All the world waits! Will they appear to help celebrate the 20th anniversary? June 24, 1967, marks the 20th Anniversary of the famous Kenneth Arnold sighting of nine "Flying Saucers" flying 'in line' around the Cascade peaks at Mt Rainier, Wash.

Space Age groups from all over the northwestern part of the North American continent have asked the President of the United States to dedicate a "WATCH FOR FLYING SAUCERS WEEK" June 21 to June 28, noon to noon, Greenwich Mean Time. Research groups, clubs, committees, all over the United States and in other nations are being asked to cooperate and establish 'watches' and 'watch teams' in their areas during this week, June 21 - 28. Mt Rainier, where it all began, twenty years ago, is being organized into a 'watch' area with a headquarters for World Wide Watch at Eatonville, west of the mountain. Mountaineers, Rangers, volunteers, radio men, whoever will, is asked to join in the effort, centered on the mountain. Last time, they came along a north-south line from Mt Baker, along the Cascades. This time, watch teams are being posted along a north-south line from Canada and Alaska to Mt Shasta, in California; east and west for several hundred miles and equidistant points northeast, southeast, northwest and southwest, to establish whether intelligent patterns of flight or behavior patterns exist. World wide groups of volunteers are asked to establish a similar 'key' watch point in their area or country where important sightings of Flying Saucers have occurred such as Tremonton, Utah; Levelland and Lubbock, Texas, White Sands, New Mexico and Socorro; Mt Shasta, Calif. or some key geographical feature that is known to all, such as the Great Pyramid at Gizeh; Mt Everest, Mt Kilimanjaro; The Andes, etc. The 'not so elusive' Flying Saucers have performed over every country of the world, over every major city as well as hamlets, villages and towns. Now, thousands of "UFO - Flying Saucer" and Space Age groups exist throughout the world that are observing, recording sightings and beginning to 'ferret' out meanings of this gigantic visitation.

Reports are being collected and collated from around the world at headquarters for WORLD WIDE WATCH, Mt Rainier Headquarters, P.O. Box 867, Eatonville, Wash 98328. The information, when complete, will be available to all. News reports of events or outstanding features will be released as they occur. City UFO groups in the northwest in Spokane, Vancouver B.C. Tacoma, Olympia, Portland are joined in an effort to reach every possible group in the United States, Canada and other nations. This 'quest' is for 'intelligent patterns of behavior' of flight characteristics such as 'U Turns', right angle turns, reverse turns, straight lines of flight. A French scientist Dr Aime Michele wrote a book entitled "The Straight Line Mystery, recording how UFO's over Europe were observed flying for hundreds of miles in straight lines.

"Watch For Flying Saucers Week" June 21 - 28 1967 Page 2.

Special attention is to be devoted to any attempts to communicate, and all such incidents are to be carefully recorded, i.e. signals, radio or tv signals, color or light signals as well as other methods of communication that might occur, or be observed.

Since this effort is volunteer and civilian in nature, first priority of reports should be to groups that are correlating the 'watch', beginning with Mt. Rainier Headquarters, then other groups in any area, country, city etc. Next priority is governmental departments that may be interested or are cooperating, as in the United States Project Blue Book, Wright Patterson Field, Dayton, Ohio; Dr. Edward U. Condon, University of Colorado, Boulder, Colo.; news media, periodicals in all areas, civic and public officials of provinces, states, cities, towns. The President of the United States has been invited to assign a personal observer to World Wide Watch to observe developments. The information that develops, if any, will be available to all groups, countries, etc.

High priority messages are to be channeled quickly and directly to World Wide watch, Mt Rainier Headquarters, P.O. Box 867, Eatonville, Wash 98328 for mail; cable code: "WORLD WIDE WATCH, Mt Rainier, Eatonville, Wash." Telephone numbers available now are: Eatonville, Wash. 832 3235 and 832 4844; and Seattle, Wash Emerson 3 0956; An additional telephone is to be installed soon at Eatonville Headquarters for use of the 'Watch Teams' and this number will be listed under World Wide Watch, Eatonville,

Astronomers, scientists, space research engineers are being invited to serve on National Advisory Boards and International Advisory Boards, both to advise and study results of World Wide Watch.

Events already scheduled for the Twentieth Anniversary period are:

A Caravan of autos and trailers to Headquarters, Mt Rainier Eatonville, Wash. from all points on Saturday, June 24. All interested parties can join in this caravan. After meeting at the Headquarters, Eatonville, they will proceed to various points at or around Mt Rainier for activities to commemorate the 20th Anniversary.

A WORLD WIDE WATCH Convention in the Seattle, Tacoma, Mt Rainier area July 22-23, the exact location to be announced. Reports will be made of the outcome and findings of World Wide Watch at this convention and various speakers will be introduced.

