Dr. Leslie Spier,
Box 880, Santa Cruz, Calif.

Sept. 9, 1953

Dear Dr. Spier:

I have received word that the George Banta company has forwarded a message I sent them, requesting a copy of General Series in Anthropology No. 3.

I am interested not only in obtaining that copy but any other copies of publications in the series pertaining to Eastern Washington and the Columbia River areas, the Indians I am most familiar with. And no doubt I will wish to acquire other items relating to Northwest Indians if the publications are still available. This I will do a little later.

I would appreciate you sending me a memo of a few of the items available with prices etc.

Dr. and Dr. Voegelin mentioned you and said they would give me your address one evening they spent with me, but we became so engrossed in other discussions it was forgotten.

Sincerely
