OFFICIAL PAPER OF NORTH YAKIMA

THE New York Journal has requested a few of the leading democrats of the nation to contribute articles for publication in that paper with reference to who the possible candidate of the anti-republican forces will be in 1900. Responding to that request George Fred Williams, of Massachusetts, has written the Journal a most vigorous letter, portions of which we copy below. Mr. Williams says:

"Six million five hundred and eleven thousand citizens voted for Bryan in 1896; a few of these have suggested changes in the platform, but the renomination of Mr. Bryan stands almost unquestioned among them.

"In the convention of 1896 he received 652 votes out of 930. The delegations which supported him then will not fail him in 1900. He cannot lose these. Cold political calculation cannot produce figures to defeat his renomination in 1900 as matters now stand.

"But Mr. Bryan has not been stationary in the popular esteem. When war was declared he offered his life to his country; denied opportunity for active service by the administration, he did not complain. With rare judgment he has allowed others to condemn the administration for its faults in the conduct of the war.

"Relieved of military duty his civic courage appeared in the prompt declaration of a policy for the government of the territory taken from Spain. A time-server would have failed. His party in congress sustained him. He supported the administration in its negotiations with a foreign foe; a smaller man would not have resisted the temptation to embarrass his political opponent. He stands now as a presidential candidate, pledged to give independence to the nations which have been rescued from Spain's oppression.

"Three years ago the democratic party was disrupted; its prospects were hopeless. Yet Mr. Bryan, leading a new policy, increased the vote of 1892 by one million, and a few thousand votes properly distributed would have elected him to the presidency. The gold and monopoly vote, which went to Mr. McKinley, was driven there by the democracy, not by Mr. Bryan's leadership. No change of leadership will bring back this element. On the contrary, so far as new issues may invite this element to return, Mr. Bryan has its confidence beyond any other leader.

"The issues of 1896 were not made by Mr. Bryan; they made him. They made him lead, and they were not mistaken. The money issue came from the loins of the

people. Jefferson and Jackson taught them, that they who control the money can control them, can snatch wages from their hands, bread from their mouths. Such is the meaning of the cry for free silver. Free coinage is a mere avenue of approach, one of several; but it leads straight to the enemy's camp.

"It is doubtful if the thin-skinned gentlemen who could not endure the silver issue are fitted for the Titan struggle which the banks are hurrying. But this much is sure, we shall not for their peace of mind shade our doctrines, much less change our leader. Bryan suits us and the cause. He has passed through the ordeal of fire. Jefferson tells us that for his zeal against banks of issue he 'was derided as a maniac by the tribe of bank-mongers who were seeking to filch from the public by their swindling and barren gains.' Whew! Mr. Bryan has not studied adjective. Jefferson protested that this bank in time would override the government. The time came when the president told Andrew Jackson that this bank controlled the business men of the country, and could and would regulate the nominations and elections of the people. Jackson answered: 'If your bank can make and unmake presidents, governors and congressmen, that is a damned sight too much power for any one man or institution to hold.' Mr. Bryan does not swear; do the banks which heaped abuse upon him in 1896 believe in their hearts that, with a gentler tongue, the unrelenting purpose of Jefferson and Jackson is wanting? We think so, and for that reason we want him.

Yes, he is still harping on the old string, God bless him! These are his latest tones:

"The nation can demand the life of a citizen, but it cannot touch accumulated wealth by the income tax. Is money more sacred than blood?"

"The democratic party will continue its attack upon the principle of monopoly, wherever it appears, whether in the standard money trust, the paper money trust or the industrial trust."

"Let them read these words who fear that the democracy will backslide from the platform of 1896. The million populists and our republican allies may rest assured that we stand firm. These are the men to whom we are answerable, and not the deserters of 1896, who are rather answerable to us and to the country for the evil they have wrought. To change the leadership would re-open the platform. Let both be sealed now, and not opened until the promised land be reached."

