now is located, and next spring will probably build a two story brick building, to be used in conjunction with the store room which they have leased from the Odd Fellows, who will build on lots across the street, now occupied by the Mikado.

A man named McDaniels, who was camping near the Schanno ditch, was arrested on a warrant sworn out by a Chinaman, who alleged that McDaniels' children, stock etc. were making life a burden to him. McDaniels was fined \$7.50 which barely covered the costs of the case. McDaniels with his family is on his way to Seattle in a covered wagon.

The second freight wreck of the

month, in this county occurred early Saturday morning, four miles this side of Prosser. Through a mis-understanding of orders two freights which were to have passed each other on a siding, met with the usual disastrous results to engines and cars. A fireman was injured, and the rest of the crews narrowly escaped. Traffic was delayed about twelve hours.

The Beggs & Bradner Co., of Seattle, this week added an annex to their cream station on West Yakima avenue. More room was found necessary in order to install a new separator, which is being put in and which will enable them to handle milk as well as cream hereafter. This firm is now shipping an average of 15 ten gallon cans of cream daily to Seattle. Ernest Fear, the well known creameryman is in charge of the company's local business.

J. W. Sindall returned Monday from Lewiston, Idaho, with the man Arthur Burke, charged with flimflamming Ole Sandberg of this city out of \$250 during Fair week. Mr. Sindall's trip was prolonged to a considerable extent on account of the necessity of going to both Olympia and Boisee for requisition papers. At Boisee he reports having met Fred R. Reed who, he says, looks as sleek and as well fed as during his palmiest days in Yakima.

James S. Stuart, the well known contractor and pioneer of this county, left Sunday for Los Angeles, Cal., to assume a highly remunerative position as superintendent of construction for the California Development Co. As was stated in this paper about a month ago, this company is engaged in constructing what will probably be the largest irrigation canal in America. C. R. Rockwood, the chief engineer of this great enterprise, came here expressly a few weeks ago in order to secure the services of Mr. Stuart who had formerly worked with him on the Sunnyside canal. Mr. Stuart will remain in California until spring at least and perhaps longer in case he is satisfied with the country and its prospects.

Gold Hill Is All Right.

R. D. Fife, president and manager of the Elizabeth Gold Hill Mining Co., came down from Gold Hill this week where he has been at work steadily since May last in developing the promising property of which he is the discoverer and principal owner.

With the assistance of one man Mr. Fife has run a tunnel this summer 115 feet into the main ledge. He is well satisfied with the results so far secured and feels confident that another season's work on the proposition will show wonderful values in the property. The other officers of the company are H. C. Wilson secretary-treasurer, while A. E. Livingston, Thos. Hope and W. H. Le-man with the two executive officers comprise the board of directors.

The company owns four full and two fractional claims on the main ledge, which can be traced distinctly for a distance of over two miles. Mr. Fife says that there has been more work done in that district this year than was done in the five or six years preceding.

A New Town In the Sunnyside.

J. H. Thomas & Co. are selling stock in a new company to be known as the "Yom Kippur Townsite Co." The principal object of the new corporation, as stated to the DEMOCRAT, will be to establish a new town to be known as Yom Kippur. The new townsite will be located on the left bank of the Yakima river, near the upper end of Snipes mountain. The new county bridge that has been built at that point will of course, put the new town in connection with the railroad station of Alfalfa, which is only 1½ miles away. In fact it is the intention of the organizers to build a spur from the new town to Alfalfa.

The railway company, it is understood, are willing to help in this matter to the extent of furnishing the necessary ties and rails. The spur will be constructed from Alfalfa only to the right bank of the river. The government will be requested to grant the privilege of building ware houses at the terminus of the spur on the reservation side. The townsite of Yom Kippur will consist of 165 acres.

Star Clothing House Burglarized.

I. H. Dills & Co.'s store was robbed Sunday night by someone who evidently needed a new supply of clothing throughout. It was at first reported that only a suit of clothes was taken, but a careful search showed that he had taken a pair of socks, a suit of underwear, suit of clothes, overcoat, silk vest, cuff buttons, scarf pin and necktie.

The overcoats and vests were disarranged, showing that he had tried on several before securing a fit. One man has been arrested on suspicion and is now in jail.

Yakima Market Report.

The local market for produce this week has been rather quiet. The scarcity of cars continues, and as a result the warehouses are nearly all full and few sales are reported. The car famine is expected to continue for the next 30 days, and it is feared that when it does break the mass of produce now accumulated at the warehouses along the N. P. will be rushed off in such quantities as to temporarily glut the market.

POTATOES.

Potatoes are steady at \$15. The eastern demand has practically ceased at present, but the western demand can scarcely be met on account of scarcity of cars. Very few farmers will contract until the market makes a decided change one way or another.

HAY.

Alfalfa is quoted at \$6.50 and timothy \$10. The scarcity of cars here is enabling other points to supply the demand for hay, which otherwise would be filled by the Yakima farmers.

APPLES.

