## THE YAKIMA EPIGRAM By J. D. Medill

Entered at the North Yakima Postoffice as Second Class Matter.

FIFTY CENTS PER YEAR—SPOT CASH

Published every Saturday morning, at the Epigram  
Printing House on First Street, North Yakima.

OFFICIAL PAPER OF NORTH YAKIMA.

UNLESS all signs fail, our government is now beginning to make preparations for an extensive increase of our splendid little navy. We say little, because that word best describes our navy, when compared with that of the other great nations of the world; although for its size ours will unquestionably compare with any, if not excel. Without doubt the administration will, when Congress convenes, ask for a generous appropriation for the purpose of constructing several new battle ships of the latest design, as well as a number of armored cruisers of the type of the Brooklyn, only still swifter. Our navy has thoroughly demonstrated during the late war with Spain, that it is our best and surest reliance in case of war with a foreign power—for a formidable navy can prevent a hostile force from landing on our shores. Since Americans are almost unanimously opposed to the military systems that exist in Europe and will not tolerate great standing armies, the only way we can make a fitting and proper show of strength to impress the world, is through a powerful navy and strong land fortifications; so no one need be surprised if at the end of five years we have, instead of five, at least twenty-five powerful battle ships, as well as many fine and fleet cruisers; for the people will approve the increase until we have a navy that will be able to cope with that of any nation in the world. The people will cheerfully support a respectable navy, because they can keep it out of politics, which is something they cannot do with an army.

IN another column we publish the cards of a number of gentlemen who will be candidates for the several county offices to be bestowed by the three wings of the Fusion party, at the conventions, which meet in this city on September 3. The majority of the candidates whose names appear have been the efficient servants of the county during the past two years, and knowing that their work has been honest and faithful during their incumbency, quite naturally ask that their work be endorsed by the representatives of the people who placed them in power. In addition to the names of the present officials, we present the names of several new candidates for official position, who are also men of standing and well

known integrity in the community, and whose claims will doubtless receive proper consideration at the hands of the conventions. These gentlemen, as business men, all realize the fact that the best way to make their wants known, is through the columns of THE EPIGRAM.

\*\*\*

THE Republic thinks THE EPIGRAM is "jolly" it, when we refer to the editor of that paper as the leader of the local Republican party. Far from it. We do not know, nor do we pretend to say, who the local leader of the party in this county ought to be; but we do know that United States Senator Wilson, whose present leadership of the party in this state no man dare dispute, has elevated our brother, politically, far above his fellows. Not only that, but as is well known here, the senator has honored him with his confidence and has set him up in business as his chief lieutenant among the republicans of this county—and if this were not enough, does not the position our brother occupies as a moulder of party sentiment entitle him to some consideration? We think so. Of course, it's none of our funeral, as to the setting up of a party boss. It was through no act of ours that our brother reached his present dizzy height. We congratulate him, however. He has reached his present commanding position partially through the exercise of good judgment and tact, and partly through the force of circumstances. His rise has been so rapid as to cause many of his followers to ask, "What meat has this our Caesar ate, that he hath grown so great."

\*\*\*

THE people of this city, as well as the peace officers, should lose no time in preparing themselves to meet the small army of burglars, crooks, hobos and professional tramps, who annually invade this fair valley under the guise of laborers—always professing to be hop pickers. All signs indicate that the influx will be greater this year than usual; in fact the advance guard of this unwelcome class is already here, and have begun operations in their nefarious trades. From far and wide this scum of humanity comes annually to prey upon the people of this community—believing that they will be safe from detection by mixing in with the thousands of honest hop pickers and other laborers who come here every autumn. We have no desire to unduly alarm the people of this city, but "an ounce of prevention is worth a pound of cure," and if every householder will take the pains

to guard and protect his own property and to point out suspicious looking characters to the officers, a great deal will have been done to prevent crime, and a loss of property. It is impossible in a city so widely scattered as North Yakima, to provide patrolmen for all the resident districts, and the people must depend mainly on themselves for protection. A man's home is his castle, and in times like these he should be prepared to defend it against law breakers, even to the extent of dealing out leaden doses of death.

\*\*\*

A MAJORITY of the people in this country, we believe, without regard to party, will view with regret the retirement of Judge Day from the State Department. This man came before the people unheralded and unknown, and was severely criticised by a portion of the press for what they termed his presumption; but being a man of great good sense and sound judgment, he has convinced the people, under the most trying circumstances, of his eminent fitness for his great place. Is it too bad that such a man must needs retire on account of his poverty and inability to meet the financial demands which the office requires, while a rich and worse than useless saphead like Alger is allowed to remain. But Alger, like Shylock, insists upon his full pound of flesh, and the President, it seems, has no choice but to pay it.

