"The Home of the Great Big Baked Potato"

Judge N.B. Brooks
Goldendale Wash.
Dear Friend,

Just a few lines to let you know that the contractor is moving into the Satus country to take up the work and we will be seeing the dust fly from now on.

I was somewhat surprised to note the returns from the golf games you are playing with our boys and to note that you are on a par with them when the tally is in I did not much want them to go over because they are somewhat conceited from the way they get along with the local clubs over the valley, but I knew when they went up against you and Allison they were sure to lose especially if it was a question of rules they would be on the skids right.

I see by the press that you are going to entertain the Portland Chamber of Commerce this week and no doubt you ~~will~~ will have a grand time do not overlook giving them a shot in the arm on the road program you are the one to do it.

I also see that the Skamania boys are going good have named their delegates to Longview and they are not overlooking the real thing to go a little further and give the Governor a little boost while he may be somewhat wrong he is a great deal right when it comes to trying to lift a few burdens off the tax payers I do think the school plans are worth considerable thought as they are going with an enormous expense.

With best regards to all the boys, and a good time when the Portland boys sit in.

Yours truly,
