SUPT. LYNCH SUSPENDED

**Veteran Guardian of the Yakima's
Again Under Examination By
Indian Bureaucracy—Charge
Claimed to be Frivolous.**

Jay Lynch, superintendent of the Yakima Indian reservation, was suspended from his duties this week pending an official investigation of his office preferred against him by Special Agent Davis.

The charges against Mr. Lynch this time are for lax administration pertaining particularly to the agency store at Fort Simcoe, which is owned and conducted by A. C. Coburn. The Indians, it seems, are liberal patrons of the agency store and often run big bills there, at least some do. Those who have land leased out and receive their rental in semi-annual payments, usually find, it is said, that their store bills consume all that is coming to them, although it is freely admitted that the money is better expended in that way than it would be spent for bad whisky. There is no charge that Superintendent Lynch is interested financially in the post trader's business, but merely that his office has been used to an unwarranted extent as a collection agency. The superintendent under bureau regulations collects all rentals and other sources of income for the Indians. There are also some minor charges of unimportant nature against Superintendent Lynch.

The charges are not regarded as serious by Mr. Lynch and his friends and they maintain that the investigation will amount to nothing other than the annoyance caused. It is even assumed that the charges have been carefully trumped up by certain civil service employees in the Indian department for the purpose of endeavoring to rid the service of Superintendent Lynch. Mr. Lynch is not a civil service appointee and there has been more or less friction over that fact for several years, as the civil service employees wish to force him out of the office to make room for one of their own number. There is, however, some bitter opposition to the Lynch administration by certain interests at Toppenish which is attributed to his conservative leasing policy with regard to Indian lands.

Mr. Lynch's friends say that he will meet the charges satisfactorily and that he will be reinstated.

BIG HANK NOLL

WAS CLOSED UP

**Saloon Man Was Forced to Shut
Down His Bar at the Fair Grounds
Last Week—Richard Winsor, Jr.
Did It.**

Hank Noll, the big fat proprietor of the Warwick saloon, and the man who ran the saloon at the fair grounds during state fair week, was forced to close his liquor business at the latter place on Saturday morning, the last day of the fair. If Hank had not closed his place at the fair grounds when he did, he would have been arrested and prosecuted.

Richard Winsor, Jr., is the man who is responsible for the closing of the saloon at the fair grounds. Mr. Winsor ascertained that Hank did not have a license to sell liquor at the state fair grounds, and he immediately proceeded against him. Much satisfaction was expressed by the public generally when Hank Noll was compelled to close down.

A year ago Mr. Noll conducted a saloon at the fair grounds. At that time it is said that several people were handed counterfeit gold pieces by men working for Mr. Noll.

Depositions were taken here this week by attorneys of the Northern Pacific in the cases of Gilbert & Richie, J. M. Perry and other fruit shippers, who have causes pending against the railway company for damages for not furnishing cars to shippers in the fall of 1907.

CITY WATER ANALYSIS

**Dr. Rose Bebb's Report on City
Drinking Water Not Very Reas-
suring—Mayor Asks Company to
Install Filter.**

Dr. Rose Bebb, state bacteriologist, at the request of the state board of health and Dr. A. J. Helton, health officer of this city, have recently made another analysis of a sample of North Yakima's city water and gave out the following report:

"There is an undesirable amount of bacterion contamination—there being an average of 11,000 bacteria per 100. The character of the organisms is, however, not such as to indicate the most serious pollution, i. e., none of the more serious bacteria are found."

Dr. Bebb is also said to have made a verbal report to the effect that the sample of water analyzed also showed a peculiar specimen of bacteria that she was not able to classify and expressed a desire that a further sample of water be sent for analysis, which request has been complied with by Dr. Helton.

The city authorities wish to determine the cause, if possible, of the existence of typhoid fever cases in the city this season. Such cases, while not numerous, are said to be mostly of a more virulent type than has been the case in past years. Naturally they concluded to investigate the water supply question first.

Mayor Lombard and some of the councilmen are said to have had a conference last Wednesday with Superintendent Arrowsmith, of the Light & Water company relative to improvements in the quality of water furnished. The mayor is said to have asked that a modern filter system be put in, but this was objected to on the ground of the great expense involved, the superintendent estimating the expense at \$100,000. Moreover, he declared that such a system is unnecessary as the supply of water passes through six feet of gravel before it enters the company's pipe line, thus affording a natural filter. He expressed a desire, however, to co-operate with the city in purifying the water supply, if deemed possible.

SNIVELY WILL RESIGN.

**Democratic Candidate for Senator Too
Busy to Run for Office.**

While the resignation of Hon. H. J. Snively has not been received by Chairman R. A. O'Brien, of the democratic county committee, it is understood that the astute attorney will not make the race against Sam Cameron for this office.

Mr. Snively finds that his fast growing law practice will not permit him to sacrifice his business affairs for political reasons. He believes that he would have an excellent chance of election, but even in the event of his election, he would not be in a position to spend a couple of months at Olympia during the legislative session.

There is some talk of a possibility of Dr. Granville Lowther becoming a candidate for the senate instead of the legislature, but it is not thought that such a change will be brought about.

Dr. Lowther is now in the lower valley accompanied by other democratic candidates making an active campaign. Many republicans concede his election to the legislature.

Beveridge's Bad Break.

That was an awful bull which Senator Beveridge perpetrated in North Yakima when making a speech extolling the president and Senator Piles. Of course the people of Yakima are to be expected to hear something about "Jones," and when they were not to be gratified, one man gently reminded the speaker of the omission, whereupon Beveridge wanted to know "what Jones" they had in mind, telling them that there were a great many Joneses in every community. Is it any wonder that Senator Beveridge got no applause at North Yakima?—Seattle Times.

CITY POLITICS

WAX WARM

**Armbruster Will Again Run For Mayor—A Three
Cornered Fight Now on for the Mayoralty—
Municipal Ownership Not an Issue.**

Municipal politics warmed up considerably this week. Today, Saturday, is the last day that filings can be made for any elective office. Filings must be all in at City Clerk Brooker's office by 5 p. m. today. There will probably be several filings of candidacy made today.

Councilman Janeck and Councilman Schott at this writing are the only candidates for mayor who have filed for the mayoralty nomination on the business men's ticket. P. M. Armbruster is credited also with the intention of making the race again for mayor, at least in the primaries. Candidates for the council who have already filed are M. Schorn, councilman at large; E. B. Turnell and H. W. Mull, for councilman from the fifth ward; Fred E. Shaw from the first ward, and W. G. Waugh for the third ward. L. O. Janeck, having resigned his position as second ward councilman to run for mayor, a new councilman will have to be elected in that ward to serve for one year. Mull and Shaw are members of the present city council. C. R. Donovan is a candidate to succeed himself as treasurer, as is also J. C. Brooker, city clerk. The nomination for city attorney on the business men's ticket will be hotly contested between John H. Lynch and Frank J. Allen.

It is most probable that there will be a ticket up for nomination to be known as the "people's."

Who the nominee for mayor will be on that ticket has not yet developed. Some say it will be Armbruster; others say that Harry Koontz will be the man. There is also a marked sentiment in favor of C. C. Case, the well known

druggist, for mayor. Mr. Armbruster has as yet refused to say which ticket he will run on, but he has a most vigorous platform of his own.

Phil A. Ditter has been subjected to severe pressure from his friends to make the race for mayor, but he decided early in the week, and for personal reasons, that he could not do so. Mr. Ditter had a very strong following among the business men.

Public sentiment in North Yakima seems to demand this year candidates for mayor and council who not only believe in and pledge themselves to give the city a clean and progressive administration, but men are wanted in those positions whose character and record is such that they can be depended upon to protect the people against grafters no matter whether it be a million dollar corporation or a grafting individual.

