### THE SUNNYSIDE RAILROAD.

Moxee Route Abandoned—Must Go Through  
Union Gap.

There is but little news to record this  
week relative to the proposed railroad to  
Sunnyside. It was announced by Mr.  
McNaught Tuesday that the route over  
the "hogback" would probably have to  
be abandoned on account of the impossi-  
bility of finding a feasible grade. The  
route now under consideration by Mr.  
McNaught and the local committee  
acting in conjunction with him, is  
through Union Gap down the east bank  
of the river, over what is now the county  
road leading to Parker.

Mr. McNaught stated Thursday that  
he has now under consideration the  
building of a wide gauge railroad which  
two years after construction might be  
converted into an electric line, if deemed  
advisable. In case the road to Sunnyside  
is constructed it will be built with  
the idea of making it a part of a system  
of roads leading from this city into the  
surrounding valleys. Mr. McNaught is  
particularly impressed with the idea  
that roads in the Ahtanum and Cowlitz  
valleys could be made profitable invest-  
ments.

The branch to Sunnyside, however, is  
just now occupying his sole attention.  
Arrangements have been made to have  
parties go out next week and interview  
the farmers living along the proposed  
line relative to securing contracts to haul  
freight. If a satisfactory showing can  
be made in the matter it practically  
insures the building of the road.

### Tough on Guthrie.

A good story is going the rounds at  
the expense of Prosecuting Attorney W.  
P. Guthrie, although at the same time  
its a horse on the talented six-footer who  
edits the Yakima Republic.

An up country customer is said to  
have entered Col. Robertson's office one  
day last week and in conversation with  
that aristocrat of the pencil regarding local  
politics, said: "I went out to a political  
meeting at Tappan during the last  
campaign and felt well repaid for going  
when I heard Col. Cannon deliver his  
speech. Cannon is a crackerjack on the  
stump and no mistake. But that man  
Guthrie who followed him is a mighty  
poor stick. He's no good at all and I  
think I could beat him myself."

Where the joke comes in, of course, is  
in the fact that the farmer mistook  
Robertson for Guthrie. The latter says  
that he can prove an alibi as he was in  
the other end of the county at the time  
mentioned.

### Base Ball Season Opens.

The "Hoppers" played the Cowlitz  
nine at the Capitol Hill grounds Sunday  
afternoon at which there was a fair at-  
tendance of spectators. The game re-  
sulted in a victory for the town team  
the score being 31 to 1, the game being  
too much one-sided in fact to be inter-  
esting.

A game is scheduled for this afternoon  
between the Ellensburg Normal and the  
High School nine, at which a small ad-  
mission fee will be charged.

The grammar school boys who went  
to the "burg" last Saturday to play the  
school nine there, lost the game by a  
score of 17 to 5.

### Club Billiard Tournament.

The billiard cranks of the Commercial  
Club to the number of 30 have organized  
another tournament. The conditions  
are that each member must play one  
game with every other member entered  
in the race, which will make a total of  
900 games. In case of failure to play  
less than two games a week a member  
must drop out.

The first tournament has not been con-  
cluded, there being the final game to be  
played between Dr. Burns and W. B.  
Williams. The first prize in each tour-  
nament is a beautiful inlaid, ivory tip-  
ped cue.

### The Minnesota Society.

The Minnesota Society held an en-  
thusiastic meeting at the office of Dr.  
Wells last Friday evening. Constitution  
and by-laws were adopted and a com-  
mittee appointed on regular work. The  
next meeting will be a general ratifica-  
tion meeting at Woodman hall over  
Lombard & Horsley's furniture store  
Wednesday evening, April 30, at 8 p. m.  
A large crowd is expected at that meet-  
ing. All former Minnesotians are urged  
to be present and get in on the ground  
floor as that is the last meeting that  
will be held prior to the completion of  
the permanent organization.

### Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the  
sense of smell and completely derange  
the whole system when entering it  
through the mucous surfaces. Such  
articles should never be used ex-  
cept on prescriptions from reputable  
physicians, as the damage they will do  
is ten fold to the good you can possibly  
derive from them. Hall's Catarrh Cure,  
manufactured by F. J. Cheney & Co.,  
Toledo, O., contains no mercury and is  
taken internally, acting directly upon  
the blood and mucous surfaces of the

### ASSESSMENT FOR 1902.

Field Work Being Pushed to Completion—  
Probable Population of County.

A number of the field deputies of the  
county assessor's office have finished the  
work in their respective territory and  
others are expected to turn in their final  
reports during the coming week.

The necessity of making a census as  
required by the new law and the general  
advance in the value of realty through-  
out the county has imposed, according to  
Assessor Scott, a good deal of additional  
labor and responsibility on the office  
and retards the work somewhat.

The census returns so far are not yet  
sufficient on which to base a close esti-  
mate of what the total population of the  
county will be. The most of the guesses  
made thus far hover about the 20,000  
mark, although some put it as high as  
22,000. The returns so far made by  
deputies show that the reservation con-  
tains 929 inhabitants, which includes the  
half breeds, but none of the 1749 full  
blood Indians as shown by the last  
national census. The assessment dis-  
trict which included the Upper Natchez,  
Wenas and Selah valleys, shows a popu-  
lation of 1288. The count in this dis-  
trict, however, is not yet quite complete.  
The district comprising the Cowlitz,  
Lower Natchez and Fruitvale precincts  
complete, shows up a population of 759.

### Stock in City Found.

I have taken up and now have in the

and has let the contract for the entire  
remodeling of his Nob Hill residence.  
The changes to be made are so thorough  
that when completed at the estimated  
cost of \$5000, the house will look like a  
new one. Contractor Howard is doing  
the work.

The Cantata "Queen Esther" will be  
produced by local talent sometime  
during the coming month of May. Prof.  
Robinson of Seattle will conduct the  
enterprise and is expected here May 5th  
to conduct the rehearsals. Prof. Geo.  
S. Vance will choose the personnel of  
the company.

The Washington Irrigation Co., has  
reduced the price of water to the home-  
steaders under the ditch from an annual  
rental of \$3 per acre to \$2.50. A com-  
mittee of three representing the Sunnyside  
organization, went to Seattle last  
week and secured the reduction in a  
conference held with Mr. Denny.

OFFICIAL PAPER OF NORTH YAKIMA.

CONGRESSMAN "SUNRISE" CUSHMAN has rendered the country a good service by his pyrotechnic roast of the legislative trust that rules the national house of representatives. While it is probably true that the impelling motive with Cushman in making his fierce attack was soreness caused by frequent snubs received from house leaders, he is nevertheless entitled to commendation for calling public attention through his forcible speech to the evils that have grown up in the lower branch of congress under republican domination.

The Reed rules which were initiated by Speaker Reed, which gave him the title of "Czar," have been continued in force and extended under the administration of Speaker Henderson, a very much inferior man. The three men who form the majority of the committee on rules, among whom is the speaker himself, have absolute control over all legislation. The balance of the house membership, majority as well as minority, is helpless as against the will of these three men. Until the break made last week over the Cuban reciprocity bill, brought about through a coalition of democrats and insurgent republicans, no legislation has been passed through the house in recent years without the assent of the tyrannical committee on rules. Such a condition of things would not be so bad perhaps if the committee was always composed of broad minded statesmen who understood the needs of all sections of the country. This, unfortunately, is not the case. The speaker is himself a small man of but mediocre ability and so jealous of his prerogatives that he has associated with him on the committee men of even smaller caliber. That the republican majority has consented all these years to accept the dictation in all matters of this little coterie of self constituted leaders is ample evidence of the lack of independence in the makeup of the average republican congressman. Cushman, to some extent, has proved that he is an exception, although there can be no doubt that he was prompted to rebel by the fact that he had previously rendered himself persona non grata with the powers that be in the house.

COL. BLETHEN, the picturesque editor in chief of the Seattle Times, has served notice on the people of the state that his town must have the next U. S. senator, even though the heavens fall. Not only that, but the future senator has already been selected from a host of candidates, been given a clean bill of health by no less a personage than the colonel himself and formally entered in the race.

