*Independent in all things—Neutral in Nothing.*

NO 33.

NORTH YAKIMA, WASH., MAY 7, 1898.

VOL 3.

## CITY OFFICIAL PAPER,

Entered at the North Yakima Postoffice as Second Class Matter,

The Epigram is published every Saturday morning, at the Printery on First Street, North Yakima. Subscription price 50c year, spot cash.

J. T. & Agnes C. Harsell, Publishers.

Subscribers who do not receive the EPIGRAM regularly will please notify this office and efforts will be made to trace the cause, and correct the evil.

AN Indiana chemist has applied for patents on a process for making wool from limestone. After some sort of chemical treatment the rock is subjected to a drawing out process, by which, it is said, it is converted into the finest and most pliable wool, of beautiful white color and soft as down. Many industrial applications of this product are apparent, but a most notable probability is that it may be woven into fabrics for clothing, etc. Experiments are now in progress to determine its capabilities, and limitations in this respect. If it be found that it can be woven into a satisfactory fabric and that it can be suitably dyed, it would certainly be a most important product. Is it both water-proof and fireproof, and quite approaches indestructibility, one would have to patronize one's tailor very infrequently. We accept the fireproof suit of rocks as a possibility; now if anyone will tell us how to fill the pockets of that suit with rocks we shall be content.

It is in the opinion of the EPIGRAM, neither accurate nor wise, nor just to speak of "religion" in connection with our war with Spain, at least as far as the United States are concerned. There is no religious sect in the United States which have not proven themselves patriotic and true to this country in time of trouble. Every now and then you will hear some fellow who has more gab than brains whispering about a great religious war that is bound to result from the present crisis, when, as a matter of fact, there is not the slightest ground for ever giving such expressions a serious thought. There are no traitors in America.

SOME of the newspapers whose small-headed editors are continually snarling at Jas. Hamilton Lewis, put us in mind of a yellow cur dog that is always snapping at the heels of its well-bred superior. Lewis, however, does not pay much attention to such papers as the P.-I. even, let alone the small fry of the country, whose brains are so diminutive that they would float a thousand years in a peanut shell and never touch the sides.

## DEWEY THE CONQUEROR!

### American Flag Floats Over the Philippines.

#### GREAT LOSS OF LIFE AT MANILLA

Seattle, May 6.—The powers have asked Great Britain to intervene and stop the war, receiving no answer.

Heavy firing has been heard off Charleston all morning. Cause not known.

The revolution in Spain is rapidly growing.

A late London despatch says that Dewey, after demolishing the Spanish fleet and disposing of Cavite, bombarded Manilla and that city took fire, resulting in a terrible loss of life.

The revolutionists in Spain have pillaged and burned the law courts at Marcia, Spain, and liberated many prisoners.

SEATTLE, May 6.—Private dispatches from Hong Kong and London prove that Dewey's victory was most complete and that Manilla was captured. The Spanish are said to have suffered great loss.

Advises from Havana says that the French Liner Lafayette was captured trying to run the blockade into Havana, after repeated warnings. International complications are feared.

THE difficulty experienced in recruiting troops could have been obviated had our girls followed the lead of Wanamaker et al and announced that the boy's places would be kept for them during their absence in the war.

THE Spanish and Norwegians have disputed the question for a long time as to which of them discovered America. We venture the assertion that since their experience with Admiral Dewey, the Spaniards are sorry it was ever discovered.

HENRY Clems says "the banks are putting themselves in shape for contracting for large amounts of the new bonds." Even republicans papers declare this contemplated bond issue a "menace to business", and we of the West can certainly be pardoned when we declare it to be not only a menace, but an injustice to the people at large. Possibly a business panic will result. If this proposed bond issue is floated there is grave doubt as to whether the West will be able to secure money to move the crops, the meaning of which is low prices for wheat, hops and all other farm products. Senator Butler reflects the sentiment of the people when he says that we should "pay as we go." The issue of bonds is to cover the enormous sum of \$500,000,000.

