

CASCADES COMMUNITY COUNCIL

July 13, 1968

We, the following public official members of the Cascades Community Council, representing the people whose welfare is most directly and vitally affected by the future use of public lands in the North Cascades, are united opponents of S. 1321.

We urge rejection of this bill because its limited use concept would deny maximum economic and recreation benefits to the hundreds of thousands of people we represent.

Board of Chelan County Commissioners