The action of the Northwest Light & Water company in recently placing its double row of heavy poles surmounted by crossbars through the alleys in the business district without due authority and the groveling attitudes of the present city administration in relation to that corporation, has had the effect of angering numerous citizens, who demand changed conditions and naturally a change of city officials.

There appears to be no sentiment in favor of forcing the municipal ownership issue in this year's campaign as was the case one and two years ago. The present administration having increased the city's bonded indebtedness to the extent of \$160,000, and bringing it up nearly to the legal limit, the time is not deemed opportune to advocate a further issue of bonds for any purpose.

persons now in the United States are doomed to fill consumptives' graves unless the crusade can be made more effective.

In another paper on the diet for consumptives he upset one of the theories upon which many sanatoria are now working, namely, that the victim of pulmonary tuberculosis must be fed and overfed and stuffed like strasbourg geese. From the experiments of Prof. Chittenden, of Yale, who has demonstrated that athletes have greater strength and endurance when taken off a meat and egg diet, he has proved to his own satisfaction that consumptives do best on a moderate diet of non-proteid foods.

WASHINGTON LETTER.

EDWARDS NEXT SHERIFF

He Will Have a Big Majority Over Joe Lancaster.

That John Edwards will succeed himself in the sheriff's office is almost a foregone conclusion. The lawyers and business men generally in this city feel that he has conducted his office in a manner to command the highest respect of the taxpayers, and therefore, that he is justly entitled to a second term.

In the country John Edwards has many staunch friends who have known him for 30 years. These old timers, regardless of politics, will give him their support to a man.

The political forecasters of the county in both parties are agreed that John Edwards is the only candidate who has what is termed "a lead pipe cinch."

BRYAN SENTIMENT STRONG.

**Wm. Badger Returns from the East
With Good Reports.**

Wm. Badger of this city, who returned home recently from a six weeks' visit to his old home in Ohio, says that every place he visited in the east during his absence he noticed a distinct movement towards Bryan. This was particularly true in Ohio and Indiana, where a number of republicans assured him of their intention of voting democratic this year. Mr. Badger came home firm in the faith that Bryan would be elected.

W. A. Walker, who resides near Roosevelt, Klickitat county, was in the city last week attending the fair. Mr. Walker is a leading democrat of his section. He says that a number of republicans in that part of Klickitat have expressed their intention of voting for Bryan this year.

CONDITIONS AT HANFORD IMPROVING

**Complete Reorganization of Han-
ford Irrigation & Power Company
and Adjustment of Differences
With Settlers Perfected.**

All is now serene at Hanford on the Columbia river. A communication received from there this week states that a complete reorganization has taken place, new officers elected, and generally speaking that new life has been infused into the enterprise. The Irrigation & Power company has amicably adjusted all differences with the disgruntled settlers. In fact in every case where settlers under the ditch claimed damages for various losses these claims have been settled to the satisfaction of all parties. Payments for land on all notes and mortgages have been canceled for one year, and the people are assured that unless the company succeeds in furnishing water no one is to be held responsible for the obligations they assumed in contracting for land.

It is reported that the new management of the Hanford irrigation canal have decided to line their ditch with cement through several miles of gravelly soil and in other places will build lumber flumes to carry the water. With this object in view the company is assembling a large amount of material on the ground.

Last year's experience was a costly one for the company owing to the failure to get the water through the canal and the result was that many farmers who had bought land from the company and set out orchards lost their trees.

Interests allied with the Milwaukee road are now believed to be in control of the Hanford Irrigation company.

Would Shut Out Tittle.

A recent dispatch from Washington states that President Roosevelt has issued instructions to the interior department to the effect that hereafter all new appointees as registers of U. S. land offices must be attorneys by occupation and that all receivers appointed must be expert accountants.

If this new rule is to be strictly enforced it will have the effect of eliminating the candidacy of Lee Tittle, present county treasurer, who is a candidate to succeed Register Z. Y. Coleman, who some time ago sent in his resignation as register of the North Yakima land office. No other candidate, other than Mr. Tittle, has as yet showed up for the office, although there has been some talk of I. M. Krutz in that connection.

There is no telling how soon Mr. Coleman's successor will be named. It is up to the Ankeny-Piles combination to name the man. The friends of Congressman Jones say that he will have nothing to say in the matter.

L. H. Linbarger is a business visitor on the Sound this week.

PAT JORDAN BETS \$20 ON HIMSELF

**Changed His Politics Last July,
Joined the Republican Party and
Then Came Out for Office—A
Life Long Democrat.**

It is a little out of the ordinary for a man running for public office to gamble on the result of his election. It is not only a bad precedent to establish, but it will cause the candidate to lose his right of franchise.

Pat Jordan, however, doesn't appear to care anything about the precedent he establishes, and he openly admits that it doesn't make any difference to him whether he votes or not.

Last Monday afternoon Pat bet \$20 to \$8 with a democratic friend of his that he would be elected to the office of constable. He put up the money too, and then wanted to bet \$20 more offering to give the same odds.

Last May Pat was a good democrat. Why, he went as a delegate from the second ward to the democratic county convention, and took part in the deliberations of that body. He was a strong Bryan man, yelled his head off for Jack Splawn for governor, and in fact drilled with the democratic crowd as he had always done in the past.

In July Pat came out for office. He filed for constable on the republican ticket and on primary election day he went to the polls and voted for himself on the republican ballot, the first time he had ever voted the republican ticket in his life. He even forgot his old friend Jack Splawn, and didn't even do him the courtesy to give him a complimentary vote.

Pat says that so far as the democratic principles are concerned they suit him all right, but he wants the job, and he thinks the republicans are the people to give it to him.

"I am judging the republicans by what they have done in the past," said Pat. "There are half a dozen men in this county formerly democrats who left the democratic party, sought public office with the g. o. p. and were elected. Now, I think they are going to do the same thing with me. I'm out for the money. That's why I left the democratic party."

Aged Couple Divorced.

Mrs. Louisa F. Hughes was granted a divorce from her husband, S. V., better known locally as "Dad" Hughes, by Judge Preble in chambers Monday, on the ground of cruel treatment. According to stipulation the community property was divided, Mrs. Hughes being given 80 acres of the Ahtanum ranch besides a considerable amount of personal property. The venerable couple have not lived together for some time, Mr. Hughes now making his home with a son in Chelan county. Mr. Hughes and family settled in Yakima county in 1872.

We Never Sleep

PRODUCE MARKETS

STEADILY IMPROVE

Conditions Here as to Apples, Hay, Oats and Potatoes Are Expected Soon to Follow.

Oats, hay, potatoes, fruit all appear to be progressing towards better markets. As regards the oats and hay the feeling is that the large contracts to be filled for the federal government, for Philippine delivery, are responsible for the strengthening conditions. Potatoes are obtaining a natural fall market and fruit is getting down to figures, that is apples are, though there has been no particular dealing as yet. Many have been induced to consign but the general feeling is that the future for apples is much better than any conditions which a few weeks ago were anticipated, and transactions are a certainty. Dealers who shied off last year at the very high prices which were so popular both with the grower and buyer are in this year and figure that future quotations will see them through nicely.

Timothy Crop Is Large.
Estimates of the timothy crop of the Kittitas valley this year are that it will show a greater total than ever before in the history of that valley. A prominent Ellensburg hay dealer places the total at 35,000 tons, which others declare is conservative.

Potatoes, according to the railroad officials, are going out of this station west at the rate of about four car loads a day. There is some buying and some of the growers are shipping on their own account. Data as to the general potato conditions this season have not been received. It is generally admitted here that in this section the season has been a poor one so far as the production of quality is concerned. There is far from being a consensus of opinion as to quantity. Many of the fields failed to produce as anticipated and many others are not giving a proper return on the care devoted to them in the early season when they were demanding much attention. Reports handed in to grocers and to others, however, from a variety of general sources rather indicate an average yield in the district at large.