THE moment flour raises a point or two the "kickers" begin to howl about monopoly never taking into consideration the fact that North Yakima buyers have not the least to do with setting the price on wheat. Flour has always been as cheap in North Yakima as any other place and for that matter cheaper. The wheat, blue stem, from which the best grade of flour is made is not raised here in any quantity and has to be shipped from abroad, mostly from the Palouse, and cannot be laid down here for less than 90 cents a bushel. Club wheat from which the lower grades of flour is made is now worth from 80 to 84 cents. As a matter of course flour will raise accordingly. Mill men of North Yakima can have no monopoly on wheat, and as a matter of fact outside flour shipped here is selling at the same price of the home product, showing that it is a general market. This talk about "boycotting" which we hear some rumor of, is unjust and no man who understands the conditions which govern the wheat and flour market will notice it.

THE capture of the French liner cannot be made a matter for war talk unless France is actually seeking war. The steamer had been warned that a blockade existed and when the master of the vessel attempted to enter Havana he did so on his own responsibility. Our government will act in the matter as though there was no such nation as France in existence.

THE Seattle Daily Journal makes its appearance. It is a four-page, six-column sheet and is fairly well filled with news matter. The telegraph report is short. The P.-I. speaks of it very complimentary, a thing so unusual for that journal to do, that we are inclined to believe it has a fatherly interest therein.

MARTIAL law has been declared throughout Spain. Despatches from Madrid says "High-handed measures are considered necessary to keep the adversaries of the monarchy and the masses down until the moment comes when the rulers of Spain can declare that honor is satisfied and that the time has come to appeal to European governments to step in and secure terms of peace honorable to Spain." If a private opinion is worth anything we believe the day will never come in this war when the government of the United States will allow intervention on the part of any European powers. This is Uncle Sam's fight and Uncle Sam will settle with Spain herself when Spain thinks her "honor" is satisfied and is ready to step down and out of Cuba.

# WASHINGTON STATE. OREGON NEWS NOTES.

The firm of A. J. Fasum & Co., will install in Colfax this month a steam brick making plant, with a capacity of 25,000 brick a day. The plant will have machinery of the latest pattern, and will cost about \$2500. Twenty-five men will be employed at the beginning. This will be the first brick-making plant with steam-power in Whitman county.

The late Blaine Hawks, a Bay Center Indian, was the owner of a bicycle before he died. On the day of his funeral, the mourning friends and relatives broke the wheel into bits and threw it into the bay. The South Bend Journal has been unable to ascertain whether the action was caused by a belief that the wheel had caused his death, or because they believed in a literal resurrection of the body of Blaine Hawks and all his belongings.

Duling Bros. are experimenting with the new cure, Pasteur vaccine, for blackleg in cattle, on their stockfarm, near Wauona, in Whitman county. Already this spring, more than 200 calves have been treated. The antidote is a liquid, and is injected under the skin of the calf. In some cases it makes the calf sick for several days, and in other the effect is not perceptible. Heretofore the loss by blackleg has been considerable among the calves, but if this treatment is as good as recommended, it will greatly reduce the number.

Farmers around Colfax are complaining about the scarcity of laboring men. says the Colfax Commoner. This does not affect the tramp element very much. On last Monday a large, well-built hobo, applied at the back door of a prominent home in Colfax for a "hand-out." The proprietor of the house said, "you are just as able to work for a living as I am." The tramp replied that he could not find work, and when told that if he would go into the country he could find all he wanted, he turned away with an oath and said, "I have just as good a right to stay in town as you."

Late advices regarding the closing of the shingle mills on the Sound are that a majority of the mill men will refuse to close down, as they claim they can get enough orders at the present prices to justify them in keeping their mills in operation.

When a prize is captured by a vessel of the navy, the captain of the naval vessel is required to secure the documents of the ship and cargo and send them under seal to the court having jurisdiction of the prize. The papers are known as the "ship's" papers and the "cargo's" papers. The former include the certificate of registry, showing the hailing port, where the vessel was built, her gross and her net tonnage, the name of the captain and the name and residence of her owners; shipping articles showing the birthplace and the nationality of each member of the crew; her clearance papers, giving the port from which she last cleared, the ship's log-book. For the cargo, the manifest gives the names and residences of the shippers and to whom the cargo is consigned. The domicile of the owners of the ship and that of the owners of the cargo is of importance, as upon the question of domicile often turns the decision as to whether the prize be good or bad.

