Dear Mr. Pelander.

Pleased to hear from you. I do not have any beaver skin or the type of drying hoop you mentioned. Always floundered on making the latter some day. Neither do I have a H. B. Co. trade skin. I do have about a 1/2 doz cut beaver and hope to find a strong one some day. I do have a few assorted traps of the type you request but as I have no duplicates for that line I couldn't care to part with any of them. Sorry I can't help you out at this time. I will be in town until the end of the month. Should you come to Victoria please contact me.

Sincerely  
A. Forter.
