## INSTRUCTIONS FOR STOCK YIELD AND EQUIPMENT REPORT

- 1. The stock yield and equipment report shall be included in the annual operation and maintenance report.
- 2. The information for this report shall be obtained at the time of taking the crop census and the report shall cover only the farms included in the crop yield report.
- 3. The inventory for the close of the year has for its purpose the showing of the stock and equipment assets of the project.
- 4. The purpose of the column entitled "Increased total value" is to show the possible sale value from the year's stock operations and the increase in equipment value.
- 5. Under the head of "Equipment" shall be included the value of all tools, machinery, and vehicles used on the farms.
- 6. Owing to the general nature of the information given in this report, the use of decimals shall be reduced to the lowest practicable minimum consistent with reasonable accuracy.