It does not seem to enter into the case that Mr. Preston is a republican candidate and that Col. Blethen is engaged in running an alleged democratic paper. Sufficient it is to know that the former is the Seattle candidate and the latter the special protector and guardian of Seattle interests. And so the matter is settled. Preston is the Messiah who is to lead his misguided townsmen out of the political ditch into which they floundered years ago through the agency of unscrupulous and unskillful leaders, and Blethen is his prophet.

The way things are shaping up it looks as though it was going to be another case of Seattle against the state. It is unfortunate that this is so, but the kindergarten school of politics in that town will have it that way. If the foolish course of demanding everything for Seattle is persisted in the net result will be that the wicked town on Elliott Bay will as usual, get nothing.

The Yakima Republic, taking its cue from a communication written for the P-I. by Miller Freeman, editor of Ranch and Range, published an editorial article two weeks ago in which it was claimed that Senator Turner had dodged the vote on the oleomargarine bill in the senate. An investigation of the matter has convinced the Democrat that the statement is not true. The facts are that Senator Turner was in favor of the bill, but expecting to be absent when a vote was taken on the measure had paired with Senator Warren of Wyoming, who opposed the bill.

Senator Turner happened to be in his seat when the vote was taken and when his name was called arose and stated that he was paired as a reason for his not voting.

Now that the facts in the case have been made clear it remains to be seen whether the Republic and the other g. o. p. organs in the state that misrepresented the senator will now exhibit the manhood to come out and admit that they were wrong and that the intent of such spurious information was to injure him.

The president of the United States, stirred at last by the newspaper reports of atrocities committed by American soldiers in the Philippines, has directed General Chaffee to place General Smith on trial at once for issuing without authority his now famous "kill and burn" order. Major Glenn, Lieut. Conger and Surgeon Lyon are also by the president's instructions to be court martialed for the alleged administration by them of the "water cure" to natives.

It is hardly conceivable that American soldiers can be guilty of the "water cure" outrage, a horrible and inhuman practice said to have originated during the Spanish inquisition. If those thus charged, however, are found to be guilty they deserve to be disgraced and drummed out of the army. Even if we are engaged in an unholy war of conquest, the army of the United States cannot afford to bear a reputation for cruelty such as would shame even the army of Spain.

#### ON CHOOSING A SENATOR.

It is not denied that Senator Turner is the ablest and most distinguished man that has ever represented this state in the federal senate. A lawyer of profound learning and experience, a forceful speaker and a man of commanding presence, he has rapidly risen to high rank in that most august of legislative bodies. It is, indeed, a rare thing for so young a state as ours to have in the national legislature a man of such eminent ability. This fact is generally recognized by our people; and they are duly proud of the honor and dignity which his presence and services there lend to the commonwealth.

Senator Turner is today the leader of the minority in that body on all questions of an international and constitutional character—truly, a most notable distinction for any man to have achieved in the brief space of five years. He is in a position to accomplish great things for this state, and his ability for accomplishment will constantly increase in this direction. In a new state like ours, vast in commercial and industrial resources, federal aid is necessary to their improvement and development, and our most imperative need is representatives able to plead our cause, both on the floors of congress and on important committees—men whose power and influence are such as to command respect and bring results.

In Senator Turner our state has a powerful and effective advocate; a statesman of the highest type, and a man of action in things pertaining to our practical needs. And it is for these reasons—reasons commonly recognized and appreciated—that we are persuaded to believe that our people will demand his return to that body, to the end that their immediate interests may not suffer impairment nor their state lose any of the luster that has been shed upon it by the distinguished record of its present senior senator.—Sumner Herald.

J. P. MORGAN now has his ocean transportation trust formed and ready for business. He practically abolishes competition by taking over nearly all the hitherto independent lines, and is said to be calculating to gobble up the balance. These gigantic aggregations of capital, the aim of which is to control business, are becoming so common that the people no longer seem to exhibit much concern regarding them. Yet it is incomprehensible that these trusts, controlled as they are by greedy, grasping, cold-blooded magnates, are being or will be operated for the people's benefit. It looks as though the foolish gullible people are permitting chains to be forged that will bind them and their children in slavery.

