Fresno City Librarian,
Fresno, Calif.

July 3, 1955

Dear Librarian:

Sorry to have missed you on a recent trip to my old home town and to Visalia.

That is why I am sending an advance circular of my forthcoming book in the hope you will wish to order a copy. Not much "Fresno" interest, I will admit, but I do believe ethnology and anthropological students will be interested, as well as your usual Indian customers.

My only connection with Fresno was that I worked for The Bee a little over two years in the '30's, which might be another reason you'd be interested.

Your library would be entitled to the usual library discount. Notice would be sent just before publication by the publisher.

By securing orders in advance in this manner, and sending them in to the publisher, I am able to join him in the "promotion" and at the same time get an idea as to the advance number of copies to be published. He will determine that shortly.

If you care to place an order, I would be most happy to forward it with some of my later communications to the publisher.

Most Sincerely