The New York man who traded his wife for a gun is now equipped for a settlement with his mother-in-law.

Marvin Smith, of Scio, in Linn county, after spending several dollars for gopher traps, and failing to catch any, concluded to try shooting them. He has killed in a 20-acre field, 145 gophers. It is estimated that each gopher will destroy two bushels of grain in a season.

Treasurer Kern, of Umatilla county, has received this week from the sheriff \$11,614.86, in payment of taxes, more than \$9000 being for 1897. Since the first day of last March, the treasurer has redeemed \$33,000 in script. Only \$385 was received in warrants themselves, as these draw interest, are now at par, and holders do not care to part with them.

President A. R. Hammond, of the Astoria & Columbia River railroad announces that the line will be open for general traffic by May 15. The first train will be donated to the Astoria subsidy committee, which will probably give an excursion to Portlann and return on that date. It is expected to make it a gala day in celebration of Astoria's railroad connection with the outside world. The first through freight car over the new line will leave here within a few days for Omaha, loaded with an Oregon fir tree 11 feet in diameter, which will be exhibited at the trans-Mississippi exposition. At Portland another car will be added, and on the two will be loaded a 60-foot timber, 30 inches square.

E. Boettcher, of Pendleton, outfitted his wagons last Thursday morning, and started out to gather his bands of sheep together, preparatory to the trial drive to Wyoming this summer. He has bought 19,000 head from different persons in Umatilla county, paying from \$2.25 to \$2.50 a head after shearing. They are all mutton sheep, and after the drive will be taken into Nebraska and be fed corn for the winter or spring markets. Mr. Boettcher will employ about 15 men on the drive, and will start early in May.

We have always been proud of our Yakima girls and why shouldn't we be? and when it comes to talking slang they never do such a thing, and to prove that our statements are true we quote a little conversation that recently occurred:

"I just think it is shameful the way that girl spits slang. Holy Saints, if I twirled my talker as she does my blooming old dad would tan my duds till the dust would be thicker than yaller jokers around the bunghole of a son of a barrel in August." "Y a better brass and serve you right," replied the other young lady. "My old people are sunflowers of the same hpe and if I should make such raw cracks in my spells, they'd thrash the rosy cussedness out of my angelic anatomy quicker than chain lightning."

## Old Dr. Drummond.

After years of patient study and experiment has given to the world a preparation which is an absolute and permanent cure for every form of rheumatism. The price is \$5, but it is two large bottles—enough for a month's treatment—and will relieve the worst case from the first dose. Uncle Tom's at Masons Opera House Monday May 9th.

A number of drunken Indians were the guests of the city this week.

A. R. Hughes has received the contract to carry mails to Tampico.

Tim. Manahan will take the Weddle gold machine to Seattle for exhibition.

While out shopping, call on Mrs. Morrison, and look over her new millinery goods.

Look out for band parade of the Uncle Tom's Cabin Company, Monday noon.

There is considerable talk of organizing another military company to take the place of Troop A., which are no longer National Guards, having volunteered in the regular army.

A private letter from a member of troop A says the boys have not been mustered into the regular army yet, but expect to be by today. They are anxious to go to Manila.

An ice cream social will be given at the home of Mr. and Mrs. P. J. Flint May 13, by the young people of the Christian church. A program will be given. Admission 15 cents. All are invited.

It has been claimed that a new trail is discovered to Lake Linderman from Dyea, the grade of which is not over two per cent. There has been a company organized to build a road over this trail.

A couple of weeks ago the EPIGRAM buried one of its old friends, namely, Geo. W. Seaton, who was on the Alaskan trail. Now we have to resurrect him, as he writes a letter in which he says he is alive and well.

"There's lots of ginger in Yankee Doodle when the hand turns loose on it," said the grim, old Confederate vet. "You bet!" exclaimed the equally grim vet of the North, "and that there tune of Dixie allus makes me feel like a two-year-old." Then they sat down and began to discuss the best way of taking Havana.

Mr. Mull's new sprinkler is giving satisfaction in keeping the streets free from dust, and Mr. Mull is meeting with a hearty approval of the good work. except in few cases. Every citizen on the street should lend their aid to keep the sprinkler at work. It is needed and no one should shirk their duty in doing their part.