The action of the U. S. Senate in discharging the Mitchell-Kahn Chinese exclusion bill will not sit well on the stomachs of laboring men and the producers of the Pacific coast generally. The bill was a great improvement over the Geary law now in force, as the latter was loosely drawn and is so full of loopholes that many Chinese laborers under the guise of merchants have crawled through it. Senator Mitchell's bill would doubtless have passed the senate if it had not been for the back-capping action taken by the San Francisco and Portland Chambers of Commerce and several large employers of labor on the coast. Senator Turner, in a masterly speech on the bill, showed up the opposition to the measure.

DICK HUTCHINSON, who was elected senator from Lincoln county a few years ago by the democrats, and who soon after his election went over to the republicans, is out now with an affidavit in which he asserts that ex-Marshall Ide offered him a large sum of money to vote for John L. Wilson for U. S. senator and that he refused the same. Those that know Hutchinson best say that the story is very improbable, as Dick was never known to refuse such a good offer.

Fred Bernd has sent in his resignation as postmaster of the Pasco postoffice. He did not recommend anyone as his successor but is ready to walk out when someone is appointed and qualified to take his place. This is a plum with the skin off for some good republican, but don't all speak at once.—Pasco News.

Gov. McBride and Attorney General Stratton have scored against the "merger" by winning the first round in the U. S. supreme court. But it must be remembered that the case is not really begun yet, the court merely having consented to hear the case.

It is clearly the household duty of John L. Wilson to see that "Brother Harry" gets permanently grafted onto the government plum tree. And if he can get our merry-ha-ha senator to put on the sealing dope, that's all right, too.—Sumner Herald.

MR. CHAMBERLIN confessed that even if he were to die the British empire would still go on. An English paper printed this comment:

Preston's senatorial boom must be growing in size now that Col. Blethen is taking his turn at blowing hot air into it. Preston's boom, by the way, is beginning to make Levi Ankeny's boom look like thirty cents.

**The Exclusion Bill.**

The debate and vote on the Chinese exclusion bill makes it clear to the mind of all who have followed it closely, that the laboring men of this country find their champions in the democratic party, for the republican party now, more than ever, shows itself to be bound hand and foot to the trusts and big corporations. The exclusion bill as presented by the Pacific coast members was defeated and the Platt amended adopted. This is but a makeshift and an entering wedge to the repeal of all exclusion legislation in 1904 should the people of this country leave the control of public affairs in the hands of the republican party. Nothing illustrates better the position of the party than the vote on the "seamen's clause" which aimed to protect the white seamen against Chinamen. Even Senator Foster of this state voted against the clause at the behest of a few steamship companies who while seeking to run their arm into the U. S. treasury up to the armpit on the subsidy steal, yet insist that they are going to employ Chinese seamen because they can get them cheaper. Contrast this with the stand taken by Senator Turner, who not only fought for this clause but fought for the bill from start to finish, showing he was with the laboring men and the people of his own state, rather than pandering at the shrine of the trusts and monopolies. The voters of the state will not forget this when the next election comes around.

#### Coined Only \$1,537.50.

A remarkable thing happened in Uncle Sam's mints during the month of March. Only fifteen hundred and fifty-seven dollars of gold was coined—while more than three million dollars of the much despised silver was converted into money. The exact figures were: Gold, \$1557.50; silver, \$3,183,734.70.

When one remembers that in the months of January and February of 1900 Uncle Sam coined \$25,000,000 in gold against \$5,000,000 of silver—and again in 1901, in those same months, coined \$22,000,000 of gold as against \$5,000,000 in silver—and in January and February of the present year coined \$14,000,000 of gold as against \$1,400,000 of silver, he will begin to appreciate what a terrific change occurred in the month of March when the insignificant sum of fifteen hundred and fifty dollars in gold was coined.

Who was it that said a few weeks ago that there was to be a concerted movement on the part of financiers to curtail the coining of gold on the ground that it was getting too plentiful—such an idea being indorsed by the present Secretary of the Treasury?

