Mr. Roscoe Sneller
Sunnyside, Wash.

Dear Roscoe:

Herewith are 14 typed pages of Paiute material on loan. I believe that from this you can gain sufficient information for quite a lively talk on Sarah and her people. You can return it when you have prepared your notes from it. No need to make a typescript as I have it always on hand together with much more other material on the Paiutes, and hope to do something with it some day. I understand that a Paiute authority, Grimlow, has a book ready on this material, especially on Sarah. It is my assumption that he is withholding it from publication because the descendants of the Paiutes are now engaged in suing the government for something or other, one of the absurd cases--although there are legitimate ones afoot.

Regards
