

LAW OFFICES OF
BROOKS & BROOKS

GOLDENDALE, WASHINGTON

August 15th 1925.

M. McGowan,
Sec. Toppenish Commercial Club.
Toppenish, Washington,
My Dear Sir:-

I am writing you a few lines to let you know what has happened since you left.

When the Governor and his party left here the other night Baker and Sunderland went down with them.

State Treasurer Potts, told Baker if we would send some one over Monday, to appear before the Highway Board, he thought an order could be made by them directing the Highway engineer to apply what money available from the summit down the mountain toward Toppenish.

And we will also try to get them to authorize the work done the coming winter, and also take up any thing else what will be to our interest.

We raised a fund yesterday to send some one over starting in the morning.

While some of the information we received was disappointing, yet we found out how the land laid almost by cross examination.

We also have reason to believe that Engineer Mook will be transferred to another district soon. (But don't make this public.)

Our people have told me they were highly pleased with your speech, for you hit the nail on the head. Am sending you a copy of the local papers.

Yours truly, N.B. Brooks
