

April 22, 1963

Mr. Marcu Maddux,
Public Utility District No. 1, Chelan Co.,
Wenatchee, Wash.

Dear Mr. Maddox:

Thank you very much for Gunkel's The Archaeology of the Rocky Reach Reservoir. It appears to be the type of work that will require considerable study for proper absorption. And presented in the form and format, I am sure will be of much value in the future.

Enclosed is a copy of Strangers on the Land which officials of the Yakima Tribe are happy to add to the district's library.

Again, many thanks for your thoughtfulness in seeing I received a copy of "the archaeology." Material of this nature goes into my extensive library, and in time I hope will find repository in places where future generations of students, scholars and researchers may pick up loose threads and continue "the never ending quest."

Sincerely
