Friend Judge Brooks,

Let me pass to you the information just received from Rep Dimmick who was over to Olympia with Nordland and they say Potts & Claussen will be over to the state convention May 5 and perhaps make a trip over the part that is under construction of our pet road, we may have Allen do some good work to see that they are taken care of right. Allen has showed a disposition to try and work with us since the clamps went on and we assured him it was an open program and he was welcome to take a hold of the plow and show us speed if possible we are talking some of picnic with no date in mind other than about the middle of the month, Yakima fellows are beginning to look our road over sundays now and it will not be long when they learn the Air plain is going that way so get your Air port ready and let us welcome them you know while they are in the air they will not find fault with the road that alone will help wonderful. What will be the political situation when the picnic is on of course Fields has left Town White is dead Swartz is trying to get back