If one needed any proof of such a disposition, the coinage by the government in March would be overwhelming testimony—and especially when one remembers that at no time during the past 27 months has the gold coinage of the United States in any one month been less than \$2,293,335—the next highest figure in that length of time being in September, 1901, when the gold coinage fell to \$4,100,178.

Indeed, if we were to go further into this matter we should find that Uncle Sam coined slightly over ninety-nine millions in gold against thirty-six million dollars in silver in 1900—and almost an hundred and two millions of gold in 1901 as against thirty-one million dollars in silver—and these figures will demonstrate the insignificance of the gold coinage for March.—Seattle Times.

This company, lately organized, has ten acres of land at Sunset, California, in the very heart of the choicest oil lands in that state. At least twenty wells can be sunk on this company's lands. It adjoins the Queen Oil Co., and is within seven hundred feet of its famous gusher, and our general manager is now on the ground to arrange for putting down the wells.

For a short time the company will sell a limited amount of its stock at the low figure of 15 cents per share, reserving the right to raise the price at any time without notice. We are adjoined on all sides by companies whose prospects and financial condition a year ago were not as good as ours is, that now ask from \$5 to \$12 per share, and are paying good dividends on the par value of their entire stock. There is no reason why ours should not prove as good.

There has never been a well sunk in that district that is not now a producer, and no well has shown the slightest decrease in output of oil.

The purchase of stock in this company has none of the elements of a venture but is a sure and safe business investment that cannot in any human probability fail to bring splendid returns.

### Dumping Ground for Garbage.

Street Commissioner Hauser with his force of men is now engaged in a laudable effort to cleanse the streets and alleys of the city of the winter's accumulation of filth. It might be fitting to remark in this connection, that a great deal of this work is being done at the city's expense that ought to be done by individuals.

Mayor Fechter, in behalf of the city, is now negotiating for the purchase of a portion of the Thomas tract on the river, which if secured will be used as a city dumping ground. Mr. Hauser has been given permission temporarily to dump the municipal garbage on a patch of ground south of town, providing the same is burned. Under the circumstances the board of health has decided not to build the small crematory that it was authorized to build at the last session of the city council. The feeling of the board is that the small sum of \$100 which was appropriated for the purpose, is altogether insufficient to build a brick furnace large enough to burn the rubbish of the city.

The Women of Woodcraft gave an entertainment in the "Syndicate" lodge room Monday evening. The program consisted of recitations vocal and instrumental music and the rendition by local talent of "Country Cousins," a comedy-drama in three acts. Those taking part in the performance were Messrs Rand and Patton; Mesdames James and Murchie, and the Misses Dean, Barnes and Crawford. They all received numerous compliments for their excellent presentation of the piece.

### A Raging, Roaring Flood.

### Complete Surrender Demanded

The New York Times has constituted itself the special champion of the reorganizers and is lamenting because "Mr. Bryan will use his strength and the numerical strength of his following to defeat democratic reorganization." The editor of the Times with an "I think thee that I am not as other men" air speaks of "the immortal professions which the democratic party was led by Mr. Bryan to make." The Chicago platform was not the work of Mr. Bryan or of any one man. While the silver plank was copied from the Nebraska platform it was adopted by democratic primaries, county conventions and state conventions and it was so adopted before any large number of democrats thought of Mr. Bryan being a candidate. The Nebraska silver plank was not copied because Nebraska had adopted it, but because it expressed what the democratic party wanted to express. It is not Mr. Bryan that the Times should fear, but the people who join him in democratic principles. The Times is one of the papers that helped to elect Mr. McKinley, and now it offers to assist the democrats if they will only accept a republican platform. It is not willing to make any compromise—it demands a complete surrender on the part of those who have supported the platform of 1896 and 1900. It complains that Mr. Bryan "will not meet them (the reorganizers) half way, and even if he would, to meet him half way would be fatal to their purpose." What is this but saying that reorganization would be a failure unless the democratic party went over half way toward the republican position on public questions? When the Commoner calls attention to such editorials as the one above referred to it is not for the purpose of disturbing harmony—for the reorganizers are the ones who are disturbing harmony—but reference is made to such editorials to show how impossible it is to keep real democrats and corporation democrats in the same party. When the party is made congenial for men who bolted, it will not be congenial for those who voted the ticket. To invite the bolters back simply to have another test of strength is not harmony—it is riot. Harmony can only exist when the members of the party strive for the same thing and while the reorganizers openly boast that their purpose is to repudiate the party's recent utterances they cannot be sincere in their talk about uniting the party. The democrats who were courageous enough to condemn their own president when he became a tool of the Wall street syndicates still have convictions and can hardly be expected to surrender them at the demand of bolting newspapers whose stockholders are unknown to the public and whose editors lend themselves to the defense of every iniquitous scheme proposed for the plunder of the masses and the enrichment of the privileged few. Most people belong to a party as they belong to a church, not because of the number of members but because of the creed, and such people cannot be enticed from their principles by mere promises of success. But even on the low ground of expediency it would be suicidal to listen to the advice of the reorganizers because their plans would alienate more voters than they could by any possibility please. The reorganizers would recognize this if they really desired the success of the party, but they are so well pleased with most of the republican policies that they would rather continue those policies than help the Democratic party to overthrow them.—The Commoner.

