Klick Relander  
Yakima, Washington

Dear Mr. Relander,

Through Mr. Todd of the Shorey Book Store in Seattle, I learned that you have disposed of at least some of your books. As a collector of Northwest pictorial material - water colors, oils, lithographs, and sketches - I am wondering if you have any items that fall into this category. Naturally, the older they are, the better, and the more documentary and historically significant, the more I am interested.

In the not too distant future, I expect to be in Yakima and would appreciate your letting me know if you have any such items that you would be interested in disposing of.

Yours sincerely,

*Franz Stenzel. rjs*
