The Style Store

The Quality Store

Here in this store everything has a value, else it would not be here, because it is one of the inflexible rules of this store never to offer for sale anything not worthy of serious consideration, anything not dependable, but at all times and under all circumstances, to bring within the possibilities of possession by all, the best the world provides, according to the need or the desire—not the most costly, but withal the best.

We extend to all a standing invitation to visit our store and to inspect our various stocks.
