Mrs. Marie Olney Ray,
Care: The Yakima Tribe.
Yakima Indian Agency

Dear Mrs. Olney:

Enclosed is check for \$1 in payment for one of the Treaty Centennial books which I issued from my own supply.

Enclosed, too, is a letter from the purchaser, a Selah school teacher. It helps bear out my contention that one of the main objectives of the publication as I recommended is the acceptance and use of the book by teachers.

When I see Mrs. Mills I will explain to her how technical and expensive an extended publication would be, and that it would have but a limited sale and demand.

I do hope that letters reaching the agency requesting that books be sent are preserved in a file so that sometime when I am at the agency I may scan them and evaluate them from source, purpose etc.

This is most helpful in the writing and preparation of stories, contacts etc.

It's warm here in Yakima again today. I sympathize with you folks at the agency. But it's just as hot at home where I'm writing this.

Most Sincerely