The performances of Uncle Tom's Cabin as given by the Johnson Co., is well worth attending. prices 25, 50, 75.

## TO THE PHILIPPINE ISLANDS.

Washington Volunteers Will Go To Hold What Dewey Has Captured.

News just received makes it almost certain that the Yakima boys with the rest of Washington's troops will go to the Philippine Islands to protect what Dewey has won. The distance is about 5000 miles, but the Philippine's are noted for their healthy climate and the boys will need have no fear or the scare of Yellow fever as would have the case had they been called to Cuba.

### MOVEMENTS AND WHEREABOUTS.

Geo. Barrack, of Zillah, was in Yakima on Friday last.

A. C. Coburn has severed his connection with Judge Erwin and will go to Yukon.

T. R. Fisher, wife and children, has returned from Indiana, where they have been visiting relatives.

Mrs. J. P. Gallagher of this city, left for Seattle on Tuesday last, to join her husband, who has located at that place.

A. G. Tuttle, of Pleasant Valley, Klickitat county, called on the EPIGRAM this week. Mr. Tuttle has leased a tract of land on Parker Bottom, which he has sown in wheat.

J. T. Huntington, the well-known hop contractor, of this city, returned on Saturday last, from a ten day's trip through Klickitat and the Horse Heaven country. He reports crops in a splendid condition, and farmers very hopeful of a better and larger yield this fall, than has been for several years past. Mr. Huntington will make another trip through the same country in a few days, and expects to be gone several weeks.

The members of the Epworth League, of the Methodist church, gave a reception in honor of Miss Eva Smith, Wednesday evening, at the parsonage. A large number of young people attended and a most enjoyable evening was spent. Miss Smith was one of the most popular and efficient workers the League and will be missed by her associates very much. She left Thursday morning for her future home in Moscow, Idaho, followed by the best wishes of a host friends.

### Toppenish Cullings.

A wedding occurred at this place Wednesday, April 27. The contracting parties were Wm. F. Robbins and Miss Laura Holt. The wedding took place at the residence of the bride's parents. After the ceremony was over, the invited guests partook of a delicious wedding dinner. The young couple left on the 12 o'clock train for a brief honeymoon in Spokane. The bride and groom are well known and popular young people and their many friends wish them a happy and prosperous.

Everybody is excited over the war news. Some of our folks went up to Yakima to bid the boys of Co. A good by and wish them a safe return, when the war is over and Cuba freed from her bondage.

There will be an abundance of fruit this season. Crops of all kinds are looking better this spring than they did at the same time last year.

Work is about completed on the building which is to be used for a creamery and evaporator, and it will soon be ready for summer use.

Just received at Wilson's confectionary, sour pickles in bulk.

## TOWN AND COUNTY

**FOR SALE**—A full blood California linnet. Inquire at the EPIGRAM office.

**DIED.**—Miss Mammie Hathaway, on Friday, April 29, at 10 p. m., of pneumonia fever, at the residence of her parents, Mr. and Mrs. M. A. Hathaway, who reside one-half mile north-west of this city. Mamie and her twin sister Emma, were born in this county in 1872, and have lived in this valley ever since, until just as she was blossoming into lovely womanhood, the grim destroyer came and touched her with his icy hand and she drooped and died. She was sick two weeks, and until the day before she died it was thought there was a slight improvement, which was reported in last week's issue. The deceased leaves a father, mother, one sister and two brother to mourn her sad loss. The funeral took place from the Christian church of which she was a member, Rev. L. F. Stephens, preaching the funeral sermon. The floral offerings were many and very beautiful. A large pillow, with the back-ground of green leaves, on which was woven, in white flowers a cross and the motto "Asleep in Jesus," was an exquisite piece of artistic workmanship. Six young men, members of the church, acted as pall bearers. Mamie was 17 years old the 25th of last December. The family have the sympathy of the entire community in their sad bereavement.

The public school teachers are beginning to drill their pupils for the closing day exercises.

Opera House Grocery has just received a large stock of Iron Stone China, table wear, which will be sold cheap.

Court adjourned Monday, there will be no jury trials, and no business of importance was done. One divorce was granted.

The finest lot of toilet soap in the city at the North Yakima Drug Store.

