THE CITY COUNCIL.

Big Grist Of Municipal Business Disposed of.

The regular bi-monthly meeting of the city dads was held Monday evening with the mayor and all members of the council present.

The first business of importance transacted was the passage of an ordinance regulating the laying of water or sewer pipe on macadamized streets. An ordinance said to have been drawn by the local Humane society for prevention of cruelty to horses, on motion of Donald was laid on the table. A lengthy ordinance regulating plumbing was read by the clerk and laid over. The ordinance for the extension of the fire limits was read for the third time and after being amended to meet the views of Sinclair, was passed.

A petition read from property owners on Wenas avenue asking for the grading of that thoroughfare, was granted and the clerk instructed to publish a resolution of intention. The same procedure was ordered relative to the grading of Kittitas avenue for which a petition was read and placed on file.

A petition was read from Stuhls Bros. asking for a saloon license on lot 8, block 10. The petition was signed by only 11 out of the 24 lot owners in that block and the block opposite. On motion of Sinclair the council refused to grant the license and the petition was laid on the table.

The petition of Robt. J. Merrill for the remittance of a fine amounting with cost to \$20.70 imposed upon him by the police judge for the violation of the quarantine ordinance was knocked out by Mayor Fechter on the ground that the council had no authority to pass upon the matter. The petition was signed by Police Judge Nichols and about 50 citizens.

A resolution was then passed directing the police judge and marshal to keep daily journals of the public business transacted by them and directing that the same be open for inspection by the public.

Under the head of unfinished business Chairman Sinclair of the cemetery committee reported an offer made by W. I. Lince to sell the city 40 acres of land for cemetery purposes at a valuation of \$6000, the terms to be \$1000 in cash and the balance payable in five years. The matter was laid over until the next meeting.

It was suggested that a shed ought to be built in the rear of the city hall for the better protection of the city's machinery. The matter was referred to the committee on fire and fire limits with power to act.

F. C. Hall then addressed the council and requested that the action taken in ordering the removal of a street light from the corner of S. Second and Spruce streets be rescinded. After much discussion a motion to that effect was made by Liggett and carried. Sinclair then stated that the ordinance requiring a license fee of \$10 per annum for the sale of cigarettes was not being enforced and a resolution was passed directing the city marshal to enforce the ordinance and collect the fee. The marshal was also instructed to enforce the ordinance requiring the cleaning of vaults and closets.

The mayor then suggested that something ought to be done to improve Yakima avenue and City Engineer Marble was called on for an opinion. The engineer stated that the holes ought to be filled with fine rock and the street rolled while it was yet soft and comparatively easy to handle. The engineer and street commissioner were instructed to proceed with the work.

Health Officer Frank was then invited to address the council on the subject of the smallpox epidemic. Dr. Frank stated that on that day (Monday) there were 17 houses in the city yet under quarantine, that the disease in nearly all cases was of a mild type and that no deaths had occurred or were anticipated. In two weeks more, he thought, the disease would be totally eradicated. No further business appearing the council then adjourned.

PROBABLY A MISTAKE.

Regarding the Exclusion of Sheep From Ranier Reserve.

The Spokane Spokesman-Review of the 17th contained a dispatch from Washington which stated that the secretary of the interior had determined that only 17000 sheep would be permitted to graze this season on the Ranier forest reserve but that 250,000 would be permitted to graze on the Washington reserve.

In discussing the matter Wednesday Secretary Sam Cameron of the Woolgrowers association, stated that he felt sure that this was a mistake and that the correspondent had got the two reserves mixed. On the Washington reserve last year only about 17000 sheep were admitted while on the Ranier reserve there were over 240,000. The Ranier reserve, in fact, has probably accommodated more sheep heretofore than all the other reserves in the country combined. Local sheepmen expect to experience no especial difficulty in getting their sheep on the reserve again this year.

Commercial Club Doings.