\*\*\*

LET all men who profess adhesion to either of the three wings of the Fusion party, go to the primaries tonight and assist in sending only straight forward and representative citizens to the county conventions. The primary, let it be remembered, is the root of the whole system of government by the people as we practice it. It is the primary where the boss begins his work, and where his servile tools carry out his will. A man who neglects attending the primary and then kicks because his party offers him a lot of yellow dog candidates to vote for, ought to hold his peace. In the vernacular of the street, "he has no kick coming."

\*\*\*

THE outlook for harmony among the Fusionists is excellent. With such good material to select from, there ought to be no mistakes made.

\*\*\*

THE editor of the Republic has declared neutrality in the postoffice removal war.

## THE OUTSIDE WORLD

Jamaica is anxious to be annexed to the United States.

Most of the Porto Rican Spanish will become American citizens.

Aguinaldo, the leader of the Philippine insurgents, is but 29 years of age.

Morales, the revolutionist leader in Guatemala is dead, and with him dies the revolution.

President McKinley has signified his intention of attending the Peace Jubilee, at the Omaha Exposition early in October.

Oregon hops are making a fine showing, and although the yield will be light, the quality will be so superior that growers will realize a good profit.

The Philippine insurgents have great confidence in Admiral Dewey and the friction between Aguinaldo and the Americans is fast disappearing.

The navy department opened bids on the 24th for 16 torpedo-boat destroyers and 12 torpedo-boats, to cost in the aggregate not to exceed \$16,900,000.

The wheat crop of Oregon is falling short fully one-third. Aph's preyed upon the grain to such an extent that some heads had only a few grains of wheat in them.

A railroad collision on the New York, New Haven & Hartford road at Sharon, Mass., on the 21st, caused the death of seven persons and seriously injured 26 others.

The war department is now considering the question of mustering out of the service 100,000 men. The regiments to be disbanded will be made known this week.

The steamship Arizona left San Francisco August 21 for Manila with 1300 troops. The Scandia, with another detachment, will sail for the Philippines in a few days.

Howell and McCann, the two privates of the Fourteenth U. S. infantry, who were killed in the capture of Manila, were born and raised in Clark county, this state.

August 12 was the day set for the ratification throughout Hawaii of the annexation resolutions, which marks the end of the Hawaiian republic and ushers in the rule of the United States.

The return of the North Atlantic squadron, under the command of Rear Admiral Sampson, to New York, on August 10, called forth a great demonstration. Hundreds of thousands of people gave the conquerors a hilarious welcome.

The Cramps ship yard, in Philadelphia, will next week commence laying the keels of the new ships contracted by the Russian government. The vessels to be built include a battleship of 12,000 tons, calling for a speed of 18 knots, and an armored cruiser of 6500 tons. These vessels when completed will be the fastest and most formidable ships afloat.

### "Remember the Maine."

That the above caption is engraven on the heart of every American citizen is exemplified in the success of Jossey & Marvin's scenic production of the great American play "The Signal of Liberty," which will be produced at Mason's opera house, Wednesday evening, August 31.

The play deals with the events that were big with history in the late war with Spain. The Maine entering the harbor of Havana, the gunboat Wilmington quelling a riot in Havana with her machine guns. The explosion and wreck of the Maine; the sinking of the Merrimac in Santiago channel; the bombardment of Moro castle, Santiago, and the destruction of Cervera's fleet by the American squadron, combined with a story of intense heart interest, all goes to make an "ensemble" which cannot fail to touch the heart of the theatergoer of today. The company is said to be a strong one, the scenic effects unsurpassed. Tickets at J. neck's.

#### What the Politicians Are Saying.

That Jack Shaw will have a walk away for the shrievally nomination in the Pop convention.

That Superintendent Plumb has made an efficient and capable officer and is entitled to another whirl at it.

That Coe and Liggett are both competent men and that the contest between them is liable to be a pretty one.

That Chollie boy Donovan is the only pebble on the beach, so far as the nomination for treasurer is concerned.

That the Fusion primaries in town Saturday night will be red hot.

That the boys are wondering whether it will be Howlett or Rudkin.

That it will be Jory against the field in the Fusion convention, with the chances in favor of the field.

That the Democrats, as is customary, will send a strong and able delegation to the State convention.

That the choice for representative among the g. o. p. is narrowing down to Fred Parker and I. P. Englehart.

That Nels Short is making hay while the sun shines, and has some strong men pulling his rope.

That Phillips, of Mabton, expects to come up to the gap solid, and that Miles Cannon generally gets what he goes after.

