Dear Mr. Relander:

May I take this opportunity of extending to you my personal thanks, as well as those of the Yakima Civil Defense Planning Committee, for your contribution to the success of our recently completed series of Public Information classes.

You will be pleased to know that the general reaction to this course has been very good, and we feel fortunate in having been able to secure the facilities of the Yakima Valley Junior College. This, I feel helped to create a favorable atmosphere for instructor and audience alike.

Again, with many thanks for your help, I am

Sincerely yours,

A. E. EVERIST
Director