Mrs. Morrison, the milliner, has just received a nice line of new sailors and other goods in the millinery line.

**J. M. ADAMS, Mgr.,**

**BANQUET TO TROOPS.**—Troop A., N. G. W. was tendered a banquet by the business men of North Yakima Saturday afternoon on the eve of their departure to the front. The officers and company were present in uniform. Mr. Edward Whitson presided. Those who responded to the toasts were W. L. Jones, L. S. Howlet, H. J. Suively, Robert Dunn, R. K. Nichols, B. F. Barge, A. F. Snelling, and Rev. Hamilton Bartlett. Captain Scudder replied to "The Yakima Company," proposed by Mr. Whitson, everybody standing and drinking. Thirty citizens were present, all of whom pronounced the gathering the most enthusiastic ever held here. Among the toasts were: "The President," "The Governor," "The Army and Navy," and "The mothers."

**SOMETHING NEW.**—The Yakima Mill Company started up their mill Wednesday after being shut down for six weeks during which time seven millwrights have been busy placing new machinery of the latest design, with the service of a first-class miller, the result of the work is now before the public in the shape of three of the finest brands of flour ever manufactured in this state. They are the "Yakima Best," "Puritan" and "Blue Bell." Every bread maker should try these new brands which cost no more than any others. See their advertisement on another page and learn the names.

**WILL CLOSE SUNDAYS.**—The barbers of North Yakima have agreed that commencing one week from tomorrow they will close their shops on Sunday. Barbers are entitled to a day off as well as anyone, besides, as a rule, they have no more desire to break the Sabbath than any other people. The EPIGRAM commends these gentlemen on their truly creditable move and believes that every man in the city will take cognizance of the fact and act accordingly.

**A SON WITH DEWEY.**—Mrs J. L. Coleman of this city, is perhaps as well pleased, as any person could be over the result of the great battle of the Philippine Islands. The reason for this is that she had a son in that battle, who while not a sailor or marine, occupied an equally dangerous position in the machinery room of the flag ship Olympia, where he has occupied the position of boiler-maker for three years.

**CHURCH SERVICES.**—German preaching in the old congregational church every Sunday at 11 o'clock. English-German Sabbath school at 10 o'clock. English preaching every Sunday evening at 8 o'clock. At 8 o'clock Thursday evening May 19th the Bishop W. Horn, of Cleveland Ohio will preach in the old Congregational church. All are invited to embrace this chance of hearing the Bishop.

**A RARE WEAPON.**—On exhibition in the windows of Sinclair's Harness shop is an old single barrel pistol that was made in 1840. The bore is about as large as a No. 12 shot gun. The weapon was found on the Tietan hills.

The council held their regular session Monday. The ordinances passed and notice of closing of registration books will be found on another page. The ordinance forcing owners of three-story buildings to build fire escapes was vetoed.

Those desiring to secure good seats at Uncle Tom's Cabin Monday night should secure them at once for they are selling rapidly.

## FARM AND GARDEN

### A COW STABLE.

With Stalls For Which Unusual Advantages Are Claimed.

A stall that will allow a cow to eat and drink as she pleases, that will permit her to lie down and yet keep clean without an unreasonable amount of

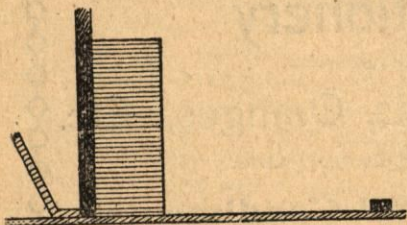

COW STALL AND MANGER.

bedding, is something which is still much needed in many stables. The accompanying cuts from Ohio Farmer show a stall which has given satisfaction.

The upright bars in front of the stall are placed far enough apart to admit the lower part of the head, but no more. By this arrangement the cow is enabled to clean out the manger as thoroughly as though her head and neck could be thrust over it, while at the same time she is compelled to stand well back in the stall.

On the floor crosswise of the stall, and just back of the hind feet of the cow when she is in place, a piece of timber is nailed. The place for this is found by watching the cow while she is eating, then placing the timber where her feet will be clear of it. A 2 by 4 scantling will answer the purpose very well. This induces the cow to move her body a little forward when lying down, so as to keep clear of the scantling, while the droppings fall beyond it, both when she is standing up and lying down. The bedding is also kept in place, and much less of it is needed than in the common stall.