Apples find a ready sale at from 60c to \$1.00. Some Spitzenberg and Wine-saps are being sent to the Chicago market, but the chief demand is from Montana and Sound points.

HOPS.

The local hop market remains unchanged. A few sales are reported at 10 and 10½c.

City Buys Combination Chemical Engine and Hose Wagon.

At the regular session of the council Monday, proposals were read by Fire Chief Hauser from A. G. Long, agent for the Fire Extinguisher Mgr. Co., of Chicago, for the sale of a new champion combination chemical engine and hose wagon. By request of the council through Mr. Hauser, Agent Long arrived here Wednesday, and met with the council in special session Wednesday evening.

Mr. Long set forth the merits of his machine at great length and stated that they were in use in all the principal cities of the state. The council, having already decided that better fire protection is absolutely necessary, after due consideration closed the deal with Mr. Long, paying him \$500 in cash on delivery of engine, and the balance, \$1650 in warrants at 6 per cent, making a total of \$2150.

The new engine carries two chemical cylinders, two extra charges, 200 ft of chemical hose and 800 ft of ordinary water hose. Mr. Long was asked to give his opinion concerning the hydrants ordered through Mr. Keck, which were found defective. He pointed out a few defects which can be easily remedied and the council decided to accept them when this was done.

"A Wise Woman," Oct. 31st.

The engagement of this company at the Larson opera house gives promise of being the most important musical comedy event of the season. The play which is in three acts, is so constructed as to give scope for the introduction of specialties, and from the reviews seen of the production these features are said to be of a very superior order.

THE YAKIMA DEMOCRAT

NORTH YAKIMA, OCTOBER 26, 1931

A Sad, Sad Story.

Old man Russell Sage spent his 80th birthday at his desk and explained that "I do everything in moderation." To us the picture of that old man sitting through his 80th birthday at his desk and trying to accumulate a few more dollars, is a pathetic one. Think of him sitting there, his heart dead to the emotions which warm other men's hearts, his brain intent only on accumulating a few more dollars; his youth dead long ago and all its thrills forgotten; his loves all dead save his love for gold; himself an animal merely, save the intellect that is all concentrated now on the one debased desire to accumulate more money. If ever the thought of stopping work comes to him he recoils from it; "No, no," he whispers to himself; "that would be a sign that I am growing old and Death might hear of it," and so he works and works, a helpless, rusted machine that was once a human being, that once personally had hopes, had joys and sorrows, and worked that he might be sure or an old age free from care.

Alas, he worked until that work supplanted the native impulses even as the fumes that rise in eruptive rocks eat out their substance and fill the place with their own products. He believes he is still Russell Sage, and does not know that where his youthful, human and generous impulses were there is nothing now but the avarice of old age goading him on to get more gold to feed upon. So it will be until after a little more the old machine will run down and stop and hired bearers will have to be secured to carry it to where it may be put unregretted out of sight.—Salt Lake Tribune.

Destruction of the Western Ranges.

Being born and raised in the heart of the range west of the Rocky mountains, and having observed from year to year the destruction of the feed upon those ranges by the immense herds of cattle, sheep and horses. I am constrained to write a word regarding this destruction, writes F. L. Featherston, of Washing-

ton county, Idaho, in the Practical Farmer. Twenty-five years ago the valleys and mountains of Idaho, Nevada and Utah were waving with rich grasses, enough being produced every year to feed more head of cattle than has ever been grazed on it in any five years, providing it had been fed as stock is fed on any good farm. We cannot term in destruction where grass is consumed by the stock turned into beef, mutton or horse flesh, but when the grass is eaten and the roots trodden out and the ground left barren, it is destruction. I have observed that cattle will graze on a range from year to year and there will be little damage done to the roots of the grass, but with horses and sheep it is not the case. Horses eat the grass to the very roots, exposing them to the hot sun and the roots die.

Sheep do not eat grass when they can get weeds that they like, but woe to the range that they traverse. As I write I look upon Mount Cuddy, and see great clouds of dust rising. If you could be transported to the scene on the mountain side you would see some two thousand sheep in a drove traveling along the mountain in the cool of the morning eating their breakfast. They nip a little on this brush and a little on that one, while under their feet is being trodden the rich grasses which they seldom touch. This band of sheep will tramp and uproot the grass until it becomes too hot to travel, then they will take refuge beneath the brush or the trees until evening, when they will again begin their march of destruction, treading out thousands of acres of grass during one summer. This has gone on from year to year until now the mountains and valleys of the far west lie brown and barren in the scorching sun. Not even a sheep can now exist in many of these once beautiful grassy plains.

Tot Causes Night Alarm.

"One night my brother's baby was taken with croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. 50c and \$1.00. Trial bottles free at W. E. Ayres.

Oil cake meal, ground bone, clam and oyster shells, beef scraps and phosphate fertilizer. Special price in ton lots. Coffin Bros.

The Commoner.

(Mr. Bryan's Paper.)

The Commoner has attained, within six months from date of the first issue, a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of the Commoner Mr. Bryan contributes his best efforts; and his review of political events as they arise from time to time cannot fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and the DEMOCRAT together for one year for \$1.75. The regular subscription price of the two papers when subscribed for separately is \$2.00.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, Oct. 17, 1901.