At the first meeting of the new governing board of the Commercial Club held Friday night of last week F. L. Chandler was re-elected secretary of the organization. President Englehart announced the following committees: Finance, Whitson, Fechter and Miller; House, Chase, Cline, Dam. Membership, Larson, Hall, Smith.

An amendment to the bylaws was submitted raising the membership fee from ten to twenty dollars. It was ordered posted and a general meeting was called for March 4th to vote on the proposal. It was decided by the board to continue the bi-monthly socials through the winter season inasmuch as none had been held up to the time of moving into the new quarters.

CATTLE ASSOCIATION MEETS.

An Interesting Session—To Largely Increase Membership.

A special meeting of the Yakima County Husbandry and Cattle Growers association met at the court house last Saturday afternoon with a fair attendance of the membership present.

President D. Sinclair and Secretary E. B. Marks were both present, the former in calling the meeting to order stated that the object of the special meeting was to take in a number of new members, make arrangements to largely increase the membership and for the transaction of such other business as might properly come before the meeting.

H. H. Allen, John Loudon and others then went forward and signed the roll, after which a discussion of some length ensued as to the best means of increasing the membership, all present seeming to favor the idea of getting additional members.

A. J. Splawn, J. J. Wiley, John Loudon and others made speeches regarding the condition of the range and the necessity of taking some action looking to its better protection. Mr. Wiley subsequently made a motion authorizing the chairman to appoint seven members as an executive committee with power to act. The motion was passed without a dissenting voice and the chairman appointed as such committee Messrs. T. D. Quinn, A. J. Splawn, J. J. Wiley, W. G. Griffiths, H. D. Winchester and John Loudon. On motion of Mr. Splawn the chairman himself was named as the seventh member of the committee.

John Loudon then read the rough draft of a bill that he had prepared for the purpose of protecting the grass on the grazing lands owned by the government. The bill in effect provides against the herding or driving of stock on the public lands between Dec. 1st and April 1st of each year and provides a severe penalty for any violation. After adopting a preamble to the bill offered by Mr. Splawn, the meeting by vote approved the bill and it was then turned over to the executive committee with instructions to forward the same to the different members of the Washington delegation in congress.

After the transaction of some routine business the meeting then adjourned subject to the call of the chairman and secretary. It is understood that the executive committee will at once begin active work to very materially increase the membership of the association.

PROPERTY OWNERS COMBINE

To Shut Out Saloons in Blocks 10 and 11.

A majority or what appears to be a majority of property owners in blocks 10 and 11, facing on Yakima avenue, have come to an understanding the purport of which is that no more saloons will be permitted to do business in that district. The combine seem to have come about as the result of an effort on the part of Stuhls Bros., recently of San Francisco, to establish a saloon in the old Gyp Wills building, lately vacated by the Yakima Furniture Co.

The building was purchased about two weeks ago by B. W. Pickett and leased to the Stuhls Bros. for saloon purposes with the proviso that these gentlemen would be able to procure a license. Their petition was considered at Monday night's session of the council but was laid on the table for the reason that as it stood it did not have the names of the required number of property owners attached. Under the existing ordinance 13 property owners in the two blocks would first have to give consent. Mr. Stuhls had originally secured the consent of the owners of 14 lots and considered the matter settled. A. D. Sloan, however, as the representative of three lots, just before the council assembled instructed the clerk to withdraw his name from the petition which left the applicant in the minority.

Just what the outcome of the matter will be no one exactly knows, although it seems likely that if the combine sticks the saloons will be forced to evacuate those two blocks, at least. There is some talk that the city council may conclude to repeal the ordinance which governs the situation. The manifest purpose of the combine is to force the saloons to move to the side streets.

THE YAKIMA DEMOCRAT,
JOHN DAVID MEDILL,
Editor and Publisher.
Entered at the North Yakima Postoffice as
Second-Class Matter.
One Dollar Per Year—In Advance.
Published every Saturday morning at the
Democrat Printing House on First
Street, North Yakima, Washington.
OFFICIAL PAPER OF NORTH YAKIMA.