THE Seattle Times is authority for the statement that two well defined gubernatorial booms are being hatched at the G. O. P. hatchery in this state. These incipient boomlets are the property of Levi Ankeny and John L. Wilson, who, in days gone by, was an United States senator from this state. It is said that Mr. Ankeny, having finally persuaded himself that he will never wear the senatorial "toga," has

come to the conclusion that the state's executive chair would just about fit him. As was to be expected, as soon as Wilson learned of the aspirations of his old enemy the banker-statesman, he stripped himself for the fight and quietly gave the tip to his friends that he would like to be governor himself. The "Old Brigade," or what is left of it, has gone quietly to work hatching a scheme calculated to bring about the nomination of the pugilistic candidate, or at least to spoil the chances of the luckless Ankeny. The clans are gathering and the chances for an old time fight are excellent. The democrats view the situation with complacency, knowing that either Lewis, Rogers or McDonald is strong enough with the people to down either one of these over-rated gentlemen at the polls.

NOW that the proposition for a grand Fourth of July celebration in Yakima has been taken up and successfully started, let us make a long and a strong pull to make a success of it. Yakima people enjoy the reputation of doing well whatever work of a public nature they undertake and they cannot afford to allow the proper observance of our great natal day to go by default. The program being arranged will be a particularly interesting one and a large crowd of people will be attracted to the city. Certain lines of business will be largely benefitted and can afford to bear a reasonable share of the expense incurred. It's a good thing; push it along.

EX-SENATOR Pepper, of Kansas, widely noted for his hirsute appendage, has announced his return to the republican fold. Pepper, with his four feet of whiskers, has long been the butt of ridicule for the funny paragraphers of the republican press, but now they welcome him back with open arms. They are welcome to him. He is an irresponsible crank and an idle dreamer. His career in the senate was a failure, and he proved a disappointment in every way to the people who elected him. The populists turned him down with a dull thud in 1896. That is why he deserted them and went back where he always belonged.

A Large proportion of the imperialistic press is doing a good deal of tall lying these days through their headlines. This is an old trick, and a very dishonest one. The average telegraph editor well knows that thousands of readers find time to scan nothing more than the headlines of the daily papers. He is thus enabled to impose on them and generally takes advantage of his opportunity. It must necessarily be a weak cause that has to thus appeal to the credulity of the public.

THE veteran "editor" of a local imperialistic sheet has fallen into the bad habit of writing editorials for his local columns. This is yellow journalism run mad.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, May 19th, 1899.

If the scheme of the Reed chairmen of the most important committees of the last house to keep their places under the new organization of the house is a success, the next speaker will find that he is merely at the head of the old Reed legislative machine. The argument put forth by these schemers is little short of ridiculous. If accepted, it would mean that every man at the head of an important committee had a right to stay there as long as he could get elected and his party could control the house. Such a plan would be unjust to the speaker, who would be little more than a figurehead, if he could not control the make up of the committees, and equally unjust to the members who wish to better their committee positions. The Reed machine says that all the old chairman who were re-elected should be given the same places, and points to fourteen vacant chairmanships, owing to retirement of the old chairmen, as the only ones that the new speaker should put new men into; also that none of the members of important committees should be displaced. That would give the new speaker fourteen chairmanships, only four of which are important—Accounts, banking and currency, coinage and printing—to distribute among his supporters, and 57 vacancies to fill on eighteen of the important committees. It is said that these holdovers intended to form a combine to prevent the election of any candidate who will not agree to their plans.

Representative De Vries, who will have the honor of being the only democrat from California in the next house, is in Washington. He says the Gov. is going to appoint Burns to the senate, with the understanding that he is to be seated at the same time Quay gets in, and that the appointment will give the state to the democrats.

General Joe Wheeler returned to Washington this week, but not upon any order from the war department. He has no immediate expectations of being ordered to the Philippines, because the administration is too busy hoping that the fighting is over, to be thinking or ordering officers to go there.