While every effort is being made to prevent publicity being given to the fact it is learned that the treasury statement for September, which shows a falling off in our export trade for that month of over \$9,000,000, as compared with the corresponding month of last year, has given the republican leaders a bad scare and that means to reverse this condition of affairs are the chief topic of discussion at the White House. Senator Frye was summoned and immediately seized the opportunity to push his subsidy bill into presidential favor, although, of course, he also discussed reciprocity treaties as a valuable means towards increasing the export trade. The president also sent word to Senator Lodge that he would like to see him immediately upon his arrival in this country and accordingly that gentleman came to Washington before going to his home in Massachusetts.

It is confidently predicted by people who ought to know that the president is most anxious to have Senator Lodge in the Cabinet and that he would be much relieved if Secretary Hay would kindly tender his resignation, as that is the portfolio that he desires to offer to Lodge. So confident is the president that Mr. Hay will resign as soon as the isthmian treaty is concluded, that he has persuaded Mr. Lodge to make no effort to secure the chairmanship of the committee on foreign relations which, by right of seniority, would go to Senator Cullom and which Senator Lodge would prefer to everything else except the portfolio of state. It is given out that for the present Senator Lodge will retain the chairmanship of the Philippines committee.

Secretary Gage seems to be slated for retirement and in is believed that he will hand in his resignation soon after his return from the west. The friends of the new republican machine in the south are trying to persuade the president that the cause would be greatly advanced by the selection of Senator McLaurin for a Cabinet position and it is barely possible that he may be invited to join the presidential advisory board. Although Secretary Root has taken no definite steps in that direction, his friends think his failing health will compel his retirement and that he will be forced to go abroad for a time.

A number of congressmen who have been in Washington during the Schley Court of Inquiry, which is still in progress, have expressed the opinion that irrespective of the merits of the Schley-Sampson controversy, the affair has developed the existence of a condition of affairs in the navy department which should be investigated and it is considered extremely probable that a congressional inquiry, which will thoroughly overhaul the department, will be next in order. The only thing that will prevent it will be the opinion by the party leaders that such a course, in view of the amount of bad government it would be likely to expose, would be bad politics.

The republican leaders are greatly relieved at the decision of Mr. Roosevelt not to interfere with the status of the Philippines for an indefinite period. At the present time the Dingley tariff bill is in force between the United States and the Philippines and that quite suits the protected interests. It will be the desire of the republicans, when any change is made, to put as high a tariff

as possible on exports from those islands and the leaders are by no means anxious to precipitate a discussion, which, at this time, would prove productive of as much feeling as did the Porto Rico tariff bill.

The retaliatory tariff devised by Secretary Gage to punish Russia for legislation believed to be derogatory to American sugar interests seems to be a particularly sore point with the administration and one concerning the results of which it is difficult to obtain information, but it is known that the republicans are most desirous of negotiating a reciprocity treaty with Russia and the subject is one that will receive a great deal of attention from the president and the senators, who favor him with their counsel during the next two months.

Captain George P. Ahern, ninth infantry, who is at the head of the Philippine bureau of forestry, and who is now in Washington, gives me some interesting information on the forest resources of the Philippines. He says there are about 50,000,000 acres of forest land in the islands and much of the timber is of the more valuable varieties, quite as good as that of German forests which yield their government an annual gross income of \$181 per acre, the cost of provision being about 55 per cent of the gross receipts. Captain Ahern believes an equal or greater income can eventually be derived from the Philippine forests and that the expenses can be reduced to a smaller percentage of the receipts.

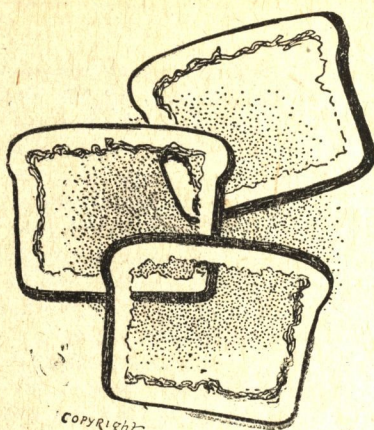

Curing Prunes.

Clarke county has long been famous for the excellence and large yield of its prune orchards. To care for the product and prepare it for market two large packing houses have been erected in Vancouver this fall, and they are said to be the first established in this state. The process is so simple that there is no reason why they should not be erected wherever the product supplies more than the local demand.

