Yakima, Wash.

Mr. Herb Jenkins,  
Public Relations  
Grant County PUD

Dear Herb:

Enclosed are the few contact prints and 15 negatives which you sent, covering rock paintings on the island at Priest Rapids. Just got the negatives back from the photog today with prints which are being used with those I have on hand for some potential rock painting designs. Many thanks for their use.

I think these, with others I have, will enable me to provide some definite and characteristic designs for the region.

I also spent an evening with Quigley and "interviewed" him about his art background. Some of the information I am using in a Sunday story about his exhibit at Maryhill Museum. The other I will keep in my file for later use when it can be of publicity value to the PUD. On matters of that nature I can resort to my files etc. for material as needed relative to the actual dedication, anything requested of me.

Again, many thanks for the use of the prints and loan of the negs for some of my own prints, for project use.

Sincerely