That the g. o. p. organ was a little previous in announcing the candidacy of H. L. Tucker, who says he wouldn't have it.

That Yakima Jones had better go to Ellensburg and square himself with the boys.

That Joe Brown will get a strong pull on the reservation.

That the Sage of Fairview will be in evidence at the Populist convention.

#### The Signal of Liberty.

Among the people which the present war with Spain has brought into prominence, none is more cordially hated than Butcher Weyler, and none more universally respected and admired for his bravery and generosity than "Fighting Bob" Evans. In seeking for characters in his play, the author of "The Signal of Liberty," therefore, has done well in selecting these two men, for if the one cannot stir up all the patriotism and the other all the hatred there is in a person's breast, then that person "must indeed be a stick."

The play deals with the old, but never tiresome, story of triumphant virtue and defeated vice, enhanced by the judicious introduction of the American war vessel, the Wilmington, and the ill-fated Maine. The drama is very strong, the scenic effects being particularly good. The scenery, by the way, has been painted especially for this production, and shows many points which figure in the history of the present war.

Among the scenes of interest may be mentioned the arrival of the Maine in Havana harbor, the gunboat Wilmington quelling a riot, Moro castle by moonlight, the wreck of the Maine, the destruction of Cervera's fleet, the explosion and wreck of the Maine. At Mason's opera house, Wednesday night, Aug. 31.

For nice ripe Crawford peaches cheap, go to A. W. Speyer's orchard of 1000 peach trees on Knob Hill.

The pastor of the Congregational church will occupy his pulpit Sunday morning at the usual hour.

A. E. Poole on Monday shipped from Prosser two cars of wool and on Wednesday from this city three cars, all being sent to San Francisco on consignment.

J. C. Price, of the Moxee, had a rather disastrous runaway on Monday at the ranch of John Loudon. The harness, wagon and a fanning mill loaded therein were partially destroyed.

The town of Zillah changed postmasters this week, E. J. Jaeger who has been the efficient postmaster since the town was started, retiring in favor of J. P. Fox, the new appointee.

Blacksmith G. M. Needles has found it necessary to enlarge his shop on Second street, to give him more room. The addition is a substantial frame building erected this week on the lot adjoining.

Fruit Inspector Beck has been instructed by the county commissioners to rigidly inspect all fruit offered for sale and shipment, for the purposes of condemning all that may be found infested with San Jose scale.

The Rosenfeld store building is being painted and refitted this week preparatory to being occupied by the new paint and oil firm of Grass & Metcalf, who recently purchased the stock of A. S. Johnson & Co.

Mrs. Wm. Job, who lived in the southeastern part of town, died Sunday night at 11 o'clock and was buried on Tuesday. The cause of death was ulceration of the stomach. Deceased had lived in Yakima about two years.

A numerously signed petition will be presented to the council at its next meeting, asking that body to restore the arc light at the intersection of Yakima avenue and Second streets, where it is undoubtedly needed.

The new sawmill of O'Neal Bros. lately removed here from the Wenas, is running full time getting out fruit box material and unable to keep up with the orders. When the rush is over they will commence sawing heavy lumber.

A. S. Dam has this week been circulating a petition to the governor asking that he authorize the organization of a new company of militia in this city. Any person desiring to join the new company should leave his name with A. S. Dam or F. T. Liggett.

Strangers in this city are often heard to express surprise at seeing the great quantities of fruit and melons that await shipment about the depot every day, although what they see is but a drop in the bucket, comparatively speaking, with what goes out in carload lots.

The new gas lights of the O. K. barber shop have been attracting a good deal of attention this week. The gas used is generated by a very simple machine known as the Acetylene generator. It produces a bright and beautiful light and is well worth an examination.

The smaller Cadwell block has again been visited by a burglar or burglars, and this time the stealing was done in road daylight, Miss Annie Merwin be-

ing the victim. The young lady happened to be out last Saturday afternoon and on her return found that her rooms had been entered during her absence and a gold watch chain, two rings and \$6 in money was missing. There is as yet no clue to the thief.

The marriage of Mr. Casper Schott and Miss Kate Schreiner was duly solemnized at the Catholic church in this city at 9 o'clock a. m. on Tuesday last, in the presence of relatives and a few intimate friends only. The happy couple immediately moved into their cosy cottage on North Third street, which will be their future home. THE EPIGRAM offers congratulations.

H. B. Scudder on Tuesday received a letter from his son, Captain Scudder, stating that the Washington regiment had recently received from the War Department a six months' supply of ammunition and general supplies, which does not look as though our boys would be included among the troops to be disbanded. The captain further stated that Lieutenant Briggs, who has been very ill for several weeks, was now much improved.