One of the Clarke county factories has been open less than a month and already employs about 80 operatives. One of the local newspapers thus describes the process of curing the crop and packing it for the distant markets: The prunes are brought to the packing house in sacks, then delivered to the elevator, which carries them to the top of the building. Here they are graded by machinery into the several classes to which they belong, respective to size of fruit, known as 20-30s, 40-50s, 60-70s, the term meaning the number of prunes required to make a pound. This is done by screens. From the screens they fall into bins, and are then steamed, which removes all dirt, cleansing them thoroughly, as well as killing all insect life or germs. This process also crystalizes the sugar in the fruit which gives them a delightful flavor, and is likened by many to prepared figs. They are then ready for the boxes. Two layers are first packed by hand in the bottom of the box, the remainder being filled in loosely. A cover is put on, and the bottom becomes the top of the box when opened. They are put up in 25 and 50-pound sizes, and are shipped to all parts of the country. From 20 to 40 tons of packed fruit can be turned out in a day. The season is expected to continue some three weeks yet.—Olympia Standard.

Lieut. Briggs Commits Suicide.

Word was received here Tuesday, that F. T. Briggs, who was first lieutenant of Co. E., had committed suicide at Spangle, this state, where he had a position as station agent. Mr. Briggs was formerly telegraph operator here, and had many friends to whom the news of his rash act came as a great shock. Lieut. Briggs leaves a splendid record for army service performed in the Philippines. A number of his old army comrades here are of the opinion that Mr. Briggs never fully recovered from the long spell of fever that he went through while in the service.

Admiral Schley.

They're fighting the battle all over again;
The big guns are booming once more;
And Sampson today lingers far, far away
While Schley bears the brunt—as before.
On the old fighter's track the entire snarling pack
Have followed with hue and with cry,
Till now when he faces them all, they slink back
From the sight of brave Admiral Schley.
When heroes were needed, he stood on the bridge
And met the proud navy of Spain.
He followed it on till the battle was won
And its vessels went down in the main.
When heroes are honored he's slighted and spurned,
While others are praised to the sky.
He yet is deprived of the glory he earned,
Our gallant old Admiral Schley.
But though he's insulted by puppets in power,
The people are slow to forget.
They only await a more fortunate hour
To crown him in victory yet.
His fame is secure. When the scroll is unrolled
His name will be written on high
Mid those of our gallant sea-fighters of old,
Made brighter by Admiral Schley.
The man who is right can afford to repose
In the homage and love of the just;
To reckon that Time is his friend; and his foes
At last will go down in the dust.
The victim of hate with assurance can wait
For wrong and detraction to die.
The world holds a crown of esteem and renown
For the brow of brave Admiral Schley.

WHAT MAKES BEAUTY?

Beauty is made or marred by the blood. When the blood is impure, the cheeks grow sallow, the eyes dull, the hair loses its luster. When the blood flows through the veins in a pure, rich current, the eyes sparkle, the skin is clear, the complexion beautiful. Women who use Dr. Pierce's Golden Medical Discovery, find that it is a genuine beautifier. By purifying and enriching the blood it puts a bloom on the cheek and a brightness in the eyes, which tell the story of perfect health.

"Golden Medical Discovery" does not make blood. No medicine can do that. But the "Discovery" acts upon the blood making organs, giving them vitality, and increases the activity of the blood-making glands. It strengthens the stomach and rids the system of the waste matter which poisons the blood, and through that medium breeds disease in heart, liver, lungs and nerves,—or other organs, which all depend on the blood for their life and healthy activity.

"Golden Medical Discovery" is a temperance medicine containing no alcohol, neither opium, cocaine, nor other narcotics.

Accept no substitute for the "Discovery." Substitutes are a profit to the dealer but a loss to you, because they will not do what "Discovery" will do for you.

Was Tired all the Time.

"Having been left weak from fever last October, I was under the doctor's care here," writes Mrs. Alice E. Casebier, of Crawford, Dawes Co., Neb. "I took medicine, but did not seem to gain very much. I was tired all the time, had no appetite, had wandering pains all over me more or less, and was very nervous, as I had been sick all the summer. I was all run-down and didn't know what ailed me. I got advice from Dr. Pierce, telling me my symptoms better than I could describe them myself, and also telling me that I would have to take care of myself, and how to take the medicines. I took four bottles of 'Golden Medical Discovery,' and five of 'Favorite Prescription,' and gained strength right along. I took one bottle of the 'Pleasant Pellets,' also. I know that these medicines will do all that they are recommended to do."

Suffered Three Years with Salt-rheum.

"With the greatest of pleasure I write to you the benefit I have received from your 'Golden Medical Discovery,' after having suffered for three years with salt-rheum," writes Miss Bertha Peters, of Lulu, Monroe Co., Mich. "The humor was on my hands, and I had been treated by our home physician. He advised me to keep my hands out of water, which I did, but that did not help me. After I began the use of Dr. Pierce's Golden Medical Discovery I took seven bottles, and can now say with pleasure that I am cured. Nobody knows the intense pain I have suffered. I could not sleep at night, the stinging, burning, and itching sensation would be so bad, sometimes I could hardly stand it. I thank you for your kind advice."

Dr. Pierce's Pleasant Pellets cure constipation.

The Tacoma Ledger Walla Walla correspondent, who has furnished the news that Governor John R. The Tariff Rake-off.