Representative Gaines, of Tenn., is in Washington on business. Speaking of political outlook he said: "The democrats have only to stand firm, renominate Bryan, make some additions to the Chicago platform, and they will sweep the country in 1900. Bryan's renomination is assured, for he is just as much admired in the strongholds of the party as he was in '96. The next platform will declare for free silver, but will also declare against expansion, militarism, and the trusts, which threaten the destruction of the nation. What makes the prospect all the brighter for the democracy is the torn and divided state of the republicans. When congress meets and the majority tries to enact iron clad gold-standard legislation, it will find out the true sentiment of the country on the financial question."

Representative Henderson's candidacy for the speakership may be hurt more than helped by the work that is being done in his behalf by the old soldiers organizations, which are asking votes for him on the ground that he will organize the committees of the house so as to ensure more liberal pension legislation. It would seem to an unprejudiced observer that the country has already gone to the extreme limit in the matter of pension liberality, and the election of a speaker who would favor going further in that direction would be regarded as anything else than a blessing outside of those who would receive the money or be directly benefited by a further increase in the already enormous pension payments annually made by this government.

Kentucky republicans were perfectly willing to have the gold democrats vote with them to carry that state, but they are not willing to have the gold democrats rewarded with federal offices, and they have, through Senator Deboe, filed a vigorous protest with the administration against Senator Lindsay, of Ky., being allowed to name six out of the 13 Census Supervisors the state is entitled to. Mr. McKinley has lost no opportunity to show his gratitude to the men without whose votes he would have been defeated, and the chances are that the original idea will be carried out, regardless of the protest.

The sincerity with which three of the

big-headed young office holders—Assistant Secretary Vanderlip, of the Treasury, Assistant Secretary Allen, of the navy department, and Assistant Postmaster General Perry Heath—appointed themselves a national committee to receive contributions that are being made all over the country to buy a home in Washington for Admiral Dewey was a little bit astonishing even to the old-timers who are accustomed to the freshness of the office holders of the Ass. brand. However, as their selfmade credentials seem to have been accepted by the country, the matter is only mentioned to show how easy it is for a man of gall to push himself along after he gets a little start. They were wise enough to elect Mr. Roberts, Treasurer of the U. S., treasurer of the committee. Present indications are that much more than the price of the most expensive residence in Washington will be contributed.

Christian church services Sunday morning and evening, conducted by the pastor, Rev. Ira W. Kimmel. Christian Endeavor at 7 p. m. At night the second sermon on the Bible, "the Bible and Its Enemies." All are invited. Four new members were received into the church last Sunday. A large number of men are attending these services.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruption and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth velvety skin and rich complexion. An Interesting Meeting.

Considerable business of a public nature was transacted at the governing board meeting on Saturday evening.

Hough brought up the matter of numbering the houses of the city in order to facilitate the distribution of mail under the free delivery system which will soon be in vogue here. Action was deferred until a future meeting.

Ditter brought up the matter of holding a fourth of July celebration and the board voted unanimously in favor of holding a celebration and decided to call a public meeting at the city hall on Tuesday evening for the purpose of organizing the movement. Col. Robertson who was present generously offered to print the necessary hand bills gratis, which offer was accepted.

Medill called attention to the fact that the fish were rapidly disappearing from the streams of this county and that unless some means was adopted to prevent them from entering the numerous irrigating ditches that it would only be a question of time when the creeks would be totally depopulated of their finny inhabitants. He suggested that a wire screen placed over the intake of every ditch and kept there would have the desired effect. A motion was passed instructing the secretary to communicate with the state fish commissioner to see if he had the authority to apply the remedy.

President Fechter then stated to the board that he had completed the draft of a circular letter which he proposed to send to every beet sugar manufacturer in the United States, advising them of the advantages offered in the Yakima Valley for the location of such an industry.

E. F. Benson, who was present was then by unanimous vote invited to address the board and did so. His speech was devoted mainly to a discussion of the sugar beet industry on which subject he is particularly well qualified to speak. His remarks were listened to with close attention and were apparently appreciated by all present.