THERE is an old saying that a lie can be depended upon to travel faster than the truth. This time worn adage was well illustrated in last week's issue of the Goldendale Agriculturist, an alleged newspaper that is known among the printing fraternity as the "Typographical Freak." This paper is published by a man by the name of Story, who is said to have been a populist once upon a time, but who subsequently changed his politics in order to put himself in a position whereby he might be enabled to lick up the crumbs that fell from the republican table. Indeed this editor's conversion is said to have been consummated through negotiation and the value of it—if such a word is applicable—paid for in official "pap." It is all very natural, of course, that such a paper should quote approvingly from the columns of the Yakima Republic for without doubt there is a sort of fellowship between the editors of the two organs.

The DEMOCRAT has aroused the ire of these partisan publications by telling the people the truth about Mr. Jones' grazing bill. They seek to defend the congressman and to cover up what we in charity call his mistake, by attacking the editor of this paper, insinuating that he is a liar and is actuated wholly by a desire to make political capital at the expense of Mr. Jones. If these organs believe that they can best subserve the political interests of Mr. Jones by such a policy let them go right ahead. We assure the public that we can stand it if Mr. Jones can.

THE delegation in congress from this state or rather the republican portion of it are continuing to have a cat and dog time over the distribution of the offices. The fight that is on was quite interesting at first, but it has ceased to be so and in fact has become very tiresome. If there was any principle involved the public in this state might be expected to take some interest in it but as it's simply a Kilkenny fight over the spoils the people don't care a rap. The fine Italian hand of John L. Wilson is ever visible in the wrangle and to an outsider it looks as though the smooth extensor was patting the participants each on the back and urging them to fight to a finish. The longer Wilson can keep the others fighting the longer will his friends and appointees continue to draw their salaries. Congressman Jones, it is said, sometimes sides with Foster and sometimes with Cushman in the hope of keeping in with both. "Cush" is probably the aggressor as he realizes that Foster's motive is to push him out of public life. There is a big fight on between these two statesmen over the appointment of a Yakima Indian agent. Foster is said to favor Dr. Hare while "Cush" is for the re-appointment of Jay Lynch. Rather than have Foster win he would abolish the agency. In this matter Jones is said to be in sympathy with Cushman.

Gov. McBRIDE after making a thorough examination of the state penitentiary at Walla Walla has given it out flat that he is thoroughly satisfied with the manner in which that institution has been conducted and that he feels disposed to allow Warden John B. Catron to remain in charge of it. This news comes rather as a surprise, for the politicians had all figured that Mr. Catron would be among the first to walk the plank. By thus recognizing efficiency and fitness in public place rather than the demands of the hungry place hunters Gov. McBride invites public confidence in his administration. The office seekers may not like it, but it mat-

ters very little whether they do or not. Efficiency in public officials is what the people want. It is what they pay for and what they are entitled to.

SENATOR TURNER'S impassioned denunciation of the republican party's Philippine policy as constituting the worst blow struck at liberty since liberty first found a foothold on the American continent is justified by the facts in the case. The imperialist clique in the republican party is in the habit of belittling such speeches by sneers and gibes, but the truth cannot be obscured in such manner. The Philippine policy now prevailing is a policy of imperialism and colonialism, utterly foreign and antagonistic to American principles and teachings. The American people are already paying a bitter price for this unamerican policy. They will pay a ghastly price indeed if that policy is permanently followed. Happily, the likelihood of an American awakening to the folly and the sin of colonialism and imperialism is daily becoming stronger.—St. Louis Republic.

PRINCE HENRY of Prussia is due to set foot on the shores of America today and no doubt will receive an enthusiastic welcome. There will be a good deal of snobbery and flunkeyism exhibited over him as a matter of course by that class of Americans who are always anxious to show their love of royalty, but it is not fair to blame the German prince for this. He comes here as the guest of the United States, the representative of a great and friendly power and is entitled to courteous and considerate treatment. The DEMOCRAT has no sympathy with blatherskites of the Wheeler type who go out of their way to insult and lampoon a guest of the nation.

