

July 24 "59-

Dear Mr. Relander,

I read of your appearance at the conference in the newspaper. I read that your specialty is about Indians - I am half-Indian - I have typed a book called "Anglo-Indian" - It is based on facts - the government schools, Indian agencies, and the Indians themselves - If you are interested, I would like to send you the 18 page of what I started and see if it is your type - However I would rather that it would be in your name - you could build it up more as I mean you have so many words that can make

the story more powerful -
It deals with a certain party
that could not get adjusted
to the life of the whites after
she left the government
school - But it has a
happy ending -

Frances McGuff

P.S. If you are interested, please
let me know - I thank you
very much. But as of now
I will continue til I hear from
you -
