PREPARING FOR WAR

England Has Ordered War Vessels to Make Ready for Emergency-Great Activity in Dock Yards.

LONDON, Oct. 28.-Notwithstanding the diplomatic check in consequence of Admiral Rojestvensky's report it is evident that Great Britain is preparing for the possibility of war. Tremendous activity is reported from all the dock yards, where vessels under repair are being made ready for sea under urgent orders from the admiralty.

At Cardiff it is stated that admiralty agents are securing great quantities of coal for Gibraltar, Portsmouth, Malta that the Japanese nation fully appreciand other ports and paying high ates and greatly regrets the inconvenfreights. Perhaps the most significant development is the cabinet meeting which is called for noon today. While the call was issued prior to the receipt of Rojestvensky's report, which changed the situation considerably and appears to place some of the burden of proof upon Great Britain, the meeting undoubtedly marks the reaching of a serious

SAW TORPEDO BOATS

The Russian Admiral Commanding Baltic Squadron Says Torpedo Boats Were among the

Fishermen's Fleet.

ST. PETERSBURG, Oct. 28.-The naval general staff publishes the follow ng dispatches from Vice Admiral Rojestvensky:

First dispatch:

"The North Sea incident was caused y two torpedo boats advancing to attack without lights, under cover of larkness, against the vessel leading the detachment. When the detacament turned on its searchlights and opened preferable to capitulation. fire, the presence of several small steam boats resembling steam fishing boats was discovered. The detachment endeavored to spare these, and ceased firing as soon as the torpedo boats were

"The English press is indignant because a torpedo boat left by the detachment on the spot until morning did not aid the victims. Now there was not a single torpedo boat near the detachment, and none was left behind, consequently the vessel remaining near the small steamboats was that torpedo boat which was not sunk, but only damaged. The detachment did not aid the little steamboats because we suspected them of complicity on account of their obstinately cutting into the order of the positions of our vessels. Several of them showed no lights and others only very late." Second dispatch:

"Having met several hundred Sshing boats, the squadron showed them every consideration except when they were in company with foreign torpedo boats, of which one disappeared, while the other according to the fishers' own evidence. remained among them until morning They supposed it was a Russian and were indignant because it did not aid the victims, but it was foreign, and remained until morning, seeking the other torpedo boat, or its consort, either to repair damage or through fear of betraying itself to those who were not its accomplices. If there were also on the spot fishermen imprudently dragged into the enterprise, I beg in the name of the whole squadron to express my sincere regret to the unfortunate victims of circumstances under which no warship, even in time of deep peace. could have acted otherwise."

BOUGHT WAPATOX DITCH

The Northwest Light & Water Company Will Extend the Wapatox Canal and Become the Owners.

A deal was concluded Thursday afternoon between the Northwest Light & Water company and the farmers who not so very long since secured a contract for the purchase of the Wapatox ditch in the Naches. The deal is considered to be the first step of the Water company towards the improvement of their plant in this city and to have a bearing on the eventual line of electric roads proposed for the Sunnyside and other valleys. E. G. Peck who represented the farmers of the Selah intox diten conveyed to the Water & Light company the contract formerly made with the Wapatox company. The contract calls for the Water & Light company to perform certain obligations relating to the extension of the canal before becoming owners of the same.

The contract between Mr. Peck and the Wapatox company was made on the 11th of June, 1904, and under its terms those owning the Wapatox ditch were to get water free forever for land lying under its present course in return for transferring the ditch to Mr. Peck and those whom he represented. It was his plans to extend the ditch to water certain barren lands in the Selah. The Water company will now carry out the plans of Mr. Peck and this must be completed by December 31, 1906, and the ditch must carry 3000 cubic inches

The Water company also proposes to build a power plant near the intake of the canal where electricity will be generated for use in the city. In this connection, it may be decided to run a water pipe from there into the city for water supply.

The company many improvements.

"I consider that the acute stage of deplorable misunderstanding is over. I do not countenance for one minute the wild insinuations that British torpedo boats were the aggressors, but I cannot explain the presence of the two mysterious torpedo boats. But if this turns out to be the case it was Rojestvensky's duty to protect his ships from what he believed to be a hostile attack."

Col. Robertson and Dr. Thoms. The Yakima Republic publishes, un-

der a scarehead a statement to the effect that "Splawn and Medill are the anti-saloon candidates for the legislature." It publishes a letter purporting to come from J. C. Thoms, "superintendent."