A Belfast concern recently purchased 20,000 tons of American steel at a price \$5 per ton lower than the price prevailing in the United States, the steel to be laid down in Belfast. In other words, the American steel maker paid the ocean freights to Belfast and sold his product cheaper by five dollars a ton than he would sell it to an American consumer. How is he enabled to do this? By having the benefit of a protective tariff, which enables him to charge his American customers just that much more than they would have to pay if competition were allowed. The Chicago Tribune (rep.) admits that "A tariff such as that on steel is indefensible."—Commoner.

The Haverly Minstrel show, the coming of which is announced has been a standard American attraction since the palmy days when the redoubtable "Jack" Haverly controlled a score of theaters on both sides of the Atlantic and had as his assistants such men as the Frohmans and others now equally conspicuous in the theatrical world. Haverly's venturesome ambition cost him the greater part of his immense fortune but to his minstrel company he clung with undaunted courage and through the years it has survived the fiercest rivalry and keenest competition. Mr. Nankeville who now directs the Haverly enterprise, encouraged by his

success last season, has this year striven to maintain the Haverly name and fame with an organization as complete as money and brains can make it. He again presents as his chief comedian Mr. George Wilson, a name familiar wherever minstrelsy is known and has furnished him as assistants in fun-making, comedians but little less known, such as Dan Allman, Eddie Mazier, Tony Conley, Herman Marion, Billy Pearl, Willis Rankin and Eddie McGlue.

Musically there has been no deterioration from the high standard of excellence which Haverly has always insisted on maintaining. Young, well-cultivated, fresh voices will compose the choir, with soloists who excel as intelligent readers of pleasing ballads. An orchestra of picked instrumentalists will be directed by Claude Menkee, once violin virtuoso of the famous Boston Symphony orchestra, while the band is lead by Frances Southerland, who as his assistant conductor in the celebrated British Grenadier Guards Band, divided honors with the veteran, Dan Godfrey, in the recent American tour of the popular English band.

The olio which will be made up exclusively of legitimate minstrel acts, good old-fashioned black-faced minstrel tradition being rigidly adhered to, includes the irresistible monologue and parodies of George Wilson, the musical act of Garden and Somers, which was one of the hits of last season's Haverly

tour, Mazier and Conley, in a funny talking specialty, Marion and Pearl, in acrobatic song and dance, and closing with an European importation, the Young family, in a humorous black pantomime entitled, "The House of Trouble."

Inspection for Company C.

Col. Kinzie, military instructor at Pullman college, was here Monday in his capacity of militia inspector. The officers of Co. C. were summoned and a sight inspection of all the company's accoutrements was made. A good deal of the stuff on hand including some of the old uniforms, was condemned by the officer and were burned according to his instructions. At the meeting of the guard at the armory that evening, Col. Kinzie put the boys through the paces at a rate that they were probably quite unaccustomed to. Col. Kinzie has the reputation of being a very excellent drill master.

Oh No, He's Not a Democrat.

President Roosevelt has appointed Ex-Governor Goode Jones, of Alabama, to be United States district judge for the middle and northern district of Alabama, to fill the vacancy caused by the death of Judge John Bruce. In bold headlines we are told "A Democrat Made Judge." This is a mistake, for in the dispatch we read that Jones is a "Gold" Democrat and supported Palmer and Buckner. There are no "Gold" democrats. Democrats are not goldbugs, or the advocates of goldbugism. The so-called Gold Democrat is a Mark Hanna Republican. The only Democrats are those who adhere to the principles of Jefferson, Jackson and Bryan, and who believe in and support the declarations made in the Kansas City platform.—Register-Democrat.

"A Wise Woman," October 31st.

One of the cleverest combinations touring this season has been secured as the attraction at Larson's October 31st.

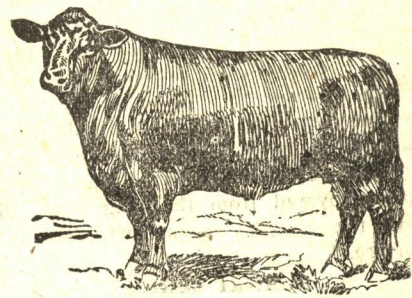

The company referred to is headed by Ethel Balch, Marie Lamour and Frederic Murphy, all of whom have been prominent and attractive members of

several metropolitan organizations. The play through which they will be introduced to the local theatre-goers is Wilfred Clarke's London comedy success, "A Wise Woman." The company has been accorded the highest praise everywhere they have appeared and it is claimed for them that they are rapidly earning a high position among the standard attractions of the year. Mr. Clarke, who did the staging of his comedy when it was put on at the Strand theatre in London, where it ran for 238 nights, has looked after this important detail for the present company,

Council Proceedings.

The city council met in regular session Monday evening. The mayor being absent, Councilman Reed was chosen to take the chair.

The minutes of the preceding meeting were read and approved.

The city tax rate to be levied for the ensuing year, was the first matter to be considered.

City Clerk Doust then read the report of City Treasurer Lemon on city finances up to Oct. 1st, as follows:

Bonded indebtedness—Sewer bonds, \$60,000; funded bonds, \$30,000; total \$90,000. Balance of warrants on current expense fund yet uncalled, \$3840.40. This shows the city's finances to be practically the same as a year ago.

