More New Books At Public Library

The Selah library board held a special meeting Monday afternoon to discuss the present emergency. Because of the discountinuanace of NYA projects, the library will be deprived of its youth librarians, which have been available for over six years. The board has not been able to decide how this emergency can best be handled.

The library board has purchased several of the best sellers for adults and some interesting new juvenile books. Among the new adult books are: "Dragon Seed," Pearl Buck; "Windswept," Mary Ellen Chase; "Keys of the Kingdom," A. J. Cronin; "Saratoga Trunk," Edna Ferber, and "Mrs. Appleyard's Year," by Louise Kent.

An interesting quota of Carnegie books is being received. These are: "North of Singapore" by Carveth Wells; "My Narrow Isle" by Sumie Seo Mishima; "The Soviet Experiment" by Harry Best, and "The Heart of Europe" by Denis de Rougemont.
