Dear Click:

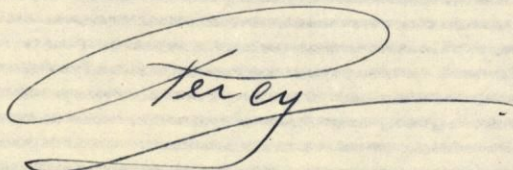

Glad to hear that you are doing so well in Yakima. Must be a real interesting and first class situation.

Would also be happy to have a chat with you when you come down this way, if I happen to be in town.

However, since selling the Tulare papers to John Scripps about a year and a half ago, I haven't paid any attention to Daily operations and am afraid I couldn't be of much help in that connection. Aside from Radio, am devoting most of my time now to flying and selling NAVions while Brother Bob has moved to San Francisco where he is going great guns on Personology.

Suggest you drop a line to E. O. Crumpacker, who is business manager of the Times and Advance-Register, and a very good one. Am sure he will be glad for a chat.

Kindest regards

A handwritten signature in cursive script, reading "Percy", with a long, sweeping horizontal line extending to the right.