GODWIN is to be the nominee of the democrats for mayor of Seattle, while the unspeakable Humes is again to be the standard bearer of the republicans. Godwin is both a clean and able man and ought to win, but he probably will not. Humes as of old, is warmly supported by all the rag tag and bob tail element of the town. Every bunco steerer, every surething gambler and every thug and law breaker below the "dead line" will be whooping it up for Humes until after the votes are counted. The republican party of Seattle is the willing partner of vice and crime in the most degraded forms.

Gov. TAFT says that high salaries are a necessity in the Philippines. The congressional investigation of the Philippine commission brought out the fact that Governor Taft has been living in a palace, that his servant hire is \$3000 a year and that he keeps 14 horses in his stables. It is needless to say that the governor did not put on so much dog when he was living in Cincinnati and was a plain ordinary U.S. judge. Of course, imperialism is expensive. It has always been so since government was first instituted among men?

Gov. McBRIDE has some very sound and healthy ideas about the free pass evil. At Spokane recently his excellency said: "I do not ride on free transportation myself nor will I permit my appointees to do so. A state official has no right to accept free transportation, or annual passes from a railroad company. There is no use arguing the morals or ethics of this question. They are patent to everybody." Bully for Gov. McBride.

POLITICS makes strange bedfellows. Witness the Wilson men and the Ankeny men working harmoniously together in Seattle to bring about the defeat of Mayor Tom Humes. On the other side is Ex-Gov. McGraw, Gov. McBride and Senator Preston working tooth and nail to save the day for Humes. Things are getting pretty badly mixed in g. o. p. politics.

W. D. JENKINS who was secretary of state from 1897 to 1901, died last Sunday in San Fran-

cisco aged 50 years. Mr. Jenkins was a man of much ability who led a life of usefulness. He was a genial, whole souled, generous man whom it was both a pleasure and a privilege to know.

THE inhabitants of New Guinea are behind the times and need civilizing influences worse even than the Filipinos. They are reported to have murdered a party of Frenchmen sent there for scientific purposes recently and to have added insult to injury by insisting upon teasing upon them afterwards.

Gov. McBRIDE cheerfully admits that all the state institutions so far visited by him are in good shape, even though they have been in the hands of the Democrats for the past five years. And the public will accept the testimony of Gov. McBride at its full value.

A LOCAL republican who came into our office this week and left his subscription, stated that he found it necessary to have the DEMOCRAT in order to find out what was going on in his own party. "Now wouldn't that kill you?"

If the farmers of this and adjoining counties hope to wield any influence with the powers that be in Washington they ought to know by this time that they cannot hope to achieve it by any other means than through organization.

It is noticeable that Gov. McBride is not appointing any of the Wilson following to public office in this state. That faction, it seems, is being studiously ignored by the new governor in every county of the state.

MISS STONE the victim of the Bulgarian brigands, is soon to be released. The condition ought to have first been insisted upon that she is not to take the lecture platform.

MR. ROOSEVELT gives it as his opinion that the Santiago naval battle was a captain's fight. Well, that is, at least, more honest than saying that Sampson won it.

WHEN the governor really makes up his mind to pay a visit to Yakima he would do well to announce his coming through the junior republican organ.

SMALLPOX SCARE DYING OUT.

About a Dozen Houses Still Under Quarantine.

The smallpox scare seemingly has about died out in North Yakima. There is still of course, quite a number of cases under quarantine but the number is growing less day by day. Health Officer Frank reported Friday, that he still had 12 houses quarantined, but that in a majority of the cases the patients were either convalescent or well so far as the disease is concerned. Dr. Frank thinks that in two weeks more the epidemic will be almost entirely eradicated.

Died of Heart Disease.