At one side is the water trough, which is arranged for two stalls. It is divided by a partition which is hung at

END VIEW OF COW STALL.

the top so as to swing freely. When the cow puts in her head to drink, she shoves the partition to the opposite end of the trough, which prevents the other cow from interfering. By this means a small trough may be used. At the other side of the stall is the box for salt. Of course the cow is tied with a rope or chain.

### Transplanting Vegetables.

In setting out cabbage and celery the top should be shortened severely so as to lessen evaporation. This will make a very vigorous growth, besides preventing the setback which a withered leaf on a transplanted plant always gives. With each transplanting there will come a large mass of roots, so that after being twice transplanted the cabbage or other vegetable will grow without any perceptible check. If the weather is not suitable heel the plants in, covering tops and all for two or three days. Then the roots will be ready to grow at once.—American Cultivator.

C. I. Helm, of Ellensburg, who is known to many horsemen, recently shipped a carload of horses to Honolulu. The car was made up of roadsters, some three or four inside the 2:30 limit and some French Percherons. The heavy horses went 1200 to 1300, and were contracted in that market for \$400 to \$450 per span. Mr. Helm has been breeding the big horses all through the depression in the horse market and now feel very cheerful at the outlook. He has 800 to 1000 head on his place and no cannery scrubs.

Many of the settlers in Northern Klickitat county are rejoicing over the advent of an extensive cheese factory at Fulda, 25 miles northeast of White Salmon, seven miles south of Trout Lake, and 35 miles west of Goldendale. The new industry for the Camas Prairie section today began manufacturing full cream cheese. A thorough cheesemaker recently from Canada, has charge of the plant, T. S. Townsend, who has similar plants in successful operation in Tillamook county, Oregon, is proprietor. Hon. O. P. Kreps, a well known cattleman of Camas Prairie, and associates, to show good faith in launching the enterprise, have given a bond to supply Mr. Townsend with 15,000 pounds of milk daily for the season. The output of the factory is to be at least 1200 pounds of cheese ready for the market. To contribute the required amount of milk, it is said, will require the daily milking of 500 head of cows, and will mean the distribution of \$3000 per month among the people in the vicinity of the factory. The nearest shipping point is White Salmon. An inexhaustable market for full-cream cheese is found in Portland.

## GENERAL NEWS NOTES

Neither the Salvation Army nor the Volunteers of America will march to the front as their names might imply. They announced at their open meeting Thursday night in Seattle that they were needed at home to fight the devil.

The Alaska Commercial Company, of San Francisco, is in receipt of advices from its agent at Dawson City, confirming the report of a new rich strike at the mouth of the Ainsley creek, 18 miles up the Yukon from that place. The correspondent says that the whole country in the vicinity of Dawson is crazy with excitement over the new strike. The men who made it sank a hole 45 feet deep, on an island at the mouth of Ainsley creek, almost in the middle of the Yukon river, and on bedrock found pay dirt which averaged \$4 to \$8 per pan. The report of the strike has been officially confirmed by two Canadian officials, Mr. McGregor, the mining inspector, and Mr. Wade, the attorney.

Spain will bend her every energy to postpone as long as possible, the defeat she knows is inevitable. Her only hope now is to prolong the struggle for the sake of inducing Europe's interference. She thinks that by long resistance in the face of great odds, she may excite such admiration and sympathy as may impel the monarchs to save her from extinction by the great American republic; or, if she fails in that, she reckons that by prolonging the war, which has already affected European trade and money markets very seriously, she will provoke continental governments to interpose on account of their own jeopardized interests.

### Pike Street Theater

A large audience greeted Lew Johnson and his famous band and orchestra in Harriet Beecher Stowe's story of antebellum days. "Uncle Tom's Cabin." The tableaux of Little Eva at the Gates Ajar to relieve poor old Uncle Tom was excellent; Little Beatrix throughout the play won the admiration of all. The characters of Eliza and Miss Ophelia, by Mrs. Lew Johnson, were well sustained. Mrs. George Lynn as Topsy and in her specialties elicited the plaudits of the house. Mr. George Lynn and Harry A. Rayner were excellent. The entire company is deserving of praise. Mr. Johnson carries with him a good band and orchestra. The engagement is for a week with the usual matinee Saturday.—Times.

