Dear brother, Puck Hyah 'oot

I am writing you to ask if you can come to Johnny Tomalawash's place at Wapato Wednesday afternoon late. I have written him and told him I would be there and that I was writing you.

The reason is that some other people now want to build a dam at Priest Rapids and have gone to Washington to see the government about it.

I have been busy all day writing letters, protesting for you and telling why it should not be done.

I will have to write a story for the paper now saying you don't want a dam built there. That will help others oppose the ones who want to build it.

So now, we have to meet again. I will tell you what they plan to do and will tell all of you what ~~the~~ I have done.

I am also renewing your application for some land along the river, protection of the graveyard and things like that. That is all I can do, just write letters to protest and ask.

Hope things are going well with you.

kindly