The Democrat does not know Mr. we do not know whether he ever wrote such a letter or not.

This paper is owned and edited by a man by the name of Medill and the statement that we are one of the Democratic candidates for the legislature from this county is true.

If the editor of the Republic, by the publication of the Thoms letter, means to have the public believe that the editor of this paper has pledged himself to any man or set of men as to how he will vote on any question other than those mentioned specifically in his party platform, in the event that he should be elected to the legislature, he is draw

ing an wholly unwarranted inference. To be more specific, the editor of this paper has made no pledges to any man or any set of men as to how he would vote on any moral question, if elected to the legislature. Those questions are not mooted in either the Democratic state or county platforms. Whatever we are instructed to do if elected, we will do if it takes the hide off to do it. As to voting for a local option bill, a The N. Y. World says: bill for the repeal of the anti-gambling law or other bills of that nature, we ment dictates. We wish to qualify this church sermon.

statement, however, to this extent: It is our belief that a representative should endeavor at all times by his vote to reflect what he believes the sentiment and will of a majority of his constituents. If he does not do this he is not a true representative of the

As for the position of Senator Splawn on these questions The Democrat believes that he likewise has made no pledges of any kind. Senator Splawn is a close personal and political friend of the editor of this journal and we believe that if he had made any piedges of any kind that we would be very apt to know about it. At the present time Senator Splawn is out of the city and can not speak for himself.

The Republic man, as usual, has blundered. He evidently thinks that by one fell swoop he has killed off the Democratic nominees for the legislature through the publication of the Thoms letter. Instead of that he makes votes against the candidates of his own party. We merely refer to this phase of the matter to illustrate the point that we have heretofore frequently made to-wit "That Robertson is a Jonah."

Bryan an Incompetent.

The school teachers of the state, or at least a large proportion of them, are bitterly opposing the re-election of R. B. Bryan as state superintendent of public instruction.

Mr. Bryan has succeeded in holding down this office for a number of years and feels that he ought to have his lease on the place renewed for four years longer. Here are a few reasons why Mr. Bryan ought to be retired by the people. This is not said of Mr. Bryan because of his political affiliations, for the office that he holds ought not to be regarded as a political one. but for the following reasons:

First-He is years past the age limit when trachers are retired from the

Second-He is a quarter of a century behind the educational times.

Third-He lacks all the essentials of professional leadership.

Fourth-His attempts at educational lectures are mere twaddle, lacking point, professional spirit and helpfulness.

Fifth-He has refused to have this state represented in educational exhib its at the world's fair and he refuses to make any preparation for such an exhibit at the Portland exposition. Sixth-He has saved his administration from utter failure by finally consenting to the use of the course of

study as prepared by his predecessor. Seventh-He has never been able to successfully grapple with any phase of the institute work demanded of him by law; county superintendents in recog nition of this fact are forced to eliminate him from programs of teachers' institutes.

Eighth-He is a politician instead of

The above reasons why Mr. Bryan should not again be re-elected were formulated by teachers. We understand that a great majority of the teachers all over the state are opposed to Mr. Bryan not only for the reasons as above stated but because the state superintendent is a personally disagreeable man to meet and transact business A Number of Good Reasons Why

The only reason under the sun why Mr. Bryan is again running for office is due to the fact that Mr. Bryan is a smooth politician. He was able to deliver Chehalis county at the state convention last May to the railroad "push" and as his reward secured a renomination at the hands of Mr. Farrell and his associates. He ought to be beaten and good citizens generally who are interested in the welfare of the schools will vote against him. He is simply an incompetent.

Guthrie Boosts for Rigg.

The Democrat is reliably informed that W. P. Guthrie the former well known prosecuting attorney of this county who was deposed from office last February is over in Franklin county working most industriously for the election of H. B. Rigg, Republican nomnee for superior judge.

Bre'r Rigg may be congratulated in Thoms, except by reputation, therefore his good fortune. He has quite a variety of workers in the field.