Expenses of city for year ending Oct. 1st, 1901, including interest on sewer bonds and funded indebtedness were \$30,361.00; same for the preceding year, \$22,792.28; an increase of \$7568.72. This increase was met in the face of a 3 mill reduction, made last year, by the increased income from fines and similar sources of revenue. This increase in expenses was due in part to the small-pox expense amounting to \$1000 and to the purchase of the stone crusher.

After listening to the report Donald moved that the assessment be fixed at 13 mills on the dollar, 2 mills for sewer bonds, 2 mills for funded indebtedness and 9 mills for current expense fund. This with the county and school assessment will make the total 40 mills for the city, against 41 mills for last year. On a vote Donald's motion was accepted.

The application of Geo. T. Blair for regular police service was read and referred to police committee.

Attorney Whitson representing certain residents of Moxee avenue appeared, asking an extension of time in which a protest against grading said avenue could be filed. The extension was granted.

An ordinance prohibiting the nitching of horses on Yakima avenue, which was

introduced at the last session, was voted on and lost.

Bids for the macadamizing of First and Front street were opened. E. C. Burlingame's bid on Front street was \$4700 and \$3250 for First street. The bid on Front street is \$1425 less than the bid which he put in at the last session of council. McKivor's bids were on Front street \$4640, and on First street, \$3570.81. Both contracts were awarded to Burlingame. The bonds were placed at \$2000 and he was given until Feb. 1st, 1902 to complete the two streets.

Fire Chief Hauser reported that the hydrants ordered by the city were of an inferior make. It was decided to test them farther before taking any action.

By advice of city clerk a warrant for \$1802.25 was ordered drawn, to pay the semi annual interest on sewer bonds.

It was moved that all vaults of closets contingent to sewers, be either removed or connected with sewers in the next 60 days. The resolution was adopted.

The matter of better fire protection was next considered. By reconsideration of Chief Hauser, the council voted to allow each fireman, not to exceed 20 in number. \$2 for attendance at a fire.

The department was authorized to purchase a team not to exceed \$300 in cost.

Hauser also reported that he had been in correspondent with a Mr. Long of Seattle the agent for a combination chemical engine and hose wagon. Hauser was instructed to ask Mr. Long to meet with the council at his earliest convenience.

The council also ordered that the upper floor of the city hall, which is now occupied by the marshal's office, Justice MacCrimmon's office, police court and council room, should be vacated except the council room.

The hydrants were reported to be in a very filthy condition, and the marshal said that the water company would neither flush them or allow the city the use of the water to do so. It was resolved by the council that the Water & Light Co. should not be paid a cent for water or light until the city engineer reported the water mains flushed out.

Attention was called to the fact that the lights about the city do not always burn. The marshal was asked to take note of these and the amount would be deducted from the bills.

Hall stated that a serviceable electric fire alarm system could be put in for \$200 or \$250. The matter was referred to the committee. The council then on motion adjourned.

Explanation To The Public.

We feel it is the due of the business people of the town to fully understand the facts in the case of the Spokane Home Finding association which organized a local board here about a year ago. At that time there was no other society working here and nothing had been done for a year previous to that time. The Seattle association had collected funds and secured life memberships, but had done nothing in the way of caring for homeless children. The Spokane association came in and after consulting with many of those who had supported the Seattle society and being assured that the field had been neglected by them, organized a board which has been in active service ever since, holding their regular meetings, and receiving and placing homeless children. The Spokane association has already taken and cared for one homeless child from the town and several from the immediate vicinity, and stands ready to do so in any deserving case.

While on the other hand, it is known that the Seattle society has declined to render aid in caring for children without additional recompense. We therefore leave it to the judgment of the public if the society that does the work and cares for children should not have the financial support of the people. Only during the past week the Seattle society had their field workers here who collected quite a sum of money. We feel there is sufficient work of this kind in the state to justify the existence of both societies if the division of territory is recognized by both as previously agreed upon i.e. the Cascade mountains to be the dividing line in this as in other matters in the state. We therefore hope and trust the public will feel inclined to lend their support to the society which stands ready to do the work. A petition is being put in circulation asking the Seattle society to leave this field to the Spokane organization and we trust it will receive the signatures of all fair minded people.

The officers of the local board of the Spokane association consist of Mrs. Ed. Whitson, president; Mrs. Alex. Miller, 1st vice president; Mrs. James Green, 2nd vice president; Mrs. G. M. McKinney, 3rd vice president; Mrs. T. B. Gunn, treasurer; Mrs. W. A. Bell, corresponding secretary; Mrs. H. B. Rigg, recording secretary.

John Morrissey an old and well known resident of the Natchez, probably had a narrow escape from death Tuesday. Being somewhat ill he concluded to take a dose of medicine out of a bottle which stood on the shelf among some others, but in the semi-darkness he drank from a vial that contained carbolic acid. When the mistake was discovered a messenger was promptly hurried to this city for a physician, who on his arrival afforded prompt relief. The fact that the strength of the acid had been largely dissipated through the lack of a stopper was probably much in Mr. Morrissey's favor.