PROCLAMATION.

The annually recurring observance of Memorial or Decoration Day is again at hand. On Tuesday, the 30th day of May the graves of our dead soldiers will be decorated by our citizens and appropriate exercises will be held.

It is, therefore, earnestly requested that between the hours of 1 and 4 p. m. the business houses of the city be closed and that all take part in paying tribute to our heroic dead.

NORTH YAKIMA, May 24, 1899.

O. A. FECHTER, Mayor.

The Canker Worm.

The canker worm has in some seasons done much harm to apple trees, and when its ravages have been unchecked for two or three years it has even killed the trees. There are two kinds of canker worms—one form deposits its eggs during October and November upon the twigs of the apple trees, while the other appears during warm spells in late winter and early spring. The female moths are wingless, and as they have passed their pupal form in the ground the only way they can reach the branches is by crawling up the trunks of the trees. Some endeavor to trap the moths as they ascend the trees by placing bands of paper about the trunk and smearing them with printers' ink or tar. Others use various other bands and traps, but to be effectual they must be applied before the moths ascend the tree and must be kept in a condition to act as a barrier whenever the ground is not frozen from October to May. As this is a serious task and as, even at the best, some of the insects may evade the traps, the principal reliance is upon persons spraying with arsenites.

State Fair Notes.

The state fair commission is arranging for a general conference of the Horticultural Inspectors of the state, at North Yakima, during the fair week Sept., 25 to 30th. The meeting will be attended by prominent fruit growers from all sections, and will prove beneficial in many respects. It is proposed that several sessions be held, in some public hall, where the various subjects of growing, handling and marketing fruits, exterminating pests, introducing new varieties and other matters of importance to fruitmen will be discussed. The growers and dealers will in this way form an intimate acquaintance and their work result to the mutual advantage of all in attendance.

Work on the state fair is prospering, the buildings are being repaired the track put in shape and many conveniences are being added for the comfort of both exhibitors and visitors. The commission has decided to refuse privileges to all parties having gambling devices, and must therefore refuse many applications for such as appear to be of that class. The indications are that many of the finest products of the Northwest, never before exhibited, will be at the fair this fall. The people are enjoying prosperity, and desire to show their neighbors and the strangers within our borders, what the Northwest can produce.

Andreas Simon agricultural editor of the Chicago Staats Zeitung, a leading German paper, stopped off Thursday evening to take a look at the Yakima country. Mr. Simon has within the past year settled 300 German families on farms in Whatcom county. He was highly delighted with Yakima and the probabilities are that arrangements will be consummated that will induce him to bring his people to Yakima in the future.

Death of Mrs. McDaniel.

Mrs. Cora McDaniel, wife of J. D. McDaniel, of this city, died at the Sisters hospital at 2:45 a. m. Sunday morning.

Deceased who had been afflicted for some time with a tumor, was taken to the hospital last week to undergo a surgical operation as the only means of preserving her life. The operation was performed on Friday, but the failing strength of the patient was insufficient to enable her to rally from the effects of it and with her husband and little daughter clasping her hands, she fell into that "dreamless sleep that knows no waking." The funeral which took place from the Christian church on Tuesday was largely attended by the numerous friends of the family, who came to pay their last sad tribute to the beautiful character of the deceased.

Mrs. McDaniel was the second daughter of John and Mary Lindsay, well known pioneers in this valley who settled here in 1865, where the subject of this sketch was born 31 years ago. Besides her sorrowing husband and little 10 year old daughter, she leaves her venerable parents, one brother and three sisters to mourn her untimely end. The grief stricken relatives have the sympathy of the entire community.

Ringling Bros. circus is billed for this city Monday, June 19th.

Yakima will celebrate the glorious Fourth and it will be a howling success too.

Laura Johnson, a 16 year old girl who lived at Parker Bottom, died quite suddenly on Sunday afternoon from inflammation of the bowels. The burial took place on Tuesday.