### Howard Kyle as Nathan Hale.

A large audience turned out Wednesday evening to see Howard Kyle and his excellent company play "Nathan Hale." It is safe to say that there were none present but what were highly pleased with the talented actor's impersonation of the martyr schoolmaster of the revolutionary period, as well as his leading lady Florence Smyth in the role of Alice Adams, the loyal sweetheart of the spy hero. The minor characters, too, were well presented. There are a number of touching and pathetic scenes in the play, as well as others that are decidedly humorous. The love-making in the first and second acts was certainly worth the price of the whole show. This piece is well staged with appropriate scenery. In consideration of the fact that the 23d was the 338th anniversary of the birth of the great Shakespeare, Mr. Kyle after the conclusion of the performance appeared and recited the "Seven Ages of Man" from "As You Like It." He was given hearty applause.

### Lewis Morrison's "Faust."

Lewis Morrison's "Faust" will be one of the important theatrical attractions in the near future. Scenery, costumes, music, electrical effects and a newly written prologue are of the most elaborate kind, especially prepared and all new.

If you contemplate building a house, either a business block or a residence, first make it a point to see C. H. Bruenn the contractor and let him figure with you. Office 100, First street, rear. 20

### He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and one and a half boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For Eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. W. E. Ayres will guarantee satisfaction or refund money. Only 50 cents.

### Summons for Publication

In the Superior Court of the State of Washington, for the County of Yakima.

Ida White, Plaintiff.

vs.

Samuel White, Defendant.

The State of Washington to the said defendant, Samuel White:

You are hereby summoned to appear within sixty days of the date of the first publication of this summons, to-wit: within sixty days after the 15th day of April, 1902, and defend the above action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorneys for plaintiff at their office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court.

This is an action brought by said plaintiff against said defendant to dissolve the bonds of matrimony now existing between said plaintiff and defendant for an absolute divorce from him, on the grounds of abandonment for more than one year, and for defendants failure to provide the common necessities of life for said plaintiff as his wife, and for his failure to you according to the demand of the complaint, and for her costs and disbursements in said action incurred.

# Big Stock Low Prices

Doesn't it Stand to Reason

That anyone who buys 250 Buggies from one concern and 150 Wagons at one time can sell and make a profit at the price they cost a man who buys only 20 or 30 a year?

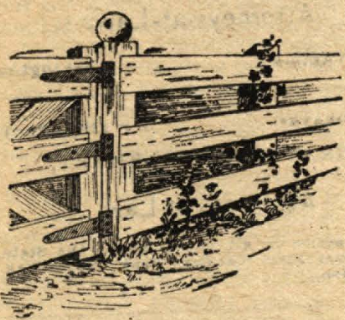

That is what we did last fall before the raise in wagon and buggy material. We also buy in large quantities for our harness depot, enabling us to make prices which cannot be equalled. Look over our stock and get our prices.
