Superintendent, Yakima Indian Agency,
Toppenish, Washington.

Dear Dannie:

It occurred to me that perhaps you would be wishing to issue a memographed copy of something like the following, perhaps more condensed so it could be on a half sheet of paper.

This could be included in the books that are mailed out for reviews and to various museum, library and dealer sources at the onset.

If it doesn't agree with your and the committee plans or views, just chuck it out. If it has merit, I would appreciate about 50 of the memographed sheets to include in the dispatches that I am now preparing

I am going to work out a complete story for use about next Tuesday and Wednesday in the "Republic" and "Herald" with the pictures taken yesterday in the job shop. This will be complete enough that I can use it in the "review" copies sent to various newspapers in the region.

I am also making out a complete list covering my mail dispatches so there will be no duplication with any that Fred or others have in mind. For instance, haven't included Ellensburg on my list but if he wants me to send to the paper there, I will do so. I'll await developments.

I've a hunch that if you approve of this form, which could come in handy in many ways, I should have my copies by Tuesday of next week. Long weekend is coming up when print shop will be closed. But I've lots of letters, notes etc. to get ready before then anyway.

Regards