Charles Lee a resident of Yakima City and well known throughout this county, was found dead near the depot at Old Town Friday morning.

Mr. Lee had been to North Yakima Thursday and departed for home about 4 o'clock. He busied himself about the place for a time but when supper was ready failed to respond when called. His wife waited some time for him to reappear and on his failure to do so notified the neighbors. A search was instituted for the missing man but was subsequently abandoned on the supposition that Mr. Lee had returned to this city. Friday morning the body was found near the depot. The remains were cold and stiff indicating that death had taken place several hours before. Deceased, it is said, had been troubled for years with heart disease. There is little doubt but what the heart ailment was the direct cause of death. Mr. Lee leaves a wife and several grown children among whom is Mrs. A. E. Poole of this city.

Coroner Rosser was summoned to Yakima City by telephone Friday morning, but on viewing the remains deemed an inquest unnecessary. The coroner stated on his return that Mr. Lee had been to the station to get a sack of coal and was returning home with the fuel on his shoulder and was within 500 feet of his house when suddenly stricken with death.

The extremely pleasant weather of the past few days is an augury of spring. The bicycle girl and the bicycle boy are already in evidence, which can be taken as a sure sign of approaching spring.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, Feb. 13, 1902.

The United States Senate has been a dismal place for the republican members of late for the best talent on the democratic side of the chamber has been devoted to a painful analysis of the administration's policy in dealing with the Philippines. Senator Teller still has the floor, as he has not yet completed the speech which has now occupied a large portion of three days. The gloom of the proceedings was, however, dispelled on Tuesday when the venerable senator from Massachusetts rose to refute some of the fallacies propounded by Senator Platt of Connecticut in his criticism of the position of the senator from Colorado.

With a burst of oratory seldom excelled, Senator Hoar ridiculed the statements of his colleague from Connecticut and with scathing irony drew the picture of the free schools in the Philippines where the child who read the Declaration of Independence or recited the famous speech of Patrick Henry would be guilty of treason "and must be sent first to the coal bin and later to the penitentiary" under the tyrannical laws and edicts of the Taft commission. He lampooned the election of the provincial governors and defied Senator Platt to produce a platform on which they ran, a resolution placing them in nomination or a political speech in their favor, in a country "where to advance a political opinion was treason." Senator Platt made a reply brilliant for an oratorical standpoint but replete with fallacy and sophistry as his opponent subsequently pointed out.

No important legislation has been enacted in the senate since the date of my last letter, although the resolution changing the date of the inauguration from the 4th of March to the last Thursday in April was adopted by the necessary two-thirds vote and the committee on judiciary has reported a bill providing for the protection of the president and those in the line of succession from attacks by anarchists and others, a novel feature of which is the commission to the secretary of war of the safety of the chief executive and the authorization of that official to assign a guard composed of members of the regular army to carry out the provision. The secretary is empowered to prescribe a suitable costume or uniform and make such rules governing the guard as may be deemed appropriate.

The house of representatives has devoted itself to the consideration of the oleomargarine bill to the exclusion of all other business and the debate has been spirited and at times amusing. Only the manifestly prejudiced decisions of the chair prevented the bill from being amended out of existence.

Referring to the Hill bill, which was recently introduced in the house and referred to the committee on Banking and Currency, Mr. Cochran of Missouri said today: "The bill provides for the coining of all the silver in the treasury into subsidiary coin, gives the secretary of the treasury discretionary power to coin silver dollars into subsidiary coin and makes silver dollars exchangeable for gold at the treasury, just as greenbacks are now exchangeable for gold."

"In my judgement it is a travesty on treason and common sense. If the silver dollar is to become a mere token like the greenback—a sight draft on the treasury gold reserve—why continue it in existence? If our treasury is to adopt this policy why not fabricate demand upon the gold reserve of paper at a cost of a small fraction of 1 per cent instead of making a token out of silver at a cost of 50 cents? What a grotesque proposition it is! What a commentary upon the statesmanship that has in hand the reduction of our financial system to order!"