Scarcity in Some Sections.
Wenatchee advices received in North Yakima are to the effect that the impression there is that the season in eastern Washington generally has been a bad one from a potato viewpoint. The

Republic, of that city, quotes some sales as having been made at \$25, but \$15 is all that is offered here. It is understood that at this time the conditions in the Wenatchee country are purely local, the price obtained there being due to a local shortage, a demand from the many mines and other activities in operation in that territory and the fact that orchards have demanded so much attention that the proportion of land to other crops has not been as large as has been the case in this valley.

Butter Goes Up a Notch.
Butter has gone forward another notch and creamery, per roll, is now quoted at 80 cents. Eggs are still figured at 35 in the majority of the stores. They have taken a strong upward tendency in the Seattle and Tacoma markets, however, and the buying prices there are in advance of the selling prices here, so it is natural that Yakima may be expecting to pay a higher figure at no distant date.

While eggs are less here than on the Sound the same cannot be said of sweet potatoes. That popular article is selling in North Yakima at six pounds for 25 cents. In Seattle yesterday 10 pounds were sold for a quarter. The express and freight charges must be very heavy.

In the retail business of the city the dealers say the state fair made a decided difference. While the household buying showed but little increase the dealers who sell to hotels, restaurants, and lunch counters were called upon to fill large and frequent orders.

LOWER NACHES.

The organization of the Naches Congregational Sunday School Amateur Athletic association has been perfected. Constitution and bylaws have been adopted and the following named officers elected: President, Mr. Patterson; vice president, William Angle; secretary, Frank Glaspey; treasurer, Edythe Whitmore. A tennis court and basket ball are being installed on the grounds near the church. Later on baseball and other departments of athletics will be added. The pastor of the church and others interested in this movement are hopeful of interesting other churches and Sunday schools, and of securing a county organization. Any information desired may be obtained by addressing a letter to the secretary, Frank Glaspey, Selah, R. F. D. No. 2.

bad effect on the national ticket. These
bitter factional rows are the natural
result of long continuance in power.

Mr. Taft is not proving to be a popular
candidate and has not strengthened
himself by going on the stump. Seeing
and hearing him the people very natu-
rally compare him with Bryan and just
as naturally Taft suffers by the compar-
ison. It is an admitted act of folly
now on Taft's part to have ventured
out to take the stump against his bril-
liant and matchless opponent. Taft evi-
dently sees his mistake now and it has
put him in bad humor. He has not only
lost much of his vaunted dignity, but
his temper. In fact he has become al-
most a joke on the stump.

Union labor, or an overwhelming pro-
portion of it, is hostile to Taft, and
is determined to accomplish his defeat
if it is possible. Labor has not forgiven
Taft's unjust edicts from the bench
and the whirligig of time has delivered
him into its hands.

Roosevelt is by far the best political
asset that the republican party has.
Recognizing his duty to his protegee and
the danger that he is in the president
cast dignity to the winds and assumed
the position of a bullying despot in a
desperate effort to aid Taft and save
him from defeat. But Bryan promptly
called the bluff and showed Mr. Roose-
velt up as a pure bluffer. In the wordy
warfare in which Roosevelt was clearly
outclassed as well as grossly wrong, it
is now perfectly clear that Taft lost
votes by the thousands.

The sins of Old Joe Cannon make an-
other heavy load that the republicans
have to carry in this campaign, and this
load in all likelihood will cost them con-
trol of the national house of representa-
tives, as it ought, for Cannon and all
that he stands for has become a stench
in the public nostrils. The chances are
good that the ancient "Sucker" poli-
tician will be left at home himself, as
he should be.

Bryan will be elected. The Democrat
made such a prediction three months
ago. It repeats it now with added
emphasis.

A BOGUS REFORMER.

Col. Rastus Brainerd, heavyweight ed-
itor or the "Pea-Eye," has at last de-
igned to notice the pertinent question pro-
pounded by this paper as to whether or
not that great moral reform journal pro-
poses to support J. H. Schively for elec-
tion to the office of insurance commis-
sioned. Readers of the "Pea-Eye," bless-
ed with recollection, will remember that
in the heat of the late primary cam-
paign Col. Rastus vigorously laid the
editorial lash over the back of the in-
surance captain and denounced him as
a mere "petty grafter" and as being
"morally obtuse."

Now, if that classification fitted Mr.
Schively before the primaries, why in
the name of common sense don't it fit
him now? And knowing, as it does, the
character of the man, how can the
"Pea-Eye" as a self-respecting journal,
support Schively for election? This is
the irreverent question propounded by
The Democrat and the "Pea-Eye," while
it finally deigned to notice it, does not
satisfactorily answer it. The conclusion
therefore, is irresistible that the
"Pea-Eye" is supporting Schively, "pet-
ty grafter" though he be, simply for
the reason that this man succeeded in
securing the coveted nomination on the
republican state ticket and thus con-
sidered himself as good as elected. And
the partisan "Pea-Eye," which is al-
ways quick to discover and uncover
sin in a democrat, now simply lacks the
moral courage to oppose the election
of Schively. "Oh, black, bitter partisan-
ship, what crimes are committed in thy
name!"

The Democrat has not investigated
the public or private record of Mr.
Schively, but we have on numerous oc-
casions heard prominent republicans de-
nounce him as not only a "petty grafter,"
but as a smooth and confirmed
rascal who ought not to be permitted to
hold any public office. The fact that
Schively won the nomination in the
mad scramble at the primaries is doubt-
less due to the fact that he used his
official position to get his name first
upon the ticket and later used his con-
nection with the different insurance so-
cieties of which he is a member to get
the votes, being what is termed a
"jiner."

In this case the "Pea-Eye" had a
splendid opportunity to show its devo-
tion to the cause of real reform, but it
has failed to make good most lament-
ably.

AN UNHAPPY FAMILY.

Poor old man Cosgrove, lying sick at
his home in Pomeroy, battling with a
fatal disease, is wondering whether after
all he is the republican candidate for
governor. Indeed he cannot be sure un-
til the supreme court has passed on the
validity of the primary law. If the
second choice provision be knocked out
by the court in the Coon contest Cos-
grove's hope of being "your gov'nor" will
go glimmering and the g. o. p. nomi-
nation for governor would go to Mc-
Bride. Another change in the program
would be to make Easterday the can-
didate for attorney general in place of
Bell, while Hay would lose his place
on the ticket for Lieutenant governor to

the famous Mr. Coon, Senator Ruth's
friend and berthmate, whom the "Pea-
Eye" regards as - positively indecent,
but will not tell why.

So the "grand old party" in this state
is in a bad mixup and the leaders in
a most unhappy as well as uncertain
frame of mind. Gov. Mead threatens
that if the supreme court declares the
second choice provision unconstitutional
that he will immediately call the legis-
lature in special session to "doctor" the
law and by some sort of hocus pocus de-
clare Cosgrove the regular nominee. At
any and all cost the present governor
wishes to prevent his old enemy, Mc-
Bride, from becoming his official suc-
cessor. But can he do it, as against an
edict of the supreme court? Hardly.

The second choice provision is clearly
a monstrosity and practice has shown
its utter absurdity. The chances are
ten to one that the supreme court will
knock it out within the next few days
and then the deluge.

ROOSEVELT'S BAD BREAK

The position is not one that Mr.
Roosevelt can enjoy, or that becomes the
president of the United States—in short,
it is a "mess" and an undignified one.—
Springfield Republican.

Let self-respecting Americans of all
political faiths unite in the fervent
prayer that the unexampled frenzy or
spasm of self-exhibition which is now
degrading the office of president of the
United States may end before the scandal
invites the attention and excites the
disgust of the whole civilized world.—
New York Sun (Rep.).