WILSON'S APPEAL FOR SUPPORT

SEATTLE, Friday, Oct. 28.-Certain | the whole proposition. In the first King county Republican leaders, chief place there never was any chance for of whom is John L. Wilson, are appeal- Mr. Preston to defeat the great railing to the people of this county for support in a campaign for the United States senatorship conducted along lines laid down eighteen months ago by State Senator A. T. Van de Vanter of this county, the arch conspirator in the betrayal of Harold Preston, King county's candidate in the last senatorial contest. This plan of campaign contemplates putting up a candidate who is satisfactory to the railroad interests, and making an alliance with those interests for his election, while ignoring the desires and wishes of the rank and file of the party.

Senator Van de Vanter outlined his plan of a senatorial campaign immedi ately after the election of United States Senator Ankeny in January, 1903, in which he played a conspicuous part for his abandonment, at a critical time of that Mr. Preston's election was an imthe cause of his county and its senatorial candidate.

In the senatorial contest of 1903 the bill. In fact, I think everybody saw King county senators were never loyal the impossibility of his election except to the King county candidate, and as Mr. Preston himself. The only senasoon as it had begun to appear that tor we have ever elected from King there was a possibility of his election county was Watson C. Squire. My recthey abandoned the fight and went into ollection is that such men as Hunt, Mcthe Ankeny camp. Takes the Responsibility.

In his letter, which was published in the Seattle Times on Feb. 1, 1903, Sen ator Van de Vanter said:

"There having been a great deal of adverse criticism in reference to the stand taken by the majority of the King county members of the legislature in going into a caucus which resulted in Mr. Preston's defeat and Mr. Anke- the city of Seattle will not suffer by ny's election, I wish to make the following statement:

"I think there is no question but what I am almost entirely responsible for

all members of an unnatural alliance. i. e., trying to elect a railroad commission senator from an anti-commission county. We could probably, in fact I say certainly, have elected some other King county man, whom the railroad companies did not object to, provided Mr. Preston had been willing to concede the point, which he was unwilling to do. Mr. Ankeny had made a campaign which practically began eight years ago, and lasted to the present time. He made his alliances with the railroad people four years ago which ended in his election on Jan. 29. It had been apparent to all well posted business men and politicians of the whole state of Washington, for the last two weeks possibility, for the reason that he was tied up with the railroad commission and Crawford, and, in fact a hundred others whom I could mention were men's petition presented to this legislature protesting against any concessions whatever being made to the passage of a railroad commission bill, signed senting a large portion of the wealth and taxpayers of the county, which list Hopes for Approval.

Knowing these conditions, after careful and thorough discussion of the matter with several of the best busi-

ness men of the city, it was my judgment, concurred in by a large majority of the delegates that Mr. Preston could not be elected, and as he was not willing to give some other King county man a chance we had better make the Lesi terms we could for two years hence, dealing directly with the holdover senators for support. In electing Mr. Ankeny we are absolutely certain that if the next legislature is Republican that our action, and what we have done will

SOME EXPERT OPINION

the Democratic Ticket

Should Win,

Democrats Will Win. "The Republican convention might possibly have nominated a weaker state ticket it it had tried very hard, but it would have been difficult, and everybody concedes that it was dorned to defeat from the start. * * * The Democratic candidate for governor is eGorge Turner, whose term in the United States senate expired on the 4th of March, 1903, when he was appointed by President Roosevelt a member of the boundary in London. He is a man of ability and integrity. It is generally and that he will run anead of his ticket. Stephen Judson, Democratic candidate for lieutenant governor, is an oldfashioned mossback, a pioneer of the state, a continuous member of the legislature, a consistent anti-corporation man, personally popular with all parties and universally respected. Other candidates on the ticket are exceptionally strong."-William E. Curtis in the Chicago Record-Herald (Rep.)

Turner's Eminent Fitness.

"It was published in these dispatches tyo days ago that Mr. Turner would probably be appointed. (On the Alaska boundary commission.) This selection causes some surprise, not because he does not possess eminent fitness as a jurist, for that qualification is recognized by all his colleagues, but because he has been a vigorous opponent of the administration's policies. Some of the most distinguished Republican members of the senate, however, joined in recommending hi mto the president, and this was done without his knowledge."-Walter E. Clarke, special Washington in a dispatch published in that paper Feb. 14, 1904.

Lobby in Power.

complete and undisputed control. They met. The Republican party did not meet. The yeanvassed the situation in true lobby style. Of course each lobbyist had his favorite, but they all agreed that they must get together upon some man because in that conven tion was the bold and fearless Governor Henry McBride, supported by 250 men, uncorrupted and uncorruptible,"-Stanton Warburton (Republican), in an address at Chehalis, Oct. 14.