It is rumored that two weddings will take place in this city, shortly after the Yakima soldier boys "come marching home" and loving hearts will be united, ne'er to part again.

Lizzie, the 16-year-old daughter of D. A. Wheeler, who lives on the Dr. Morrison ranch, south of town, died at 7 a. m. Thursday morning, her complaint being dropsy. The burial occurred on Friday.

A memorial sermon will be delivered at the Congregational church tomorrow (Sunday) by Rev. T. J. Dent. Members of the G. A. R. and W. R. C. will meet at Allen's hall at 10:30 a. m. and march in a body to the church.

Alfred Dent, who has opened an ice-cream parlor and refreshment stand in the old Co-op building on Second street, gave a grand opening last evening. The young man had his place of business beautifully decorated for the occasion.

The Adventists opened their camp-meeting on Thursday in the Capital addition west of town. The session will continue until June 4th. A number of people are in attendance from different points in Eastern Washington and Oregon.

The Seattle Brewing and Malting Co. have notified Secretary Gunn, of the fair commission, of their willingness to contribute a special cash premium of \$50 to the state fair which is the same as the amount that they generously contributed last year.

Mr. and Mrs. O. V. Carpenter gave a very pleasant reception on Sunday afternoon at their home north of town, in honor of Mrs. Joseph Metzgar and sister Miss Katie Baumgartner, of Seattle, who are visiting in the city. A pleasant afternoon and evening was spent by all present.

J. P. Terrill, of this city, and associates, of Tacoma, had bad luck with their first attempt to drill an artesian well near Mabton. At the depth of 150 feet the casing parted making it useless to proceed farther. A second hole was accordingly started on which they are now down about 200 feet. They hope to have better luck this time.

Another large company of Holland people arrived last week, the majority being from Michigan and the balance from Dakota. One or two have already become possessors of Yakima soil, while others will doubtless soon be quite as fortunate. A number of the new comers are stopping at the residence of J. H. Viissers, west of town.

Thomas Lund commenced on Tuesday to clear the ground preparatory to beginning work on his new stone building opposite the depot. The new structure will be built of stone—handsome and substantial, costing between three and four thousand dollars. C. H. Bruenn, the well known builder, has received the contract.

Two drunken Indians going in opposite directions met in the Wenas valley on Wednesday and a "scrap" ensued with the result that Edward Foster smashed Charley Tomasky with a stone and evidently leaving his mah for dead, started for town. Jap McGlothlen and a neighbor found the unfortunate siwash almost dead and covering him up started for town passing Foster on the way. Sheriff Tucker was notified and hurrying, intercepted his man at the Natchez bridge and arrested him. The other Indian was brought to the hospital where his wounds were dressed by Drs. Frank and Dulin. He is in a precarious condition.

A marriage license was issued on Wednesday to David C. McKee, of Zillah and Miss Lulu Dunn, of Parker. The happy couple were united on the same day by Rev. H. M. Bartlett. They will make their future home near Zillah. THE DEMOCRAT tenders the usual congratulations.

The two year old child of O. L. Gardner, who lives north of town, fell into an irrigating ditch on Tuesday and came near losing its life. When the mother discovered her child in the water it was thought to be dead, but by vigorous rolling the infants life was saved before medical aid was obtained.

County Commissioner Horsley is desirous of finding a good home for a 10 year old boy whose mother died a few weeks ago at the hospital. He is said to be a good boy and very bright as well. The deceased mother was a county patient and under the law the commissioners are the boy's guardians until a permanent home is found for him.

Wm. Lee sr. this week resigned his position as state fair commissioner, his resignation being mailed to Gov. Rogers on Monday. The ostensible reason for his resignation is said to be his dissatisfaction over the management of the fair. As he has himself been a very important factor in the management, it is difficult to believe that such was the real reason that prompted the resignation.

