HAWAIIAN ISLANDS

This is a reproduction of the original postcard set sent by Pearl Harbor spy Takeo Yoshikawa to identify fleet units at Ford Island. Many of these cards were taped to instrument panels of the attacking planes December 7, 1941.

Similar sets of postcards were carried aboard the *SS Taiyo Maru* after she docked in Honolulu November 1st, 1941. Japanese consul Kita gave them to two naval officers and the ship sailed for Nippon the following day.