A third event already scheduled on the east coast and in New York City is NEW YORK'S FIRST FLYING SAUCER CONVENTION at Hotel Commodore, June 22 through June 25. Sponsor is James Moseley, editor and publisher of Saucer News, P.O. Box 163, Fort Lee, N.J. 07024. National Headquarters, Suite 1615, 303 Fifth Ave. NY., N.Y. 10016, Telephone (212) 686 3743 Some of the speakers already scheduled are: Kenneth Arnold from Australia, Gray Barker, Art Ford, Gordon Evans, Long John Nebel, New York City radio personality, Howard Menger, author of "From Outer Space to You", James Moseley, Ray Palmer of Amherst, Wisconsin, James Randi, Stewart Robb and Ivan Sanderson. Attempts will be made to establish a liaison with events at the New York City FIRST Convention and the west coast World Wide Watch Headquarters for flow of information, and sightings.

Other groups are being encouraged to plan Twentieth Anniversary events in their area or country.

What will be the result of WORLD WIDE WATCH? Who knows! Whether you are a believer or a non-believer says the Northwest Council of World Wide Watch, WATCH THE SKIES OF EARTH! Your sighting might be the one to make World News Headlines.

IMMEDIATE RELEASE
TO NEWS MEDIA

WORLD WIDE WATCH SIXTH ANNUAL NORTHWEST UFO - SPACE AGE CONVENTION.

A NEW UFO BREAKTHROUGH IS AT HAND!

Speakers will gather from many states and Canada at the Seattle Center, Rainier Room, July 22 and 23 to discuss the new breakthrough in UFO, what is new in UFO and the World Wide Watch sighting reports and correspondence with officials and groups. Starting time is 10:00 a.m. daily and all lectures are open to the public. A number of displays and exhibits are expected from various groups. The convention committees decided upon Seattle Center as the convention site this year after five previous conventions in Marysville, Ballard and Eatonville, Wash. The Seattle Center has much to offer visitors in interesting sights from the 1962 World's Fair and an exceptional choice in restaurants and dining spots. Registration can be made in advance by writing to the addresses given here or at the door. Registration fee daily is \$1.50 for adults and \$1.00 for students to cover costs of the non profit groups involved. Advance registrations are given priority, should there be a capacity turnout.

The Great New Breakthrough began to unfold during, before and after World Wide Watch and Watch For Flying Saucers Week June 21 to 28. Letters from Northwest groups and individuals known as Northwest Council began to go to the United Nations, the President of the United States, the Vice President, Senators and Congressman, Governors, as well as leaders of other nations. The request was for recognition by all departments and nations that "a visitation was evident that should be openly recognized". It was emphasized that this visitation, which is ages old, might serve for betterment and upliftment of mankind by an exchange of culture and ideas, even interplanetary commerce as the earth becomes ready and is able to encompass it. Although many fear the possibility of life elsewhere, even more advanced life than on the earth, it is obviously here and governments and departments would do well to recognize it, and to emphasize protected landings and open communication with extra-terrestrials. A department of insular, "(insolar)", affairs was requested in the government of the United States as a beginning solution to the problem if it could be termed such. Reality, might be a better word.

Replies have been received from many officials and departments which will be available at the convention displays. The big item which definitely indicates a new going ahead, a new breakthrough happened in the activities of the United Nations and in Congress and was reported in the news columns of Drew Pearson June 26 and 27. The following items have been widely reported and copies were sent to World Wide Watch.

"In the middle of the Near East crisis, United Nations Secretary U Thant took time to do a very significant thing. He arranged to have one of the top advocates of the theory that flying saucer--UFOs are from another planet, speak before the Outer Space Affairs Committee of the United Nations. The Middle East war broke out June 5. On June 7, Dr James E. McDonald (head of the Dept of Atmospheric Physics...WWW) of the University of Arizona, a firm believer in UFOs, spoke before the U.N. Outer Space Committee. McDonald believes that UFOs are extraterrestrial spaceships on reconnaissance missions to explore the earth. Interesting fact is that U Thant has confided to friends that he considers UFOs the most important problem facing the U.N. next to the war in Vietnam."

In a separate article Drew Pearson reported hearings in Congress in an article June 26, pertaining to UFO. AF Budget Director Maj Gen Duward Crow was being questioned by Rep Robert Sikes, D. Fla regarding the \$313,000 awarded the Univ of Colorado for UFO research. General Crow was quoted saying "Soviet Russia definitely is not putting the so-called UFOs into the sky nor are we, that they are either optical illusions or extra terrestrial." also "that there are unexplained phenomena" and the \$313,000 was worth spending.

