Psalms — Gaebelein
The Prophetic Teaching of the
Book of Psalms.

There are more quotations from the book of Psalms, in the N.T. than from any book in the O.T.. Christ frequently quotes from it. When he was upon the Cross He recalled that there was one more prediction which was His to fulfill, and said "I thirst"

He expounded the prophecies found in the book of Psalms relative to Himself, to the two disciples on their way to Emmaus when He had taken His seat upon the throne He used the language of the book of Psalms.

There is a prophetic & progressive order in the book of Psalms though gathered from several sources. The Holy Spirit has seen

fit to place them in perfect order.
