

Dear Neighbor Wilson:

Nov. 16, 1955

I am sending some stamps and hope you can mail me one of the statements that has been issued by the Yakima Indian Association.

We make every effort to get material proper in the paper and by having one of these copies, I am sure that will be of assistance to getting a proper statement. I believe that between now and your election there will be occasion for stories showing the stand or platform of the association.

Also, please let me know if there are any other meetings to announce. You know we are always glad to be of service announcing meetings.

I have been expecting you to drop by with announcements like that.

Also, if any of the candidates, now announced, wish, we will be glad to publish their pictures. That is a part of the service of a newspaper.

It is snowing here this evening and rather ~~bad~~ a miserable night. I suppose it will clear up soon, as it usually does.

Sincerely yours