May 24, 1967

Dear Sir:

THE TIME IS NOW! June 24, this year is a LANDMARK! The 20th Anniversary of the very famous phrase "Flying Saucer", coined in Washington State by News-men when a private pilot named Kenneth Arnold, Boise, Idaho related to the world that on June 24, 1947, he had observed nine disc-shaped objects flying towards Mt. Rainier from the Mt. Baker area in Washington State. He said these objects were flying without wings, in formation, maneuvering in formation while traveling at incredible rates of speed. The impact of this news rocked the world with its portent. Now, according to a Gallup Poll, five million Americans openly admit to seeing these objects, taking rides in the craft or communicating with the occupants. The actual count may be near fifteen million Americans.

The evidence of extra terrestrial visitation is overwhelming!

A "World Wide Watch" for Flying Saucers Week - June 21 through June 28 has been instituted to help commemorate the 20th Anniversary. We are asking you to give special attention to this Anniversary by also watching the skies, and introduce a special resolution in Congress to dedicate a "World Wide Watch" for Flying Saucer Week, June 21 through June 28. Also let our own United States be the first country on the earth to legislate laws to allow legal landing and protection for friendly extra terrestrials.

It is the general consensus of many people interested in the subject of space visitation that we will be involved in an exchange of culture that will lead to interplanetary commerce by 1988. So let US open the space doors now! Let US have vision and foresight enough to begin a two-way approach to space.

Most respectfully yours,

A. Lenora Croft

A. Lenora Croft, National Director

IMMEDIATE RELEASE

To News Media

Wednesday morning, June 21, 1967, Watch Teams will gather at Eatonville, Washington--World Wide Watch Headquarters, Mt Rainier and various points throughout the world to "Watch The Skies of Earth" on the anniversary of the famous Kenneth Arnold sighting of nine flying objects near Mt Rainier, June 24, 1947. It was at that time that the word "Flying Saucers" was coined and we have been hearing of it ever since. Now, twenty years later, Gallup Poll says five million Americans have seen Flying Saucers. Will they return on or near the anniversary? If they do, this will indicate desire and need for better communication with earth civilization and the need for a department of 'insular affairs' or perhaps 'insolar affairs', especially devoted to handle extra terrestrial visitation on governmental level and to observe their needs upon this earth, in this nation, locale, etc.

Let us Watch the Skies, aware too that the earth is in great turmoil and needs help and advice from wiser and more advanced cultures. The UFO visitation goes clear back to the Sanskrit language, earliest known language on earth, and the help has been continuous, though misunderstood by many.

On June 24, at 10:00 a.m., a Caravan Tour will leave the World Wide Watch world headquarters in upper Eatonville for a point at Mt Rainier for dedication and ceremony, also to Watch the Skies. Potluck food is to be brought by participants and an Indian style Chautauqua will ensue with singing, music and festivities.

Volunteers who wish to help with 'the Watch' are asked to bring sleeping bags or camping gear and food supplies to Eatonville and all others are encouraged to form Watch Teams wherever they are and keep a watch on the skies. They (the UFO's) could appear anywhere because sightings have been world-wide. The Northwest Council of UFO groups, conducting the World Wide Watch for this area, recommends that cameras be at the ready as well as field glasses, telescopes, etc. and a 'ham radio' alert has been sounded as well as a news alert by all media. The Watch begins at 12:00 noon, June 21, Greenwich Mean Time and ends at 12:00 noon on the 28th of June.

Sighting reports should be channeled to the Eatonville World Headquarters for World Wide Watch, telephone number 832 4212 or mail may be sent to P.O. Box 867, Eatonville, Wash. 98328. Results will be reported to all at an open public convention, the Sixth Annual Northwest UFO Convention to be held at Seattle Center, Rainier Room, July 22 and 23, starting at 10:00 a.m. daily.

SIXTH ANNUAL NORTHWEST UFO SPACE CONVENTION

We are pleased to invite you to the Sixth Annual Northwest UFO Space Convention with Speakers, Exhibits and visitors from many areas.

This year, the Conclave will be held in the Scenic Northwest, Seattle Center, (the location of the famous 1962 World's Fair Site where the Space Needle now stands), in the Rainier Room.

The starting time is 10:00 A.M. each day on Saturday and Sunday, July 22nd and 23rd. There is a fine choice of restaurants and dining places at Seattle Center for your selection. There are interesting exhibits to visit and rides and recreation for the children in the Carnival area.

On Monday, July 24th, there will be a Caravan Tour to Mt. Rainier which is about 60 miles away for those who can stay and join the tour. This Conclave comes one month after WATCH FOR FLYING SAUCERS WEEK, June 21 to June 28 at Mt. Rainier and other points around the world. We will present news and results of WORLD WIDE WATCH as well as UFO speakers.

Registration is \$1.50 per day for adults. \$1.00 per day for students and children are admitted free. Please fill the form on back of this sheet and mail to the above address for advance registration. Registration at the door will be accepted also.