A. E. Kinsey, the well known merchant, of First street, in closing his store last Friday night, forgot to take in a ham and a basket of onions, which had been exposed for sale. The next morning he found the ham gone and the following notice pinned up. "Dear Kinsey—I am much obliged to you for the ham; am sorry I can't carry the onions. Ta, ta." Signed, "Snap-'Em-Up."

Stephen H. Bashor, the eloquent Dunkard lecturer, delivered an able and highly interesting address to a large and appreciative audience last Sunday night at Mason's opera house, the subject of the discourse being "The Spiritualism of the Bible." The audience, although a mixed one, being composed of the representatives of all the local churches, as well as spiritualists and materialists, were greatly pleased with the lecture. In conclusion the speaker referred to a disparaging paragraph in a local paper, which he regarded as offensive to the sect to which he belongs. A suggestion made by him, that the writer of the offending article not only needed his feet soaked, but his other extremity as well, seemed to meet the approval of the large audience.

Mr. Turnbull with a party of seven, all of whom had lived in Franklinville, N. He reports great destitution among many prospectors who lost their outfits. The government exploring party at Valdes is feeding many unfortunates until they can get out. He says the steamship companies have deliberately lied about the country.

## STATE FAIR NOTES

While in Seattle and Tacoma, Secretary Gunn was told by several horsemen that while they expected to bring their horses here for the races, they had put them in training on other tracks, having been informed that the North Yakima track was not in condition for training. On learning this a number of the horsemen, who now have horses in training here, wrote the following letter to President Baxter, which is self explanatory:

North Yakima, Wash., Aug. 22, '98.  
J. M. Baxter, President Washington State Fair Association:

Dear Sir—We have been informed that misrepresentations have been made to horsemen in different parts of the state in regard to the condition of the race track here and the facilities for training. As we are here on the ground and are daily working horses on the track, we desire to state that we consider the track in excellent condition for training, and with the daily sprinkling and working it receives it will undoubtedly be the very best track on the circuit at the opening of the Fair. We are well pleased with our treatment here—have clean, light stalls, with an abundance of fresh, pure water for our horses, and we find hay and grain very reasonable in price. In fact, we consider this track equal to any in the Northwest Circuit, and the facilities for training are unexcelled.

We are perfectly willing to have you refer to us for a statement as to the condition of the track, etc., if you desire to do so.

Yours Very Truly,

W. E. TAYLOR,  
F. MARTIN,  
W. M. McMULLIN,  
GEORGE WRIGHT,  
J. W. RICHARDSON,  
C. C. CARPENTER,  
M. H. WILLIAMS,  
R. MORRIS,  
GEO. M. NEEDLES.

The Commission desires that all district of the county from which exhibits are to be made, appoint a committee to confer with the Secretary in regard to space for such exhibits. While it is desired to give each district sufficient space to make the best showing possible, it will be necessary to economize space as much as possible in order to do justice to all.

Inquiries are being made for a race for roadsters and if sufficient entries are tendered to warrant, the Commission will add such a race to the speed program, offering a good substantial purse therefor.

Prof. J. A. Balmer, professor of horticulture at the Washington agricultural college, has been detailed to deliver a series of lectures on horticultural topics during the Fair.

Col. W. W. D. Turner, of Spokane, who is now president of the Le Roi Mining company, and whose reputation as a horseman is well known throughout the state, has consented to act as starting judge of the races, which insures fair treatment to all horsemen.

George Gamble, of Union, Ore., who is well known as a capable and conscientious judge of blue stock, has consented to officiate as judge of the stock department, as well as one of the judges of the races.

The Northern Pacific will give half merchandise rates each way on poultry for the Fair, which applies to all points on the Northern Pacific road.

In addition to the attraction of soloists on the baritone, flute, piccolo and cornet with Wagner's band, the Commission has arranged to secure the celebrated soprano soloist, Mrs. Jennie Hough-

ton - Edmunds, who in connection with the concerts given by Wagner's band in Seattle, has attracted much favorable comment.

### French Ghost Hunters.

Members of our own Society of Psychical Research, which, by the way, has not been much in evidence of late, should be interested in the fate which has befallen the French body with identical aims known as La Societe des Sciences Psychiques. The latter has just been reduced to a state of hopeless disruption by the conduct of a section of its adherents who, presumably weary of confining their psychical researches to the chasing of elusive "spooks," have gone astray after such livelier branches of occult science as the preparation of talismans, the concocting of love philters and the telling of fortunes.

