Yakima, Wn.
June 21, 1960

Dear Click:

I have just been "going through" (hastily) the Yakima Diamond Jubilee booklet and wish to express my appreciation to you and Mr. Martin for the fine work you have done.

Also - I have collected some of your newspaper articles on Pioneer history and I am anxious to read them all. However, I'm in the process of "job-hunting" and other routine matters (including trying to move - to where, I am not at all sure) so I shall experience a delay in catching up on those things - especially reading.

One thing I am wondering about - I was fortunately at Mary Hill Museum last week (on a Sunday) and I noted on a table near the door the book "Kamiatkin" by Mr. Spawen. I looked carefully to find one of yours there. I'd like to see one of your sculptures there too - or did I overlook (over please)

it? (Perhaps your book not being there
is due to it's being out-of-print now -
- at least I seem to recall your telling
us that?) (I visited recently the museum at
Cashmere, ^{also -})

I am sorry I did not get to "visit"
with you more. I enjoyed the time
we all had together very much and
Thanks so very much for your
"contribution" to our pleasant get-to-
gethers.

In case you never heard - the
good Doctor did get drunk. I assume
he must have spent the late after-
noon in bed for he remarked he had
brought no change of clothing with him.
But guess what: He did send the
dozen red roses to his wife and I'm
praying they "did the trick". He sure
loves her! I have not heard from
our Ernie. I am sure he is very busy.

I would very much like to read
"Drummers and Dreamers". The title
even intrigues me.

Thanks again, Chick, for the nice
time - and especially for your contri-
butions to our Nation's Culture. It shows
not only interest - but feeling and respect
for a Great Nation's People. Sincerely -
with best regards - Ann S. Creech