The trouble with Mr. Roosevelt is
that he can see but one side of a ques-
tion; that in his intellectual and moral
arrogance he imputes to those who dis-
agree with him only the worst motives;
that, having made up his own mind, he
is unable to put himself in another's
place. This unamiable characteristic ac-
counts for most of the outbursts which
have alternately amused and shocked his
less impulsive fellow citizens.—Provi-
dence Journal (Rep.).

President Roosevelt is not going to be
a deadhead in the presidential campaign.
His contributions always excite interest,
but there may arise the suspicion that
there is such a thing as too much Roose-
velt.—Philadelphia Record (Rep.).

Here is the governor of Oklahoma
calling the president of the United
States a liar in so many words and re-
taliating for the president's scoring of
him by making various charges against
the president's attorney general. Today
or tomorrow we shall have Foraker's
retort, probably more dignified than
Haskell's, but no less bitter, to the pre-
sident's denunciation of him. What could
be more unseemly for the head of a na-
tion of eighty millions!—New York Ev-
ening Post (Rep.).

RACE TRACK GAMBLING

If the state fair must continue to be
dominated by a lot of plug ugly race
track gamblers and touts then let it die,
say many of our best citizens, and The
Democrat agrees with them.

Suppose the fair commission did get
\$2450 for the sale of the pool selling
concession and \$500 additional for the
illegal saloon that it authorized to do
business on the grounds, is it not in
reality a loser thereby, or rather, is not
the fair itself a loser? At any rate
there are plenty of losers, losers who
went up against the brace games and
losers who had their pockets picked by
some of the horde of touts and light-
fingered thieves who always follow race
track gamblers.

The people of Yakima have grown
sick of the whole blood-sucking gang
and never wish to see them again. If
the commissioners must have the money
hereafter to run the fair it would be
unquestionably cheaper, to say nothing
of the gain to morality, to take up a
collection in the community and make
up any reasonable deficit in the fair
management.

SUCH IS FAME.

"Jones, Jones, to which Jones do you
refer, there are so many," said Senator
Beveridge to a crowd of g. o. p. ad-
mirers who had gathered to hear the
Hoosier orator as he passed through this
city last Monday morning. The sena-
tor had been passing out "hot air" to
the crowd regarding "Your able sena-
tor and my good friend Mr. Piles," when
somebody hollered: "What's the matter
with Jones?" which brought forth the
above answer from the Indiana sena-
tor.

Now wouldn't that jar you! Our own
Mr. Jones, "Yakima" Jones, who, ac-
cording to the local oracle of the g. o. p.
is one of the biggest statesmen that
ever hiked down Pennsylvania avenue,
and after ten years of official life in
Washington as a member of congress
is yet classed as an unknown by the
sweet-headed young senator from In-
diana.

"Oh, Fame, what a deceitful jade thou
art, indeed!"

OH, MR. CROCKER!

The assessment rolls of Yakima coun-
ty for 1908 show that Wilbur F. Crocker,
county auditor and republican
candidate for re-election, reported for
the purposes of assessment personal
property to the total extent of \$320.

The record shows further that Mr.
Crocker in his assessment demanded and
received an offset of \$300 under the ex-
emption law, he being the head of a
family. This deduction left Mr. Crocker's
assessment stand at \$20. There is no
real estate in Mr. Crocker's case to be
taxed.

Assuming the total tax levy to be 40
mills within the city of North Yakima,
and it will not be less, Mr. Crocker,
county auditor, will be forced to dig up
the excessive amount of 80 cents in
taxes due next February.

This looks like a hardship on Mr.
Crocker. We can't understand why the
county board of equalization didn't re-
duce this onerous sum to 30 cents.

Oh, Mr. Crocker, how could you!

WILL POINDEXTER ANSWER?

If Miles Poindexter be elected to con-
gress from this district will he or will
he not vote for "Joe" Cannon as
speaker? We address this question not
only to Mr. Poindexter, but to any re-
publican newspaper of the district that
has authority to speak for the candi-
date. And it is a question that should
be answered.

Carl McGhee, a well known lawyer and
business man, who presided over the
Oklahoma state republican convention
which instructed for the nomination of
William H. Taft for the presidency and
who was a candidate for congress last
year announces in an open letter that he
will support Wm. J. Bryan. He resents
Taft's attack on the law guaranteeing
bank deposits, and adds:

"Further, Taft is raising his cam-
paign funds from those with whom he
must deal firmly, and towards whom he
must have no obligation. I believe Bryan
is more nearly representative of the
composite American mind and best re-
sponds to its wishes. For these and other
reasons I shall support Bryan."

The old Oregonian, professedly inde-
pendent, but in reality the most ad-
vanced as well as old fashioned journal
on this coast, is apparently very much
worried over the probability of Taft's
defeat. It unhesitatingly condemns the
"ladylike" style of campaign that Chair-
man Hitchcock is putting up and de-
clares that what the republican party
needs in this campaign is another Mark
Hanna. Hanna, it says, not only knew
how to get the money, but to boss a
campaign, all of which is no doubt true
enough, but the "Thunderer" should re-
member that its own political idol, Mr.
Roosevelt, is the real manager of the
Taft campaign.

A strange apathy prevails in this
campaign that politicians cannot fath-
om. After all it may not be apathy so
much as the politicians think. There
are reasons for believing that the vot-
ers have sized up the situation to their
satisfaction and know how they want
to vote. There is going to be a big sil-
ent and independent vote cast this
year and that vote is going to decide the
election. The most effective way, we be-
lieve, to get results in this campaign is
through the circulation of suitable liter-
ature and personal hand to hand work
among the voters. Every democrat
should try to enlighten and influence his
neighbor.

Taft would better have stuck to his
first decision of working a strictly "front
porch" campaign. Jealousy of Bryan's
success on the stump led him into the
folly of an extensive junketing trip,
which seems to have weakened rather
than strengthened his chances. An ar-
istocrat by birth, a bureaucrat by pro-
fession, and naturally lacking in that
rare and fine quality which men call
magnetism, Taft is manifestly a failure
on the stump. Besides he is green at
the business. It is a wonder that Teddy
expert politician and manager that he is,
should have permitted Taft to have
gone out on the stump all by himself.

Col. Roberson continues to find fault
with and denounce the guarantee of
bank deposits plan. Considering the
fact that the republican convention of
this state, of which Col. Roberson was a
leading light, having been a delegate
from this county, went on record em-
phatically in favor of that scheme, it
seems a little nervy for the colonel to
denounce it now, after voting for it
in convention. If the guaranty of bank
deposits is not a good thing, why did
Col. Rob vote for it at Spokane?

Judge Ballinger of Seattle is trying
his hand at getting up a Bryan scare,
and in a proclamation that he has as-
sumed the right to issue, says in effect
that the country will go to the dem-
nition bowwows in the event of Bryan's
election. Ah, come off, Judge, and give
us something new! That old scare rack-
et has been worked to a frazzle. Have-
n't we got a panic on hand now, a Roose-
velt panic, if you please! But perhaps
the judge has been amply called down
by citizens of his own town.

Gov. Mead has waked up to say that
if the supreme court shall knock out
the second choice provision on the suit
brought by Coon that he, the governor,
will immediately call a special session
of the legislature to doctor up the law
so that the will of the people as ex-

pressed at the primaries will prevail.
But how does Gov. Mead know that the
legislature, even if called together,
would "doctor" the law up to suit him?
It would, in fact, be apt to do the very
opposite thing.