"And even a greater absurdity would be the enactment of this law without changing the banking law so as to require the banks to keep their reserves in gold. To allow the banks to keep their reserves in silver would be to subject all to the gold standard except the banks. No such change is likely. No body knows better than the great bankers that there is not gold enough in the world to carry the great volume of credits in existence. The mere mention of a law requiring the bankers to keep their reserves in gold is sufficient to set well informed financiers to trembling. However, Mr. Hill's bill will never be brought before the house. The republicans dare not pass it because the bankers don't want it passed."

"In his testimony before the coinage committee Mr. Gage freely admitted that a better policy would be to sell the silver dollars as junk" as Germany did, and go out of the silver business entirely and he plainly said that ultimately this would have to be done. Well, if that is the best policy why is it not proposed. Certainly the measure introduced by Mr. Hill is the worst policy that human ingenuity could devise."

For Reduction of Taxes.

I wish to ask all property owners to try and meet the assessor of their district and give them a complete and full list of all property owned or controlled by them in Yakima county.

1st. Give No. acres and correct description.

2nd. Give No. of acres in cultivation and character of land.

3rd. Give No. acres not in cultivation and character of land.

4th. Give No. acres of scab and waste land.

By doing this and helping the assessor to list your property correctly and getting same on the tract books you will have no reason to find fault with the assessments made as there will be a uniformity of values established, which will save you further trouble.

I am now preparing a set of tract books to take in this system of assessments, which will help to make more equitable assessments and no doubt in many cases will operate to make reduction in taxes.

I ask all property owners to co-operate with me in this matter.

Board Won't Stand For It.

The school board of Dist. No. 7 have declined to obey the order of the city board of health regarding compulsory vaccination of school children. The city schools will re-open next Monday the board having decided that there is no longer any good reason for keeping them closed.

The board will insist that teachers, pupils and patrons shall observe the provisions of section 68 of the state school law and asks for the co-operation of parents and others interested in enforcing the law. Parents should see to it that their children are successfully vaccinated and thus run as little risk as possible.

Modjeska and James in Henry VIII.

A large audience turned out Tuesday evening to see and hear Modjeska and James in Henry the VIII. Nearly everybody was disappointed in Modjeska. The venerable lady, once a queen of tragedy, was in bad voice and in bad form and therefore in no condition to realize the expectations of her admirers and patrons. Louis James as Cardinal Wolsey, fully sustained that great character and received applause. The parts of King Henry and Anne Boleyn were also well sustained by Norman Hackett and Miss Alpha James. Modjeska bowed her thanks to the audience at the conclusion of the fourth act. The scenery carried by the company is rich and extensive.

Notice.

It is ordered by the board of directors of school district No. 7 of Yakima county, Washington, that the schools of said district re-open at the usual hour on Monday, February 24, 1902.

Attention is called to the following provision of law for the guidance of boards of directors of school districts, taken from the Code of Public Instruction, state of Washington:

"Sec. 68. No teacher, pupil or janitor shall be permitted to attend school from any house in which smallpox, varioloid, scarlet fever, diphtheria or any other contagious or infectious diseases are prevalent. No teacher, pupil or janitor shall be permitted to return to school from any house where the above mentioned diseases, or any form of them, have prevailed, until three weeks shall have elapsed from the beginning of convalescence of the patient, or upon the certificate of a registered physician in good standing that there is no danger of contagion."

Strict conformity to the above requirement will be demanded and required. The teachers in charge of the several school rooms and buildings in the district will see that this is done. The city school superintendent will take especial care to observe that this requirement of the law is strictly obeyed and rigidly enforced.

The clerk of the district will have this notice published in such papers of the city as have public issue before Monday next.

The clerk of the district will observe that all teachers are notified of this order prior to the opening of the schools. By order of the board of directors. Dated at North Yakima, Feb. 19, 1902.