A Fiendish Attack.

An attack was lately made on C. F. Collier, of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at W. E. Ayres drug store.

LOCAL HAPPENINGS.

I. H. Dills went to Sunnyside Thursday.

Maurice Evans, of Prosser, was a visitor in the city Friday.

John Bush, a well-to-do ranchman of Ritzville, is here to look over the country.

Col. Robertson, of the Republic, left on a business visit to the Sound Friday morning.

Lawyer Brand, who is ill with typhoid fever, was reported to be very much worse Friday.

Harry Van Horn was up from Kiona Thursday to be present at the organization of the American Fraternal Club.

Mrs. W. T. Clark accompanied by two of her children, left Saturday to pay a two months' visit with her mother and two brothers, who reside in Topeka, Kan. Mr. Clark accompanied them as far as Spokane.

A new floor is being laid in all the court house offices this week. This improvement was found to be absolutely necessary on account of the fumes and stench constantly arising through the old floor, caused from the cooking done by the inmates of the jail below.

The State Fair commission expect to get all their business settled and outstanding bills paid within the next few days. The illness of Secretary Gunn and the absence of other commissioners from town has somewhat delayed a final settlement. President Baxter says that all bills will be paid in full.

The people of Sunnyside held a very successful harvest festival at that place Thursday which, we are informed, was largely attended. Hon. John L. Wilson and Hon. Miles Cannon furnished some red hot oratory for the occasion. It has been asserted that the meeting was organized in order to boost a certain Sunnyside candidate for state senator, but this version is vigorously denied.

Contractor McKivor feels dissatisfied and aggrieved at the action of the city council in the letting of the contract to pave Front street. He accordingly, on Tuesday through his attorney, I. P. Englehart, filed an injunction suit against the city with the purpose of restraining it from closing the contract with E. C. Burlingame. The case will probably be heard in the superior court as soon as Judge Rudkin returns from the Sound.

An attempt was made to burglarize the home of Dan Sinclair on Sixth street about 11 o'clock Thursday night. Carl Sinclair, who had not yet retired, heard some one working at the front door. Taking a revolver he crept quietly down and attempted to throw open the door, but the burglar, as a matter of precaution, had removed the screws from the door knob so that it would turn without opening the door in case he was molested. The delay this caused in opening the door allowed him time to make good his escape.

Fraternal Club Organized.

Yakima Branch No. 1 of the American Fraternal Club, was organized according to program at Odd Fellows hall Thursday evening. The lodge room was taxed to its full capacity with the large number of applicants who were on hand to take the degree. All were duly obligated and witnessed the full exemplification of the work.

The ritual of the new order was pronounced by all present as being most beautiful. It was prepared by Hon. Edward Whitson, who received many compliments on the quality of his production.

The officers selected to serve until the regular election January 1st, are as follows: Speaker, W. W. Robertson; past-speaker, G. A. Graham; vice-speaker, W. M. Thompson; chaplain, E. B. Preble; sec., E. G. Peck; treas., J. D. Medill; conductor, F. T. Liggett; way-farer, Edw. Whitson; attendants, J. Kussmaul, Mrs. P. Frank; musician, Mrs. Edw. Whitson; graces, Mrs. Ella S. Stair and Misses Lombard, May and Preble; inside doorkeeper, L. C. Cody; outside doorkeeper, R. O. Bacon.

The club will meet regularly on the first and third Thursdays at Odd Fellows hall.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

KELLOGG & FORD

"A Wise Woman", October, 31st.

A company of American artists headed by Ethel Balch, Marie Lamour and Frederic Murphy, presenting a comedy of American authorship, which however, received its initial production at the Strand theatre, London, will be the attraction at Larson's theatre, Oct. 31st. The play referred to is Wilfred Clarke's

deliciously funny comedy "A Wise Woman" and its presentation in this country has so far proven a duplicate of its success in the British metropolis. This piece held the boards of the Strand theatre for nearly 250 nights to capacity business, and this fact alone would seem to be an unanswerable argument of success. Miss Balch who is being so strongly featured, was recruited from over one hundred applicants for the position, and the faith that was placed in her ability to make a success in a stellar capacity has so far been more than justified by the results. The best evidence of this is that, not only do the critics praise her, but tremendously large audiences have greeted her almost every night of the season.

"Cleopatra", October, 28th.

Mrs. Minnie Tittell Brune, who has scored such a pronounced hit in the dramatic sensation of the season, "Cleopatra", in which she plays the title role, is a California girl, and began her stage career when only a child. As co-star with Mr. Clarence M. Brune and Frederick Warde, Mrs. Brune scored a great triumph, but nothing in comparison to her achievements in this intricate and difficult part of "Cleopatra". In this play, the charming young actress has scored a personal triumph, all to herself, which eclipses even the hit made by the ensemble of the production, which is of a gigantic and elaborate proportions. Mr. Clarence M. Brune is of great assistance in the triumph scored by her. "Cleopatra" is presented by a company of good people, and will be the bill at Larson's theatre, October, 28th.

