

Appendix B.---Columbia Basin Recommendations Cleared for Authorization without  
Objection ----February 1, 1950

pages 8

Main Control Plan:

Libby Dam

Albeni Falls Dam

Priest Rapids Dam

John Day Dam

The Dalles Dam

Lower Columbia River levees and Bank Protection Works -----

The necessity for levees and bank protection on the lower Columbia River will diminish progressively with completion of upstream reservoirs. The recommendation for authorization is cleared without objection, subject, however, to the condition that requests for construction funds for this purpose should be subject to annual review to insure conformity with local requirements.
