30th congress, Miscellaneous No. 3, Memorial of Legislature of Ore.

44th Congress 1st session senate 413, private land claims.

I trust my accounting is accurate. If not, please advise.

Material is being returned via insured mail. If you wish immediate return of the \$6.50 item, Warren expedition, please drop postal.

I am enclosing a clipping which accounts for my present rush. You will note that a Maryland man, James G. Archer, later Gen. Archer, was vitally connected with Fort Simcoe. I have some material about him, could use more, including family pictures, and would appreciate connection with relatives so we could communicate with them and see he is justly treated (fully that is) in connection with our research. Need pictures of sisters, brother, mother, others of him; account of early life and later phases of Civil War, death, etc.

Same for Gen. Robert Seldon Garnett.

If you encounter material along these lines, please let me know. I am slowly building up my file on this material as my personal project, so have to go rather slow now. Have made contact with ~~and~~ the Maryland Historical Society, 201 West Monument St., and obtained microfilm of Archer letters that give good material, but believe family contact now would be productive of additional material.

Sincerely