Notice of Assessment.

ASSESSMENT ROLL OF THE LOTS AND lands in Local Improvement District No. 24, as created and established by Ordinance numbered 305, entitled, "An Ordinance creating a Local Improvement District for the grading, guttering, macadamizing and curbing of Yakima avenue in the city of North Yakima, Washington, and providing for the grading, guttering, curbing and macadamizing of said avenue, and for the assessment of the cost thereof on the property benefited by such improvement, and for the collection of such assessment." Approved on the 19th day of March, 1901, together with a description of each lot and parcel of land, the name of the owner, and the amount of the assessment on each lot or parcel of land; all of said lots and lands being in the City of North Yakima, according to the plat and survey thereon on file in the office of the county auditor of Yakima County, Washington.

Notice to Contractors.

Notice is hereby given that the city of North Yakima will let a contract to grade MOXEE AVENUE in the city of North Yakima from the south line of West D. Street to the north line of West Spruce street in said city by grading said street between said points, said grading to be done, constructed and completed according to the grade marked out and established along said street by the city engineer and in all respects according to the plans, specifications and detail drawings of the city engineer for the completion of said improvement.

Plans and specifications can be seen at the office of the city clerk of said city. Sealed proposals for the contract for the above proposed improvement will be received by the city clerk up to the time the bids are opened, to-wit: on the 4th day of November, 1901, at 7:30 o'clock p. m.

All bidders will be required to deposit with their bids a certified check for 100 dollars on some bank in the city of North Yakima, payable to the order of the city treasurer, as security that said bidder will enter into a contract with said city in case such contract is awarded to him. The contractor will be required to enter into a contract and give a bond with approved sureties, as required by laws of 1897, page 57, within three days after notice from the city clerk that the contract has been awarded to him.

The city council reserves the right to reject any and all bids.
Dated at North Yakima, Wash., this 23d day of October, 1901. H. B. DOUST,

Call for Warrants—Current Expense Fund.

Notice is hereby given that the undersigned city treasurer of the city of North Yakima, Wash., will pay on demand, all warrants drawn on the current expense fund of said city beginning with warrant 6752 dated Aug. 6, 1901, up to and including warrant 6878 dated Sept. 18, 1901, and that interest will cease on said warrants Oct. 21, 1901.

Dated Oct. 17th, 1901.
City treasurer of the city of North Yakima, Washington.
By E. G. Peck, Deputy.

"A Wise Woman," Oct. 31st.

The brilliant musical comedy farce, by Wilfred Clarke, the talented author of "Oh! Susanah!" will shortly be seen at the Larson opera house with a remarkably strong cast, headed by Marie Lamour, for the past two seasons a prominent member of Augustin Daly's company, and Frederic Murphy, for the past six seasons a prominent member of the Julia Marlowe company.

Mr. and Mrs. Brune will present the great dramatic sensation "Cleopatra" on a return engagement, Oct. 28th. This masterpiece of the world's most famous author, has made a hit almost unprecedented in the annals of stage history. Every feature of the performance, in the matter of scenery, costumes, startling effects and competency of the company, numbering 60 people, have received unbounded commendation. The personal triumph scored by Mrs. Minnie Tittell Brune in the title role, has established this young and beautiful actress among the foremost emotional artists of this decade. The engagement in this city is for Oct. 28th. The seat sale is progressing with rapidity, and is indicative of a worthy audience to witness what will doubtlessly be the theatrical event of the season.

No company that we have ever heard of has ever come to this city with such favorable comments as "A Wise Woman." They have the unanimous endorsement of the press, and this you may rest assured will be your only chance to see this superior company, as they make but few stops going from New York to San Francisco. We have no doubt of their success here.

Mrs. Leonard Fowler, of Tacoma, wife of the editor of The State, joined her husband here last week. Mrs. Fowler is charmed with the sunlight of the Yakima valley.

Miss Opal Hellar, who is teaching in Ellensburg, was in town Sunday. From here she went to Seattle to attend the King county institute, which convened there this week.

Miss Lettie Kingsbury went to Seattle Sunday to join her brother and sister who reside there at present. Miss Kingsbury will be employed in the schools of VanAsselt, a suburb of Seattle, of which her brother John is principal.

J. A. Adams returned Monday from a visit to the Portland exposition. Mr. A. states that the fruit on exhibition there was by no means equal to that on exhibition at the State Fair. The Portland exposition closed Saturday night.

Miss Margaret, the youngest daughter of L. L. Thorpe, who has been very ill with the fever, is now quite recovered, much to the relief of her parents and friends. Mr. Thorpe is now daily expecting the arrival home of his son Dale from Cape Nome.

Miss Jessie, the 17 year old daughter of Mr. and Mrs. H. B. Doust, is in a very precarious condition of health. The young lady has been an intense sufferer for the past three months from nervous prostration and kindred ailments. Her many young friends will be pained to

learn that the physicians in charge regard the case as hopeless.