John Pattison has won his success
in life by hard and persistent fighting
and he is adopting the same method
to win the office of governor. He has
plunged into the campaign with a vigor
and aggressiveness which is winning the
admiration of democrats and republicans
and proposes to keep up the pace until
the polls close on election day. The peo-
ple admire him, because they recognize
him as a man of the people who under-
stands and sympathizes with them.—Col-
fax Commoner.

Lieut. Gov. Coon, who failed of re-
nomination because of the second choice
provision of the primary law, has be-
gan an action before the supreme court
to test the constitutionality of that
provision. The second choice provision is
clearly a farce, but while a good many
people would like to see it knocked out,
at the same time they would not like
to see Coon profit by it. Coon's suc-
cess now would only result in adding an-
other "undesirable citizen" to the g. o.
p. state ticket.

The guaranty of bank deposits is an
issue in this campaign that is making
votes for Bryan and Kern every day. It
is a proposition that appeals most 'sick-
eningly to the average depositor and he
quickly sees the justice and the ac-
t of the plan. "If the government must
have a guaranty for its money when
deposited in a bank, why should not the
bank guarantee my money?" he natu-
rally asks himself. And who can answer
that question satisfactorily by saying,
"No"?

"Nicky" Longworth, the son in law of
his father in law, in a recent speech de-
livered at Rock Island, Ill., gave the
snap away. In a moment of thought-
lessness, perhaps, "Nicky" said that Taft
was to have eight years in the White
house, and then it would come Teddy's
turn again. What a nice program, but
how indiscreet in "Nicky" to give the
thing away! His wife, who is the
daughter of a politician, should take him
in hand and teach him a little political
sense.

If Poindexter, the republican candi-
date for congress in this district, be
elected he will vote for the re-election
of old Joe Cannon for speaker of the
house. He would have to do it or else
he would accomplish nothing as a mem-
ber of congress. There is only one way
to abolish Cannonism, and that is to
first abolish the republican majority in
congress. Vote for Goodyear for rep-
resentative. There are no strings on
him.

Judge Ballinger, Mr. Roosevelt's rep-
resentative in this state, has assured the
g. o. p. campaign managers that Wash-
ington will roll up a majority of 50-
000 for Taft! Now wouldn't that jar
you? The judge certainly has another
guess coming. If Taft gets any kind of
a majority in Washington in this year
of our Lord he will be doing better than
the present outlook warrants.

At last the cat is out of the bag.
Elihu Root has discovered that the trou-
ble with the republican national cam-
paign is a shortage of funds! Bryan
and the democracy are as poor as ever,
and certainly have less money than the
republicans, but they are not making
any complaint about it.—Seattle Times.

The "Toppenish Review" last week is-
sued a very neat and creditable special
edition, which is exceedingly well il-
lustrated. It is a valuable number for
advertising purposes and shows the
splendid growth that Toppenish and ad-
jacent country have made during the
past few years.

Ohio is now conceded to be a doubtful
state, since the downfall of Foraker.
By jumping onto Foraker with his hob-
nailed shoes, Roosevelt has made it
doubly hard for Taft to carry his own
state. "Butting in" may be an amusing
diversion for Teddy, but it is costly fun
for the g. o. p.

The organized gang of pickpockets af-
ter "doing" a number of people at the
state fair here last week, moved on to
Spokane. It is to be hoped that the of-
ficers there will succeed in gathering in
at least some of the light fingered gen-
try.

TWO "PRACTICAL MEN."

The Whiteness of the Pot and the Blackness of the Kettle.

From Theodore Roosevelt's letter of October 4, 1904, to Edward H. Harriman.

Now, my dear sir, you and I are practical men, and you are on the ground and know the conditions better than I do. If you think there is any danger of your visit to me causing trouble, or if you think there is nothing special I should be informed about, or no matter in which I could give you aid, why, of course, give up the visit for the time being, and then in a few weeks hence, before I write my message, I shall get you to come down and discuss certain government matters not connected with the campaign.

From Edward H. Harriman's confidential statement to Sidney Webster.

About a week before the election in the autumn of 1904, when it looked certain that the state ticket would go democratic and was doubtful as to Roosevelt himself, he, the president, sent me for upon the political conditions in New York state. I complied, and he told me he understood the campaign could not be successfully carried on without sufficient money and asked if I could help them in raising the necessary funds, as the national committee, under control of Chairman Cortelyou had utterly failed of obtaining them and there was a large amount due from them to the New York state committee. We talked over what could be done for Depew, and finally he agreed that if found necessary he would appoint him as ambassador to Paris.

With the full belief that he, the president, would keep his agreement, I went back to New York, sent for Treasurer Bliss, who told me that I was their last hope, and that they had exhausted every other resource. In his presence I called upon an intimate friend of Senator Depew, told him that it was necessary to raise \$200,000 at once in order to carry New York state, and if he would help I would subscribe \$50,000. After a few words over the telephone the gentleman said he would let me know, which he did probably in three hours, with the result that the whole amount, including my subscription, had been raised.

The checks were given to Treasurer Bliss, who took them to Chairman Cortelyou. If there were any among them of life insurance companies, or any other like organizations, of course Cortelyou must have informed the president. I do not know who the subscribers were, other than the friend of Depew, who was an individual. This amount enable the New York state committee to continue its work with the result that at least 50,000 votes were turned in the city of New York alone, making a difference of 100,000 votes in the general result.

MONNETT SUPPORTS BRYAN

Frank W. Monnett, republican, who as attorney general of Ohio a few years ago attracted general attention by his conscientious efforts to bring the Standard Oil monopoly to justice, has come out flat-footed in favor of the election of W. J. Bryan and is now on the stump for the distinguished Nebraskan. In explaining his conversion to democracy to the Chicago Record-Herald, Mr. Monnett says:

"The Sherman anti-trust law has not been enforced. The law specifically provides that for every dollar invested in trusts in violation of the statute the government can confiscate the property. If, as Judge Landis found in the Standard Oil case, the law had been violated, why didn't an injunction issue dissolving the trust at once and why was not the property confiscated? That is what the law directs.

"That was not done, and now Mr. Taft is advocating a modification of the law. Mr. Taft is honest, but lacks initiative, and, in my opinion, would do nothing to destroy the trusts if elected president. For 12 years he was judge of the federal courts in Ohio, where the mother of all trusts was growing up, and he did nothing to prevent it. For 15 years he has been socially intimate with men who run trusts. His record gives me good ground for predicting that he would not be a trust buster."

SENATOR CRANE TRUST ALLY.

The appearance of Senator W. Murray Crane of Massachusetts, upon the republican scene as chief "advisor" of Chairman Hitchcock in the management of Mr. Taft's campaign, is regarded as further unmistakable evidence of the alliance of the republican party with the trust interests for the election of Taft. Senator Crane may not be very well known by the farmers and laboring men of the west, but he has a very extensive and intimate acquaintance in Wall street and with the trust protected interests of the east. He belongs to that little coterie of men who rule the United States senate. He is the principal advisor of Senator Nelson W. Aldrich of Rhode Island, who stands at the head of the Standard Oil list of senators. Senator Crane is second in command.

The failure of Chairman Hitchcock's campaign for Taft made it necessary for the republicans to form a closer relationship with the trusts in order to procure funds with which to carry on

their propaganda. No man is better suited to do the cementing than is Senator Crane. He is a republican of high standing and is a trust magnate. His interests lie with those who are monopolists and with the trusts.

"THE VERIEST HOGWASH."

For a grown man and a member of the republican national advisory committee, Judge Richard A. Ballinger is exuding a quality of "hot air" that would disgrace a schoolboy.

His latest fulmination declares "Bryan to be a menace to the country," and "the result of his election is bound to be disastrous to business in general."

Considering the fact that the country has not yet recovered from the Roosevelt panic, this talk of "fear of Bryanism will result in business depression" is the veriest hogwash.

