

May 2nd, 1927.

Judge N. B. Brooks,
Goldendale,
Washington:-

Dear Sir:-

I was very pleased to receive your letter of the 29th and to know that your organization was going 100% on the coming picnic. I learned today that Mr. Fields, our President, has also extended invitations to the Governor and Highway Engineer. We are going to let Yakima know that we are going to have a picnic. They will possibly have a few representatives to tell us what they are going to do to help us build this road, and also the Mount Adams road. Knowing conditions as they are at Olympia we certainly want this gathering to go on as harmoniously as possible from a political standpoint.

We will have up tomorrow the question of closing our town and all coming, and we believe will have very little trouble in accomplishing this. Our Horseshoe enthusiasts are busy in training, our Baseball team is always ready, in fact we have a Baseball game on Wednesday night between the Fats and the Leans for which we expect to have the Gate Receipts exceed \$400.00, the funds to go toward the expenses of the Glee Club from the High School, as we expect to again win the championship by both Clubs.

I trust that when the State Auditor and Treasurer arrives you will be able to make good on the Hundred Thousand from the Federal Aid.

I just saw a letter from your secretary Mr. Smith which would indicate you are making wonderful plans for the 10th, and it is just as natural for you to do that as anything else. We are beginning to shake loose some of our moss-backs, and believe that we will have on the Creek some that never left town before, so you can rest assured that you will have some new faces in your audience. Am delighted to know that you are on the Program, and will look forward to hearing your address.

Yours very truly,

McG:N