Should be U. S. Senator.

"In the debates in the constitutional convention at Olympia Judge Turner of Spokane Falls has borne a part that has reflected credit on himself, and has been of great use and value to the new state. On all sides he has received tribunal which arbitrated the Alaskan praise for intelligence, acumen, breadta of mind and soundness of judgment, Though not obtrusive, he has been the conceded that Turner will be elected leading figure in the debates, and his course has been characterized at once by a judicious conservatism and a loyal regard for the rights of the peop'e. In making selection of United States senators Washington would do well to consider whether Judge Turner should not be one of them."-Portland Oregonian (Rep.), Aug. 20, 1889.

Turner is Fighting Boodle. "If I lived in Missouri I would vote for Joseph W. Folk for governor because he is fighting boodle there. It I lived in Wisconsin I would vote for Robert M. LaFollette for governor because he is fighting boodle there. But living in Washington I a mgoing to vote for George Turner for governor because he is fighting boodle here. I have no more use for the Republican boodlers in Philadelphia than I have for the Tammany boodlers in New York city." -Thomas A. Mentzer (Republican), in an address at Tenino Oct. 4.

Preston Praises Turner. "What I wanted to say was that I

really had noped to be your choice for United States senator myself, and at correspondent of the Post-Intelligencer several times during the contest I really expected to be, and at some of those times I questioned the wisdom of such a choice because I feared to trust my "I was present at the recent Republi- own ability for such a great, such a can state convention and I saw the grand, such an important office and same men there who debauched the last position. # **BAILEY ON TURNER**

\$10,000 on the Democratic Candidate Says he Will Carry the West Side.

"It is a question of how large a majority Turner will get in western Washington, and not of how many Mead votes the eastern part of the state will have to overcome," said S. S. (Steve) Bailey, the well known wealthy property owner of Seattle, yesterday. Mr. Bailey, who always makes a close study of political conditions and backs his judgment with his money, has already wagered about \$10,000 on Turner, and is traveling over the state searching for more Mead money.

"I have found the Turner seatment much stronger west of the mountains than in Spokane," continued Mr. Bailey. "Pierce and King counties will give Turner about 3000 majority. Turner a very conservative estimate. In of the railroad commission as on the road domination.

# Turner Nails Two Lies.

In his speech at Ballard, near Scattle. Senator Turner read from a railroad organ an invitation for him to deay its statement that he and N. W. Durham. editor of the Spokesman-Review of Spokane, and George Stevenson, railroad lobbyist, had met in the Spokesman-Review's office and had there agreed to work together for the election of Turner. He declared that never at delegation to the Farrell convention, any time had he been in company with the two others named in the paper's of-

fice, and that no such conference as the Post-Intelligencer described ever hap-Senator Turner's refutation of the charge that he had maligned the American soldier or had ever abused or villiident Roosevelt was equally vigorous

and effective. He said:

"Wilson's paper printed the statement that I had, at some time during my term as United States senator, 'hired Hessians.' I am glad to say that it." that paper has since retracted that lie, which I believe was first put in circulation by a scoundrel who, when not too delivered by a lot of unscrupulous polidrunk, tried to edit a paper at Bellingham called the Reveille. # DR. DARRIN IN TOWN

CAN BE CONSULTED FREE AT THE HOTEL YAKIMA.

Will Remain a Limited Time-Till November 6th.

This far-famed physician (late from Paris, London and New York), who has achieved a great reputation throughout the coast, and the northwest, by his wonderful cures, is now favoring North Yakima with a limited visit of two weeks only, from Oct. 24 to Nev. 6, and has opened headquarters at the Hotel Yakima, where the afflicted can consult him free, from 10 a. m. to 8 p. m daily, and the worthy poor receive the benefit of his wonderful skill without, fee nor price.

Dr. Darrin comes to us laden with testimonials from taroughout the whole northwest, and the authenticated reports of some of his cures seem nothing short of miraculous. So many thousands are already acquainted with his mode of treatment it seems necessary only to say that he uses little or no medicine in the majority of cases, and perfects his cures by his magic skill and ability to treat all diseases.

Unlike other physicians who have become eminent in their profession the Doctor's charges are extremely moderate and reasonable, according to circumstances and ability to pay, and he will not undertake any case that he cannot cure or benefit. Consultation is free to all, for should there be any cases that are incurable, he will immediately discover them on consultation, thus saving his patients any further expenditure of money and time which they might otherwise squander.

