THE DIRECTOR

Dear Click:

The material came this morning. Normally, I would condense a "Nomination" but in both instances here, I will make the nomination and send along what you have written. Its too good to attempt an condensation. I will write a statement introducing the material, of course a separate introduction for each. You can depend on my making it as strong as possible.

We had one copy of Drummers and Dreamers, which I am sending in. We have just ordered four more from Caxtons, but you shouldn direct them to send an additional copy to replace the one I sneaked out.

Keep me posted, as far an advance as possible, on the Museum opening. Mr. and Mrs. Clevanger were here last week and thought it would be the 14th.

Hastily