### The Men We Depend On.

Chicago Times-Herald.

Commodore George Dewey, who has proven himself one of the heroes of modern naval warfare in the great battle of the Philippine Islands is a man of iron nerve. Dewey once before proved himself a giant in courage, and has done so again. Under his command were six strong ships of war—the Olympia, Raleigh, Baltimore, Boston, Concord, and Petrel. The commodore is a brave man, who has been under the fiercest fire, and who never once flinched. No living officer of the navy has received higher praise from the leaders of the nation's maritime forces than he. He is an old and able sea fighter, and saw some rather vigorous service during the war of the secession. At that time, commodore was a lieutenant aboard the steamer frigate Mississippi.

The ship of war was destroyed in the great river of the same name, but only after a gallant fight. The present commander of the Asiatic squadron was the 1st to leave the ship. Admiral Porter,

commenting on the incident, said: "It is in such trying moments that men show of what metal they are made, and in this instance the metal was the best." Dewey was at both attacks on Fort Fish, and since the war he has distinguished himself in the service and has been steadily promoted. He is no stranger to Oriental seas, and is depended upon to look well after the flag in such conflicts as take place near Spanish possessions in the Pacific.

### ORDINANCE NO. 266.

An Ordinance authorizing the Mayor of the City of North Yakima to enter certain lands within the limits of said city under the Townsite law of the United States and of the State of Washington and constituting him a Trustee for that purpose and defining his powers and prescribing his duties.

Whereas the following described lands situate in Yakima County, State of Washington, to-wit: The north-half of the southeast quarter and the east-half of the southwest quarter of section 13 in township 13 north of range 19 east, W. M., have been adjudged by the Honorable Secretary of the Interior to be public lands of the United States, and whereas, said described lands are situate wholly within the corporate limits of said City of North Yakima and have been used for more than ten years last past for townsite purposes and are chiefly valuable for such purposes, and whereas, the City of North Yakima, through its corporate authorities has made and is about to make entry of said lands under the Townsite Laws of the United States and of the State of Washington, for the use and benefit of the inhabitants of said City, and whereas, one John H. Needham has heretofore made application to enter said lands under the Homestead Laws of the United States and a hearing has been ordered at the United States Land office at North Yakima, Washington, to ascertain and determine the respective rights and claims of said City of North Yakima and Needham, Now, therefore,

The City Council of the City of North Yakima do ordain as follows:

Sec. 1. That Oscar A. Fechter, Mayor of said City of North Yakima, be and he is hereby constituted and appointed a trustee for the purpose of entering said lands and disposing of the same in conformity to the laws of the United States and of the State of Washington.

Sec. 2. The said Oscar A. Fechter, Mayor and Trustee as aforesaid, is authorized, empowered and directed to prepare or cause to be prepared all necessary maps, plats, books and records for the purpose of executing said trust in conformity to the laws of the United States and of the State of Washington, and is authorized and directed to prepare and keep all records and books in proper form as required by such laws and perform every duty appertaining to the execution of such trust upon the payment of the fees prescribed by law.

Sec. 3. Said Oscar A. Fechter is further authorized and empowered to employ counsel for the purpose of prosecuting said claim before the land department of the United States and whenever needful to enable him to fully and

properly execute said trust; all claims or debts contracted by the said Mayor to be audited and allowed by the City Council.

Passed the Council May 2nd, 1898.  
Attest, H. B. DOUST, City Clerk.  
Approved May 2nd, 1898.  
O. A. FECHTER, Mayor.

### ORDINANCE NO. 267.

An Ordinance vacating the plat of block No. 25, as designated in the plat known as the town of North Yakima, Yakima county, W. T., and setting the same aside as a public park.

The City Council of the City of North Yakima do ordain as follows:  
Sec. 1. The plat of block 25 as designated on the plat known as "The Plat of the Town of North Yakima, Yakima County, W. T." is hereby vacated and annulled and the lands now embraced within the boundaries of said block are hereby set apart as a public park; provided that all the streets surrounding said block shall forever remain public highways as the same now are.