Dr. Darrin has an enviable rank in his profession as a wonderfully successful physician. He is essentially original in his method of practice, and those who have been under his treatment are surprised at the newness and novelty of his system of practice. His honesty and straightforward advice before taking a case has won for him the confidence of his patients as well as the general publie. The doctor is a gentleman of genial, social nature, and his private practice is marked by the formation of a personal friendship with those with whom he comes in professional contact. He is without doubt one oft he most thoroughly qualified physicians now before the public.

### AN ABLE SPEAKER

Hon. W. H. Burdick, a Republican, Advises Fruitvale Voters to Support Geo, Turner and Com-

missionmen for the Legislature.

A Democratic meeting was held at Fruitvale school house last evening with a fair attendance. The speakers were Hon. W. H. Burdick of Tacome tion of a large rooming house near his and H. J. Snively. J. D. Medill and J. D. Morrissey, candidates respectively for representative and auditor, were present and made brief talks. Mr. Snively, who is a resident of Fruitvale precinct, presided.

Mr. Burdick, who by the way is Republican of Republicans, made a most telling speech. He discussed the railway commission question in a very interesting and lucid way, making the subject very clear to his audience. Mr. Burdick, until a few years ago, was a ed in Yakima City, moved his family resident of Wisconsin, where he was quite prominent in political life, having been a member of the legislature of that state for a number of years and speaker of the house of representatives. He is a great admirer of Gov. Robert LaFollette of that state, and told of the splendid fight that the courageous young governor of the Badger state is making in behalf of the people as against the railroad corporations of Wisconsin.

> Referring to the Republican state convention held at Tacoma, Mr. Berdick said it was not a Republican convention at all but merely a railroad ratification meeting. The lobby, he said had everything cut and dried in advance. He himself, an old line Republican, was completely disgusted. He had never met eGorge Turner and had not finally made up his mind to support him until he had heard Mr. Mead speak at Tacoma. That gentleman cut and filled so much on the railroad question that he, Burdiek, made up his mind that Mr. Mead did not favor a commis sion law under any conditions.

Mr. Burdick is a great admirer of President Roosevelt and so expressed himself. He will speak at Nob Hill school house this, Saturday, evening. The people of that locality who wish to hear a really able and finished speaker should not fail to be present to hear

#### An Unwelcome Visitor.

The home of Mrs. V. A. Erwin on North Naches avenue was visited last evening by a stranger to the whole family. The visitor in fact was a gruff intruder, possibly a little influenced by an overdose of some stimulant.

It was about 8 o'clock in the evening when some one was heard to walk upon the front porch of the house. The footsteps were unfamiliar and the remark was made that some one was calling. Immediately the front door opened and in walked a big hobo lookng man who approached and opened the sitting room door. Mrs. Erwin and her daugnters were alone and became very much frightened. They yelled at the man to leave the house, asked him his Bartholet-Joe E. Barmon, J. S. Mur- name, asked him if he wanted money phy, Seattle; T. J. Roierke, Washing- or something to eat. Several men Brown, Roslyn; J. T. Brown, Thos. Har- were called in and the house was searched from garret to cellar but no Pueblo, Mt. Lookout; R. M. Graham, one was found. The actions of the visitor were decidedly mysterious. Mrs. Erwin and her daughters say that he was a gruff intruder and if the police catch him he will be dealt with gruffly.

# Condemned Infected Apples.

Fruit Inspector Orlando Beck condemned eight boxes of apples found in one of the grocery stores of the city Friday morning. Mr. Beck said that a good many of the fruit growers have been in the practice of sending their good fruit away and getting rid of their inferior quality by selling it to the local dealers. This is against the law and in the future Mr. Beck will give the matter closer attention. The boxes of apples found yesterday were infected with scale and coddling moth.

# Exhausted Brain Cells.

Nerve specialists say that a great many suicides are the direct results of exhausted brain cells. When you find yourself becoming morose and despondent, when you are conscious that the zest of life is evaporating, that you are losing the edge of your former keen interest in things generally and that your life is becoming a bore, you may be pretty sure that you need more sleep; that you need country or outdoor exercise. If you get these, you will find that all the old enthusiasm will return. A few days of exercise in the country rambling over the hills and meadows will erase the dark pictures which haunt you and will restore buoyancy to your animal spirits.-Success

All over the country the horse is very much afraid of the automobile. just as he used to be of the bicycle when it was first introduced. This makes not a little clashing between the old and the new way. In time horses will get used to the machines. WHY THE SEA IS SALT.

