Mr Priestly

Sir

Your favor of March 8th
Come duly to hand.

In Reply. Will say.

I talked with several Indians
and they told me it would
do no harm to bring my cattle
on the Reserve for a short time
as I was out of feed and could
not buy any in the country.
We would have moved the stock
sooner but they were a
week I could not.

It was only to save the stock
that caused me to bring
them for they would all certainly
have died if I had not got
them to grass.