Congressman Jones on Tuesday appointed Charles Michael Sweeney an 18 year old boy of Spokane as cadet to the West Point Military Academy. He also named Fred H. Smith, of Seattle, as alternate. The latter has no chance to enter the academy, except in the contingency of the former failing in the final examination which takes place at West Point.

W. H. Wilgus, a venerable gentleman of 78 years, was examined by a board of local physicians on Wednesday and committed to the Medical Lake asylum by Court Commissioner Preble. The unfortunate gentleman came to this state from Ohio about a year ago with his family. Sheriff Tucker, accompanied by J. E. Schwartz as guard, took him to the lake Wednesday night.

The 11 year old daughter of H. T. Manning was run over by Wheeler's milk-wagon during the noon hour on Wednesday, the accident occurred at the corner of Yakima Avenue and Second street. Although the wheels of the vehicle passed over the child, she was not seriously injured. She was conveyed to Dr. Frank's office where she soon recovered from her great fright.

J. E. Baker, state horticultural commissioner, of Tacoma, was the guest of County Commissioner Beck Friday and Saturday of last week. While here he inspected a number of orchards in the valley and expressed himself as pleased to find them so generally free from dangerous insects—the result of thorough spraying. While the frost has damaged certain varieties in some localities there is reason to believe that on the whole there will be almost an average crop produced in this valley.

The Applegate brothers who arrived here this spring from Dayton, Ohio, and who are erecting three dwelling houses on east Yakima Avenue, contemplate the removal to this city of a cider mill plant which they own in the east. The mill which has a capacity of 50 barrels a day, they think, can be made to pay here. Thousands of barrels of good cider apples go to waste annually in this valley and on the other hand thousands of dollars are sent out yearly for vinegar. Yakima would thus profit in a double sense from the location of such an industry here.

Bobby Gaylor and company on Tuesday night presented that hilarious though time worn farce "McSorley's Twins" to a small but appreciative audience. The great comedian is fully as entertaining as he was 10 years ago and while he was guilty of perpetrating a number of musty jokes, he also cracked a number of new ones. McDuff, his main support, however, is not much behind him as a comedian. The latter in an outlandish make-up kept the audience in a roar by character impersonations and the exercise of his power as a ventriloquist. Ora Mullally and Frances Florida as the twins were fully up to expectation. Altogether, it was a very good show, a "hot number" as the boys say.

SUGAR BEETS IN CALIFORNIA.

Gleaned From the Report of E. F. Benson to Thomas Cooper.

During the fall of 1897 E. F. Benson, of the land department, of the N. P. R. R., acting under the instructions of Thomas Cooper, his chief, visited the principal beet sugar factories of California and Utah and for a period of two months made a special study of the growing of beets and their manufacture into sugar. The following facts are condensed from the report of Mr. Benson after inspecting the Watsonville factory and tributary fields.

This establishment is owned by the Spreckles interests and has a capacity of 1200 tons of beets per day; this factory during the season of 1896 consumed 155,000 tons of beets, out of which was manufactured 19,000 tons of sugar. Over 200 persons find employment in these works for the period of 120 days. Three to four million gallons of water are used daily which is procured from artesian wells; this water is considered preferable to any other on account of its purity.

About 50 per cent of the weight of the beets goes into pulp which is mainly fed to cattle which are brought to the vicinity of the factory annually for the purpose of being fattened. This pulp is eaten greedily by both cattle and sheep and is perhaps the cheapest fattening food to be obtained for stock.

Beets are hauled to the factory by railroad for the distance of 85 miles. The best beet land in the Pa jaros Valley in which Watsonville is situated, is worth \$300 to \$400 per acre, land in the neighborhood having practically doubled in value since the manufacture of sugar began there.

Regarding the growing of beets Mr. Benson says: the ground is first plowed deep, is well harrowed and the surface left smooth, the seed is then planted in rows which are made 20 inches apart. After coming up, the plants are thinned, leaving them at a distance of from 8 to 10 inches apart. They are then carefully cultivated and the ground kept comparatively moist and free from weeds.