Magie Mill That Ground Out Riches For the Poor Brother While It Frightened the Rich One-The Sailor Who Made It Grind Salt.

There is an old fashioned Norwegian folk talk that accounts in a very curious way for the salt in the sea. According to the story, the waters of the ocean were not always salt. But long ago there were two brothers living away up in the northland. One was very rich, and the other was very poor. One brother had herds of cattle and flocks of fat mountain sheep, while the poor one had just about nothing at all except a wife and ever so many children

One Christmas eve there was nothing in the house for them to eat, and the Yakima Ave., North Yakima poor man's wife said to her husband: "If I had a rich brother, as you have I would go and ask him for something for these poor children to eat. Tomorrow will be Christmas day, and there

is not a crust of bread in the house." So he went to his brother and told him how much they needed his help. The rich man gave him a nice flitch of bacon and told him to go to an old magician who lived somewhere in the mountains. I do not know why he sent the poor man to the magician, for the latter did not bear a very good name in the neighborhood. However, when he came to the magician's stronghold everybody about the place wanted to buy his flitch of bacon. He could not understand why it was, but he thought if there was so much demand for the bacon he would at least make the best bargain he could for it.

"Well," he said, "I ought by rights to take this bacon home to my good dame for our dinner tomorrow, but since you all seem to have set your hearts on it I suppose you must have it. If I sell it however, I want a good price for it." They offered him a good round sum

but that would not do. "I will let you have it," he said, "if you will give me that quern yonder behind the door."

A quern is one of the things that it would be very hard to find nowadays, because they have gone out of fashion. A quern is a mill for grinding corn by hand, and it consists of two large stones, an upper and a lower one, the upper one having a handle by which it may be turned around on the lower stone, grinding the corn or grain between them.

The old magician at first laughed outright at the idea of any one thinking that he would part with his quern, but the owner of the bacon insisted that he would be satisfied with nothing less than that, so he finally got it.

When he reached his own door the clock was striking 12 and his wife was waiting for him, ready to scold him for

staying so long. "What in the world kept you so long?" she asked. "And what are we going to do with that old quern when we have no corn to grind?"

Then he told her of his trading the bacon for the quern. She was dreadfully put out about it and especially at the loss of the bacon. "Just wait a minute," said her hus-

band, "before you begin to complain, and see if I did not do right this time." And, putting the quern on the table he told it to grind enough good things hungry mouths. His wife could hardly believe her eyes as she stood there and watched the quern grinding out dain-

ties enough to last a week. The rich brother chanced to hear how well his poor brother's family was livand when he came and saw what

agant table they kept he was envious and wanted to know where they got the money to buy the things. For a long time they kept the secret of the old quern, but somehow it got out at last. They were so proud of it that they could not help telling all about it. and the rich brother insisted on buying the quern. Finally they let him have it for \$300.

It kept on grinding for its new owner, but he was afraid of it, never feeling sure of what it would do next, so he made his brother take it back at the same price. The poor man was glad to get it back again, and it ground out untold riches for himself and his family. They had everything they desired, among other things a golden house to live in, and the people came from every land to see the magnificence of the family that owned the wonderful quern.

One day a stranger, an old seaman who had been all around the then known world, came to see the quern and wanted it to grind salt.

It is supposed that the owner of the quern was rich enough by this time, for be let it go for a moderate sum, and, fearing that he might repent of having sold it, the old sailor put to sea at once with his prize, anxious to know how it would work. When he had sailed so far out that no one could reach him, he said to the quern:

"Grind salt and grind both fast and good."

No sooner had he given the order than the quern began to grind heaps and heaps of salt all over the deck until the ship was ready to sink to the bottom of the sea. Scared half to death, the old sailor begged the quern to stop grinding salt. He got down on his knees to it.

But there was no use talking to it. It went on grinding, grinding, and soon the vessel went down with its weight of salt. And the quern still keeps on grinding in the depths of the ocean, and that is why the sea is salt.-Virginia McSherry.

It is a good plan occasionally to take your troubles to some one who will point out that you are to blame for