Right on top of this is the report of Republican Labor Commissioner C. F. Hubbard showing an increase of 26 per cent. in the cost of living in this state with "the number of idle men practically doubled, due in large part to the (Roosevelt) financial flurry."

Business men are not to be gulled by calamity predictions from men responsible for the worst panic in forty years.

Judge Ballinger should explain how the republican party has caused a shortage of \$144,000,000 in the national treasury, and increased the number of officeholders during Roosevelt's term by 99,000.

LA FOLLETTE A DEMOCRAT.

Wm. T. LaFollette, a brother of Senator LaFollette of Wisconsin, has come out strongly for the election of William J. Bryan. Mr. LaFollette emphasized his decision to vote and work for Mr. Bryan by traveling with the democratic candidate on his trip through Wisconsin. Mr. LaFollette informed Mr. Bryan that he knew the senator was at heart wholly in sympathy with him and his platform, several of the chief planks of which have been and still are advocated by the progressive Wisconsin statesman. Said Mr. LaFollette: "Bob is simply supporting Mr. Taft for the sake of party regularity, in much the same way as Mr. Bryan supported Parker four years ago. His heart, however, is for Bryan and the principles for which he stands. Bob ought to be a democrat; he stands for things which are democratic. I know the feelings of the men who are the supporters of my brother in Wisconsin, and I know that they are going to vote for the Great Commoner."

THE CLEVELAND FORGERY.

The fact that the alleged letter from Ex-President Cleveland, published originally in the New York Times, is a forgery, created no surprise at democratic headquarters. From the very first the publication of this letter in one of the most partisan papers supporting Judge Taft, was regarded as a campaign trick. After exploiting the forgery in republican papers, campaign managers of the party had this misrepresentation of the dead president circulated as a campaign document. The New York Times has been forced to admit that it defamed Mr. Cleveland's memory when it published the fake interview. Very naturally, Mrs. Cleveland and the executor of the late ex-president's estate have come forward and exposed this most villainous misrepresentation of the memory of a dead president within the history of the nation.

A LETTER TO ENGLAND GOES NOW FOR 2 CENTS

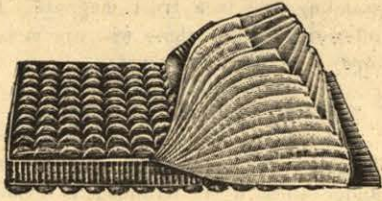

New Postal Agreement Between U. S. and Great Britain Now in Effect.

Washington, D. C., Oct. 1.—The agreement between the United States and England, by which the postal letter rate between the two countries is reduced from 5 cents to 2 cents an ounce, goes into effect today and Postmaster General Meyer, who brought about this agreement under the "restricted union" clause of the Postal Union, is awaiting with interest what effect, if any, this reduction in the letter rate will have upon the postal intercourse between the two countries. He does not, however, apprehend that the cut in the rate will cause a serious decrease in the postal receipts but is confident that the lower rate will so greatly stimulate commercial and private correspondence between the two countries that it will more than compensate for the difference in the postal rate.

The proposition of reducing the letter postal rate between the United States and Great Britain had been agitated for some time by the merchants of the two countries, but the American postal authorities were not inclined to make the desired reduction, fearing that it would cause a serious cut in the postal receipts. Postmaster General Meyer very strongly favored the reduction and was warmly supported by President Roosevelt. He approached the British postmaster general, Sydney Buxton, and met with a favorable response. The conclusion of the agreement was hastened by the action of the Universal Postal Union, which, on October 1, 1907, reduced the universal international postal rate between the countries belonging to the union from 5 cents flat for every half ounce, to 5 cents for the first ounce and 3 cents for every additional ounce.

This reduction of the universal international postal rate paved the way for the "special union" between the United States and Great Britain, by demonstrating the injustice of charging the same postal rate to Great Britain, with which this country has direct steamer connection, that is charged to remote countries with which the United States have no direct communication. The articles of the Universal Postal Union permit the conclusion of "restricted unions" between any two countries and this is the fourth time that the American postal authorities have availed themselves of that privilege. Such agreements, fixing the letter rate at 2 cents, have already been concluded with Cuba, Panama and Canada.

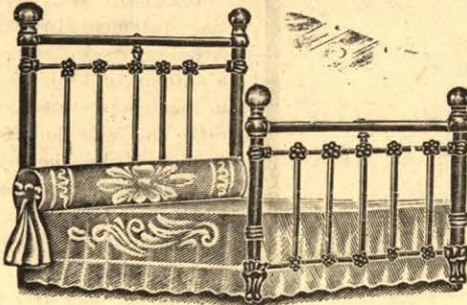

What the immediate effect of the reduction in the postal rate between the United States and Great Britain will be is, of course, merely a matter of speculation at the present time. Postmaster General Meyer believes that the American and English merchants and manufacturers will not be slow in availing themselves of this opportunity to send

large quantities of circulars, catalogues and advertising literature across the ocean, something that has been practically impossible under the former high letter rate. Business men are inclined to believe that the reduction will greatly stimulate the commercial relations between the two countries.

INDEPENDENTS NOT ON THE TICKET

The names of William Stallut, independent candidate for commissioner in the Third district, and Miss Kate L. Brown, independent candidate for county superintendent, will not be put on the official ballot for the general election by Auditor Crocker unless that official should be instructed by the courts to put them there. This decision Mr. Crocker arrived at speedily on Tuesday when he received a copy of a letter from the attorney general's office stating that an error had been made in a former opinion regarding this matter.

Cannot Nominate by Petition. In the first letter Assistant Attorney General I. P. Knickerbocker stated that the office had held that nominations could be made by petition. This he now says was a mistake, and that it seems to him that independent candidates, if they can be nominated at all, must be nominated by convention on the same day that the primary election is held. Mr. Knickerbocker's letter to Prosecuting Attorney Wende is as follows:

Correcting An Error. "On the 25th ult. this office in reply to your letter of the 19th ult., among other things, wrote you as follows: 'This office has held that nominations may be made by petition.' This portion of our letter was an oversight.

"I am of the opinion that the direct primary law repealed by implication Section 4934 of Pierce's Washington Code. It would seem that under the provisions of the direct primary law majority parties are required to make nominations under the provisions of that law, but that the only way in which minority parties can nominate, or any set of individuals nominate, is under the old convention system, and then only in case the convention be held upon the same day as the direct primary election. It must necessarily follow that a petition for the nomination of some person for public office cannot be signed by the requisite number of voters upon the same day that a primary election is held. The primary election law was designed, among other things, to prevent any elector from participating in the nomination of over one person for any public office.

Question in Supreme Court. "The question, however, of whether or not nominations may be made by petition is now pending in the supreme court of this state and an early decision is anticipated. In the meantime you are advised to advise the county auditor not to receive nominations by petition for filing, or, at least, to advise the county auditor not to print names attempted to be nominated by petition upon the official November ballot."

Auditor Guided by Opinion. Auditor Crocker's duty, of course, is to be guided by this opinion. He stated Tuesday that if the names of Mr. Stallut and Miss Brown were filed with him he would formally refuse to put them on the official ballot. Of course, either candidate may apply to the court for relief, or may await the decision of the supreme court in the pending case referred to by Mr. Knickerbocker. In the event of a favorable decision he would place the names on the ballots. As it stands now, if these candidates stay in the field those who want to vote for them must write their names on the ballots or use stickers.

FIRST MONTH IN THE NEW BUILDING

Reports of Y. M. C. A. Officers Show Large Membership and Excellent Conditions.

The reports for the first month in the Y. M. C. A. building were submitted at the regular monthly meeting of the trustees held last Tuesday, and were even more encouraging than had been expected. The first month has been devoted very largely to organization and considerable time will still be required in this important department.