The seed is furnished the growers by the factory people at 10 cents per pound, the manufacturers taking great pains to procure only seed of the best quality.

The cost to the growers of raising beets is estimated at from \$1.50 to \$2.50 per ton and the price received at the factory is \$4.00 per ton, which leaves to the producer a handsome profit, considering the fact that 20 tons to the acre is only a good average crop, while 30 tons are often procured and even 40 tons have been produced in that locality, \$30 per acre is regarded as only a fair profit.

The Watsonville beets yield on an average about 15 per cent of sugar although some times running as high as 17 per cent. The factory refuses to receive beets that weigh over five pounds as the extremely large beets are coarse in fibre and deficient in saccharine matter. Beets that average three pounds are regarded as the most desirable.

Not a Candidate for Governor.

The article appearing in yesterday morning's Post-Intelligencer that Colonel James Hamilton Lewis will be a candidate for Governor in 1900 is answered by that gentleman as follows:

"I read the article. It is a most adroitly prepared literary emanation. But as to the facts stated I have no knowledge. For myself, I again say, I am no candidate for any office—governor, senator or congressman. I am an attorney-at-law, with office in the Pioneer building, practicing my profession—nothing more."—Seattle Review.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong, I can't say to much in its praise." Judging from the acts of the Filipinos, wisely or foolishly, they do not seem to be in any mad rush to obtain American civilization. They undoubtedly have a perfect right to choose for themselves, and if they come to the conclusion that they do not want the blessings this country is so anxious to bestow upon them, it surely ought to be plain enough to all that this country should be the last to try to ram these blessings down the throats of the Filipinos by force.—Everett News.

The East Oregonian says: "The volunteers in the Philippines are coming home. They should come home. They have fully served the purpose of their enlistment. They enlisted to fight Spaniards and free Cuba, not to conquer or chase half-naked negroes over the hills of the Philippines. If the government has gone into the business of killing the 9,000,000 semi-barbarians of those islands, those who are hired for the bloody work had better be given the job. Notice of Settlement of Final Account

In the Superior Court of the State of Washington for Yakima County. In the matter of the Estate of Ida M. Woolsey, deceased. Notice is hereby given that T. J. Woolsey, administrator of the estate of Ida M. Woolsey, deceased, has rendered and presented for settlement and filed in said court his final account of his administration of said estate and petition for distribution thereof and June 12, 1899, at 9:30 o'clock a. m. at the court room in the court house in said county has been appointed by said court for the settlement of said account and hearing of said petition.

Dated May 20, 1899. T. J. WOOLSEY, Administrator of Ida M. Woolsey, deceased.

RESOLUTION.

Be it resolved by the city council of the city of North Yakima that said city intends and hereby declares its intention to improve C street in said city by the construction of a sidewalk along the south side of C street between the northeast corner of lot No. 8, block 88, and the northeast corner of block No. 128, being along and in front of lots No. 8 and 9 in block No. 108 and lots No. 8 and 9 in block No. 128, all of said lots and lands being in accordance with the plat of said city, now on file in the office of the county auditor of Yakima county, Washington.

Said sidewalk to be 8 feet in width and to be laid with planks two inches thick, eight inches wide and eight feet long, surfaced on one side, to be laid dressed side up, and resting on three stringers, four inches by six inches, said sidewalk to be laid on the grade marked out and established in front of the lots and lands hereinafter described, as the same appears from the grade stakes; all material used to be number one good common fir lumber.

That the estimated cost of said improvement is \$200; that the cost of the same is to be assessed against the property abutting on said sidewalk and included in the following assessment district, to-wit: Lots 8 and 9 in block 108; lots 8 and 9 in block 128, all of said lots and blocks being in accordance with the plat of said city of North Yakima.

That protests against said proposed improvement may be filed in the office of the city clerk of said city of North Yakima at any time before the 20th day of May, 1899.

That the city clerk give due and legal notice of said proposed improvement.

Passed the council May 15, 1899.

