## WELCOME TO THE SNOQUALMIE!

The National Forests are America's playgrounds. They are **your** forests . . . to enjoy and protect. You will find camping, picnicking, hiking, hunting, fishing, nature study, wilderness adventure . . . and many other activities awaiting you.

But recreation is only one of many forest resources. The Snoqualmie provides a continuing supply of wood for local industries; water for domestic, industrial and irrigation use; wildlife for hunter and photographer alike; and forage for the big game animals and domestic livestock that graze on the forest.

Under provisions of the MULTIPLE USE — SUSTAINED YIELD ACT (1960), our job is to coordinate the many uses of your forests so that they serve the greatest good for the greatest number in the long run.

You can help us by leaving a clean camp and by being extra careful with that campfire or smoke. A single match can destroy a forest!

Our forest staff stands ready to assist you. We hope your visit is a pleasant one.

*L. O. Barrett*

L. O. BARRETT,  
FOREST SUPERVISOR

## FOREST FACTS

1961

SIZE (acres)	1,207,815