The report of Secretary N. F. Turner showed that there were 415 charter members, both men and boys, divided as follows: Seniors, 285; intermediates, 86; juniors, 44. Practically all of these have paid in full for the coming year and special members' cards have been issued.

New Members Admitted. The new members taken in during the month are divided among the following departments: Seniors, 7; intermediates, 7; juniors, 6; ladies, 10.

This brings the total membership of the Y. M. C. A. up to 445, which is considered a most excellent showing for the first month in the new quarters, and compares very favorably with associations in much larger cities.

The report of Physical Director Cook for September shows the following attendance in the gymnasium classes:

Seniors—Sessions, 9; total attendance, 154; average, 17.
Business Men—Sessions, 7; total attendance, 34; average, 5.
Intermediates—Sessions, 9; total attendance, 199; average, 22.
Juniors—Sessions, 7; total attendance, 148; average, 21.
Boys—Sessions, 2; total attendance, 14; average, 7.
Ladies—Sessions, 3; total attendance, 28; average, 9.

Committees Appointed. Executive—A. S. Davis, B. F. Barge and Logan H. Roberts.
Finance—L. O. Janek, Alex Miller and C. H. Hinman.
Auditors—A. L. Flint and E. E. Knowles.

Membership—L. H. Roberts, J. L. Hughes and A. S. Davis.
Educational Work—B. F. Barge, C. H. Hinman and J. L. Hughes.
Physical Work—Alex Miller, chairman.
Social Work—Clifford Wright, chairman.
Boys' Department—J. L. Hughes, chairman.

For the present the committee on educational work will also act as the committee on educational work.

Office Man Is Wanted.

It is believed that by the appointment of these committees the various departments will be given much closer attention than would be possible without them. The matter of organization is the important thing and the board took into consideration the fact that this could not be looked after properly if Secretary Turner and Assistant Secretary Kirk are compelled to remain in the office to answer telephone calls and wait on patrons who call at the desk. They therefore authorized the secretary to engage some young man, who also is able to do stenography, to act as office man. Secretary Turner will receive applications from persons desiring this position.

LIQUOR DEALER ASSIGNS

C. V. Sloggy, of Mabton, Wants Property Sold.

C. V. Sloggy, a liquor dealer of Mabton, has made an assignment for the benefit of his creditors to Ward H. Wheeler, of North Yakima, by which he conveys all his property, except such as is exempt by law, to the assignee, to be sold and distributed among his creditors pro rata. It is claimed that his property is of the probable value of \$1500.

In the list of creditors filed it is seen that the largest are breweries and liquor dealers, and the total amount owing them by Sloggy is set at \$3988.35. The bond of the assignee has been fixed at \$3000.

GOING AWAY

Dr. Darrin Announces That
He Will Close His Office in
North Yakima About Oct-
ober 19.

Those Desiring to See Him
Should Lose No Time to Call
at Once.

Dr. Darrin, who has been in North Yakima for the past five months, wishes to announce that his long visit is about to expire, and that he intends closing his office here about October 19. Therefore those who wish to have a free examination and consultation with this successful specialist will have to hurry.

It is not by any means too late to treat with him for the reason that he has a successful method of home treatment for those who have been unable to place themselves under office treatment, whereby the suffering may be favored with his latest modes of cure, which in many instances give instantaneous relief and soon effect a permanent restoration to health, which includes building up and reorganizing the whole constitution. Under this system of treatment the doctor keeps in constant touch with his patients by correspondence from his head office on the Sound until each case is cured.

Dr. Darrin has enjoyed the largest and most successful practice of any specialist that has ever visited this city, and his offices over the postoffice, corner Chestnut and South Second streets, have caused him to remain here twice as long as he intended when he first arrived.

The doctor is equipped with everything essential to the most modern method of practice, and has accomplished more good, relieved more suffering, gladdened more homes than any physician has been able to do in many years. He makes no pretenses to perform impossibilities, but some of his cures are little less than miraculous. Many of his cures are in chronic, long lingering cases, which other physicians have pronounced hopeless.

Order to Show Cause on Petition to Sell Real Estate.

No. 987.
In the Superior Court of the State of Washington, in and for Yakima County.

In the matter of the estate of Arthur S. Fawcett, deceased.

It appearing to the court that George A. Weddle, as administrator of the estate of Arthur S. Fawcett, deceased, has filed his petition herein praying for an order of this court for the sale of the real property of said estate hereinafter described, for the purposes therein set forth.

It is hereby ordered that all persons interested in the estate of said deceased appear before this court on the 26th day of October, 1908, at 10 o'clock in the forenoon of said day at the court room of said court in North Yakima, Yakima county, Washington, to show cause, if any they have, why an order should not be granted to the said administrator to sell the said property of said deceased, and

It is further ordered, that a copy of this order be published once a week for four consecutive weeks prior to said 19th day of October, 1908, in the Yakima Democrat, a weekly newspaper printed and published and of general circulation in said Yakima county.

The real estate herebefore referred to is particularly described as follows, to-wit:

The south 1/2 of the southwest 1/4 and the northwest 1/4 of the southwest 1/4 of section 20, township 14 north, range 17 E. W. M.

Summons By Publication.

In the Superior Court of the State of Washington for the County of Yakima.
H. W. Meyers, plaintiff, vs. Florence Bennett Meyers, defendant.

The State of Washington to the said Florence Bennett Meyers, defendant:

You are hereby summoned to appear within sixty days after the date of the first publication of this summons, to-wit: within sixty days after the fifth day of September, A. D. 1908, and defend the above entitled action in the above entitled court, and answer the complaint of the plaintiff, and serve a copy of your answer upon the undersigned attorney for plaintiff at his office below stated; and in case of your failure so to do, judgment will be rendered against you according to the demand of the complaint, which has been filed with the clerk of said court. The object of the said action, set forth in the complaint, is as follows: The said plaintiff prays that he be granted an absolute decree of divorce from you, the said defendant, upon the grounds of abandonment for more than one (1) year, and for a decree decreeing, that there is no community property of the said plaintiff and defendant, and that no disposition be made of the minor child, a girl named Lorinne, and that the plaintiff have such other and further relief as may be met and equitable in the premises.

CITY AND COUNTY NEWS

Brief Record of Local Happenings for the Week in North Yakima and Vicinity.

Charles B. Reed, warden of the state penitentiary, spent a couple of days here this week. Mr. Reed owns a ranch near the city. He was formerly chief of the Seattle police department.

J. J. Sweeney, a well known Tacoma contractor, and son Ed., are in the city for a few days. The young man is recovering from a severe attack of pleurisy and has come to Yakima to enjoy the sunshine and recuperate.

J. F. Garrett, of Garrett Bros., who recently sold the brick yards in the north end of town, will soon begin the construction of 10 or 12 one-story bungalows on the west side on or near the car line. These bungalows will be modern in every respect and will be sold on the installment plan.

Miss Ethel Burns was taken to the Green River Hot Springs this week to undergo treatment for poisoning she received as a result of handling poison ivy. One of her little pupils brought some plants to school for his teacher and among them was the poisonous weed.

Mrs. F. H. Bayne, the accompanist and instructor in Piano, Harmony, History of Music and Theory, who will meet musicians who may be interested, on Wednesday, October 14, at 313 South Fourth street, comes to North Yakima highly recommended. She has received her instruction at Chicago Musical college and New England Conservatory, and has had several years' experience as a teacher and accompanist.

John Rodman, formerly a rancher in the Moxee, but now farming near Wapato, while pitching hay last week, fell from the top of a load and sustained a broken arm. Mr. Rodman was brought here to St. Elizabeth's hospital and the injured member placed in a plaster of paris cast. Inflammation set in a few days later and the patient is said to be in a critical condition. Mr. Rodman is very well known all over the county.