Approved May 15, 1899.

Attest:—O. A. FECHTER, Mayor.

H. B. DOUST, City Clerk.

THE EAGLE WILL SCREAM.

Yakima Will Celebrate The Glorious Independence Day.

A large and representative meeting of the citizens of Yakima was held at the city hall on Wednesday evening and decided by unanimous vote to celebrate the glorious Fourth of July.

The gathering was called to order by E. M. Reed, who in a few well chosen words, stated the object of the meeting.

Nominations for a permanent chairman being called for, the name of W. W. Robertson was proposed and that gentleman was unanimously elected to occupy the chair. F. L. Chandler was then chosen as secretary and the meeting got down to the business in hand.

An expression of opinion being called for by the chairman, a number of gentlemen present expressed themselves as emphatically in favor of a rousing celebration.

A motion was then made and carried that an executive committee consisting of five members be appointed by the chair with full power to act. The chairman then appointed as such committee, Messrs Phil Ditter, G. S. Hough, H. H. Schott, Henry Lombard and J. D. Medill. The general meeting then adjourned and the executive committee immediately went into session. The committee organized by electing Phil Ditter as chairman, Henry Lombard secretary and G. S. Hough as treasurer.

A motion was then carried to increase the executive committee from five to nine members in order that the work might be more equally distributed. The following gentlemen were then elected as members of the executive committee: W. W. Robertson, F. L. Chandler, T. B. Gunn and G. S. Vance.

After considerable discussion over what would be the best manner of procedure a motion was passed for the appointment of 13 sub-committees of three members each, by the chair. The following committees were named by Mr. Robertson in his motion and the names of the different gentlemen appointed by Chairman Ditter to serve on them are appended.

Subscriptions—Schott, Short Horsley.
Decorations—Colman, Wallace, McArthur.

Grounds—Medill, Gunn, McCafferty.
Speakers—Robertson, Hough, Donald.
Races—Chandler, Bartholet, Hill.
Sports—Lombard, Coffin, Sinclair.
Fireworks—Robertson, Whitson, Rankin.

Novelties—Wenner, Kohls, Sloan.
Procession—Ditter, Frank, Briggs.
Printing and Advertising—Hough, Liggett, Shomaker.

Transportation—Chandler, Whitson, Lund.

Music—Vance, Conolly, Schindeler.
Program—Fechter, Cornett, Miller.

After the announcement of the committees, a motion was carried appointing the chairman and secretary a committee to wait upon the Yakima Woman's club and invite that organization to assist in the preparation for the celebration.

The chairman of the sub-committee on grounds then asked the executive committee for instructions in regard to where the celebration should be held. The committee after mature deliberation decided that the procession and public speaking should take place in the city during the forenoon and that the races and sports should be held at the fair grounds in the afternoon, (provided that location could be secured.) The celebration to conclude with a grand display of fireworks in the city in the evening.

The committee also decided to procure

a noted speaker from abroad to deliver the oration, the consensus of opinion being that either Col. James Hamilton Lewis or Senator Turner ought to be secured if possible.

The committee then adjourned to meet again at the club room on next Wednesday evening.

Death From Blood Poisoning.

Little Archie Berry aged 13 the son of Mr. and Mrs. Theodore Berry, who live on the west side died suddenly at 5 p. m. Thursday evening under very peculiar circumstances. It is said that the boy with some companions remained away from school on Wednesday afternoon and visited the fruit evaporator near the railroad where they helped themselves liberally (especially young Berry) to a lot of dried prunes stored there. In the evening of the same day the boy attended a birthday party given at the Butler residence, and on returning home went to bed in high spirits.

During the night, however, he was taken violently ill and until death came to his relief a few hours later, the unfortunate lad was tortured with pain. Dr. Fletcher, who attended him states that death resulted from blood poisoning superinduced by a foul condition of the stomach. The funeral takes place today 10 a. m. The boy's father is in the Klondike. General sympathy is expressed for the unhappy mother and two little children.