Passed the Council May 2nd, 1898.  
Attest: A. B. DOUST, City Clerk.  
Approved May 2nd, 1898.  
O. A. FECHTER, Mayor.

# STATE FAIR NOTES.

It is understood that Dr. Hare, who has purchased the Stinson band of horses will have a number of them trained for the purpose of entering them at the races during the coming fair, and of offering them for sale to horse fanciers, who will doubtless attend the races from different parts of the state.

The road to the fair grounds has been gotten into splendid condition, and no doubt will become a favorite drive during the summer. The fair grounds present at the present time a decidedly improved appearance owing to fresh paint lately used on the buildings.

It is surprising the interest that is being taken in the poultry show. Mr. Collier, who has charge of this exhibit, says not only will there be a display from Oregon, Washington, and Idaho, but a large number of entries will be made from California. Exhibitors have already been seeking places, and the commissioners are having a house built and coops furnished to accommodate an unusual large number of entries.

Inquiries by stock men have been coming in quite frequently of late. The stock raisers of Whitman, Lincoln, and Walla Walla and Columbia counties have been taking a great deal of interest in the coming fair and doubtless there will be the largest exhibition of thoroughbred stock at the fair ever seen in this state.

The State Dairy Commissioner, Mr. McDonald, has spent the past week in Eastern Washington in the interest of the fair, visiting Whitman, Spokane, Walla Walla and Columbia counties. Mr. McDonald is extremely anxious that the dairy interests be thoroughly represented at the fair; indeed it is intended to make the fair a profitable dairy school for the people interested in this industry. A number of the people engaged in manufacturing dairy machinery will be on the ground with large special exhibits, and a complete creamery plant will be in operation on the grounds during the entire week.

Mr. Reeves Ayres, Clerk of the U. S. Circuit Court, who has a fine stock farm in Stevens county, has decided to bring a number of his animals to the fair. Mr. Ayres takes a particular pride in his stock and farms more for pleasure than for profit. His animals are said to equal any of their kind to be found in the United States and he has spared no pains or expense in procuring them.

Among the novel exhibits at the fair will be an exhibition of the civilized work of the Indian youth at the Yakima agency boarding school.

The Agricultural College will have a special exhibit at the fair from the experiment station, and it is understood that particular pains is being taken to raise at the Experiment Station products for this exhibit; so that we may expect to have our eyes opened in the way of very fine productions from Whitman County.

The Floral display at the Fair promises to be of unusual interest. Mrs. J. B. Catron, of Walla Walla, has accepted the position of Superintendent of this display, and she will appoint her own assistants. All who know the capabilities of Mrs. Catron, will at once understand that the Floral Display will be a pride to the state.

Dog fanciers are not to be overlooked. They have requested the opportunity to have in connection with the Fair a Dog Show. The Commission have agreed to do this, and Mr. George Tinto, of Seattle, who is the best dog man in the state, will have charge of this department.

The nicest line of ladies and childrens shoes in town at Thomas'. Call and see them.

**CURIO COLLECTOR**—Even to a Westerner, a collection of Indian curios is an object of interest. The most notable collection in this county is the property of Chris. Miller, of this city, and includes many choice articles, such as elk-horn riding whips, fancy bridles woven from hair in many curious designs by the Indian women, fancy fans made from eagle wings, warriors' hunting caps, water-tight baskets, thousands of beautiful arrow points and spear heads, and over 200 elk-teeth. One of the most curios and most valuable is the head, petrified, of an oraiden, an animal that has been extinct for hundreds of years. This animal was a flesh-eater that had double jaw teeth above and below and tusks, and was about as large as a sheep. Many other valuable specimens might be mentioned, such as a section of basulite, a petrified fish; a beautiful stone, known as sulphite of barium or heavy spar, from the Bad Lands, calico sand stone, pudding stone, geodes aggrates, petrified and chrystalized wood and moss. A large geode, ten inches in diameter, found in the celebrated wind cave in Dakota, is a great curiosity. A portion of petrified snake that was 50 feet long is another interesting portion of this wonderful collection, which comprizes hundreds of articles, which excite the wonder and curiosity of all who see them.