Mrs. F. H. Bayne.

Accompanist, Instructor in Piano, Harmony, Musical History and Theory. Beginners a specialty. Kindergarten methods used.

Vocalists wishing to arrange practice hours, or pupils desiring lesson hours, will please call on Mrs. Bayne at 313 South Fourth street, Wednesday, October 14, between 10 and 5 o'clock.

LOST—Somewhere between this city and the end of Fourth st., last Saturday, a small package containing jewelry. Anyone finding same will please notify this office and receive reward.

MAY NEVER KNOW

RIGHT NOMINEE

The State Canvassing Board Struggles With Figures for Splawn and Pattison.

Olympia, Wash., Oct. 2.—Whether John Pattison, of Colfax, or A. J. Splawn, of North Yakima, is justly entitled to the democratic nomination for governor of this state is a question that will probably never be settled.

On the face of the returns of the recent primary election, if the state canvassing board does not discover material errors in additions, Pattison will receive less than 200 more votes than Splawn on combined first and second choice. Yet a compilation of the returns as totaled by county canvassing boards indicates that there will be a discrepancy of between more than 1300 votes between the total first choice and the total second choice votes cast for this nomination. The fact that if the votes are properly counted, first and second choice should exactly equal casts a serious doubt on the question as to which is the nominee.

Grounds for Contest.

If Splawn so desired he would have good ground for contesting the election, but a contest would mean a recount on that office in more than a majority of the precincts of the state. The secretary of state is required to certify the nominations to the county auditors 20 days prior to the general election. The official list of nominees must be advertised in each county 10 days before the election. As the election occurs November 3 only about two weeks would be available for recounting the votes.

The normal republican plurality in this state exceeds 40,000, so even if there were more time it is doubtful if Mr. Splawn would consider the issue worth the trouble of a contest.

Pattison has been conceded to be the nominee of the democrats and has already begun his campaign. He has mapped out an itinerary covering the state and has started on his speech-making tour.

Results of Nomination.

The figures as compiled here show the following results on democratic governor. They are subject to corrections by the state canvassing board and in the case of some missing counties are compiled from the newspaper reports of the official county canvass thereof:

	First Choice	Second Choice	Total
Pattison	3,980	2,293	6,273
Splawn	3,850	2,233	6,083
Byrne	1,338	1,878	3,216
Durkin	2,117	2,340	4,457
Blackman	2,328	3,524	5,852

Total 13,613 12,208 25,821

These figures give Pattison far less than the required 40 per cent for nomination on first choice and give him a plurality over Splawn of 190, while the discrepancy between the total first and second choice votes is 1345. If the discrepancy in the counting of first and second choice votes had been against Blackman, the errors are sufficient for him to overcome Pattison's lead. Blackman is but 421 votes behind Pattison on the combined vote.

Republicans Not in Doubt.

The discrepancies between the totals on the first and second choice votes on any of the republican nominations are not sufficiently large to cast doubt upon the result of the election. Cosgrove will have a lead on the combined vote over Mead of about 8000. Hay will lead Coon for lieutenant governor on the combined vote of about 7500. Bell will have a majority on the combined vote over Easterday for attorney general of about 10,700. Shively will defeat Bullock for insurance commissioner by about 28,000 on first choice and will have 4000 more than the required 40 per cent to nominate. In the first congressional district Poindexter leads Johnson, his nearest opponent, by 4500 on combined vote.

These are all the offices to which first and second choice applied. The state canvassing board will probably not complete its work before Wednesday.

The Monarch

Pays for Itself—Why Try to Get Along Without One.

Frequent failures can't be avoided with an ordinary steel range or cook stove.

Why put up with such embarrassments and inconveniences?

Why not know the delightful satisfaction of always having your work perfectly done—that comes from using a Monarch Range?

You might just as well have one. It will effect a saving in fuel and repair bills that, in a short time, will *Pay Its Entire First Cost*. "It pays for itself." Let us *Show* you how it does it.

It's Because of the Monarch's Construction

There is no *Mystery* about this. We can explain it to your entire satisfaction. It's simply that the Monarch is built differently from the others.

Unbreakable *Malleable* iron is used for those parts that are made of brittle cast iron in all of the "common sort" of steel ranges. Frames of this material are joined to the steel of the body and oven by cold driven rivets, forming permanently air tight joints.

Monarch
MALLEABLE
The "Stay Satisfactory" Range

Ordinary Steel Ranges

Actually Waste Fuel

Ordinary ranges which are made of *cast or grey iron* and sheet steel must be bolted together and caulked with stove putty. After a very short time of use these bolts work loose, the putty falls out of the seams and outside air rushes into the flues and firebox—through every joint.

These "air-leaks" waste fuel—cause slow baking—poor work.

To Users of Two to Five Year Old Steel Ranges

Bear in mind that the Monarch not only pays for itself, but for unlimited years it will do your work with one-third to one-half less fuel than other ranges use. So it's not economy by any means to continue to use a common range, though it is only a few years old. It's rank extravagance. Make the change NOW.

Valley Hardware Co.

garding salmon canneries will be rudely dispelled.

The various departments of the United States government have sent word to the officials of the Alaska-Yukon-Pacific Exposition giving in detail the features of Uncle Sam's exhibit at the great Seattle fair. It will be the most comprehensive and unique display made by the government.

Wireless telegraphy will cease to be a mystery to people who visit the Alaska-Yukon-Pacific Exposition in Seattle next summer. A full working plant will have communication with California and distant Alaska points, will be installed upon the exposition grounds.

California will have one of the most interesting exhibits at the Alaska-Yukon-Pacific Exposition in Seattle next year, with a large building and displays by each county. The special excursion early in June from San Francisco to Seattle will carry three hundred of the leading business men of the Golden state.

Apple Picking Begins.

Apple picking is now the order of the day with the fruit men of the valley, most of the growers having started their forces to work last Monday or during the present week.

All together the apple crop is decidedly the best that has ever yet been harvested in the Yakima valley, both as to quantity and quality. Owing to the extremely favorable season and long continued warm weather the fruit is highly colored this year, which makes it look highly attractive and more than usually fit for market.

The market, as yet, is considerable of an unknown quantity, there being so far little uniformity in prices paid and offered. Seventy-five to eighty cents per box for the common varieties seems to be about the average and \$1 to \$1.25 for fancy packs. Growers are not satisfied with these prices, but the dealers claim they are paying all the market will justify. A number of growers will refuse to contract until picking is finished.

ESTATE OF SAMUEL D. PECK.

Deceased Left No Will to Bequeath Property Valued at \$3500.

A petition for letters of administration in the estate of Samuel D. Peck, deceased, has been filed with the clerk of the superior court by Phoebe A. Peck. In this petition it is set forth that Samuel D. Peck died at Outlook, 1908, and that he left property held in community with his wife, as follows:

A contract for the sale of 20 acres of real estate in Yakima county, with the water right, on which is now due the sum of \$1000 with interest for one year; lots 15 and 16, block 2, Outlook, valued at \$1500; personal property to the value of \$300; mining stock to the value of \$250, and an undivided interest valued at \$500, held with his son Burdette, in a meat business in Outlook. It is maintained that the total value does not exceed \$3500, and that the annual rental does not exceed \$120.

It is further set forth that no will can be found, and that the heirs at law are Phoebe A. Peck, Burdette S. D. Peck and Frederick Peck, of Outlook, Charles H. Peck of Burkmere, South Dakota, Addie L. Moore of Granger, and Lena M. Taylor of Sunnyside.

Any contemplated withdrawals by candidates chosen on the various tickets at the primary election and also tickets to be filed by minority parties for the general election, must be in the hands of the county auditor not later than Tuesday, October 13.

County Auditor.