The earnest ghost hunters, disgusted by this descent to the methods of the common or commercial charlatan, have resigned in a body and formed a new society of their own. It is by no means certain, however, that those who remain have not proved themselves wiser in their generation than the seceders, for, while ghosts are unmistakably "off" in these days, the interest in other forms of mystical quackery seems to be as strong and widespread as ever.—London World.

### Trials of Ignorance.

## IN THE EPIGRAM ONLY

James Callaghan, a stock buyer of Chicago, is in the city.

Landlord Michels and family returned Thursday night from Victoria.

H. L. Tucker and family broke camp and returned home from the Springs early this week.

A carload of moving trucks was received Thursday to be used in removing the old depot.

Three huge cubes of Roslyn coal arrived in the yards Thursday, for exhibition at the State Fair.

Stephen H. Bashor, the lecturer, left for Spokane Friday night, and from there will return east.

D. N. Farr and wife, of Everson, this state, arrived Thursday night and are guests of the Bartholet.

The wife and child of Ed Armitage, the Front street blacksmith, arrived Thursday night from Delhi, Indiana.

Mrs. Vestal Snyder and children and Miss Stewart returned on Thursday from their month's outing at Soda Springs.

Crawford peaches, ripe for canning; very cheap, if you come after them. A. W. Speyers, Knob Hill—1000 peach trees.

The 13 year old daughter of R. E. Kinsman, of Parker, died of dropsy on Thursday, and was buried on the following day.

J. P. McCafferty leaves for the east today in charge of a trainload of Armour's sheep. From Chicago he will go to Cincinnati to attend the national reunion of the G. A. R.

Advance Agent Marvin of the "Signal of Liberty" show, which appears on the boards here next Wednesday night, was billing the town Thursday. This is said to be a number one company and we predict for it a good house.

It was rumored on the streets yesterday that C. W. Mason, of Tacoma, had received the contract for building the new depot, and that G. W. Sutton, of this city would receive the contract for doing the brick and stone work.

Word comes from Soda Springs that J. A. W. Thomas shot a young bear near there on Wednesday and then retreated into camp with the cub in his arms with the old bear in hot pursuit. A warm reception awaits the merchant on his return to this city. Braden and Kinsey, it is said, will have to foot the bill.

Captain Fred Miller, received Friday morning from Adjutant General Canton, a notice that he would be here Monday, the 5th day of September, for the purpose of organizing a volunteer military company. The meeting will be held at Switzer's opera house at 8 p. m. All persons desiring to unite with the company, are requested to be present.

D. B. Ely and wife, of Lena, Ills., and S. H. Miller and wife, of Waterloo, Ia., advance agents of the Dunkard colony, left for home Thursday night. They expressed themselves as highly pleased with the Yakima country, and announced their intention of returning here to reside permanently about Dec. 1. The colony will be located in the vicinity of the town of Sunnyside.

Grouse and ducks—the season opened Aug. 15. Are you ready? We have a full line of shot guns, rifles and ammunition. Guns to let. Moore & Moore, the Stationers.

### Poorly Cleaned Wheat.

THE EPIGRAM interviewed Alex Miller, of the North Yakima Milling company, one day this week, in regard to the quality and condition of the Yakima wheat crop. Mr. Miller said:

The larger portion of the new wheat marketed at North Yakima this season is mixed with much foreign weeds and dirt, due, partly, to being threshed before being stacked. The wheat taken direct from the shock in the field to the thrasher is, of course, dry, and the straw so brittle that a great deal of the wheat gets cracked in the machines and also cuts up the straw and leaves more or less in the grain.

From part of the wheat marketed so far we have deducted one pound per bushel for dirt; but have found this unsatisfactory with most of the farmers, as well as the Mill company. Most farmers prefer to sell their grain as it comes from the thrasher or fanning mill; hence the Mill company has concluded to hereafter buy and receive all wheat at market price, just as it is brought to mill, without any dockage for dirt, and for all wheat cleaned by fanning mills, we will pay one cent per bushel as premium above the market, and those that have no fanning mill and prefer to clean, can have their grain run through a fan mill while unloading at the mill, without any extra labor or cost, and get their screenings back, thus enabling them to also receive the one cent premium.

### How it Acts.

There is no waiting weeks and months for relief while taking Dr. Drummond's Lightning Remedies for Rheumatism. Some cases of years' standing have been entirely cured with one treatment. Relief and benefit are felt from the first, and if the treatment is persisted in, the stiff joints and drawn cords are restored. If your druggist has not got these remedies do not take anything else. Describe your case and send \$5 to the Drummond Medicine Co., New York, and the full month's treatment of two large bottles will be sent to you.
