OFFICIAL PAPER OF NORTH YAKIMA

AGUINALDO who so successfully eluded pursuit for over two years past has been captured at last and is now the unwilling prisoner of his Uncle Samuel, wherefore there is great rejoicing on the part of the imperialist press. They seem to take it for granted now that the Filipino chieftain is in the toils that resistance on the part of his followers to American sovereignty in the islands will cease. Perhaps it will and perhaps it will not. It is to be hoped, however, that it will for legitimate warfare in the Philippines has long since ceased and what has followed since has been akin to murder. Aguinaldo has probably been more severely roasted by the American press than any other man who has not been a candidate for the presidency, and all because he chose to resist the claim of sovereignty and the armed invasion of his country by a foreign foe. If he had been fighting for the liberty of his people against the troops of some other nation the imperialist organs would no doubt have been singing peans of praise in his honor and in case of his success his name and fame would have been handled so reverently as to assure him a most enviable place in history as a liberator of mankind. It makes a great difference though whose ox is being gored and whether man is a success or a failure. If he be a failure, as is most likely in the case of Aguinaldo, he will be cursed by his own followers and reviled and ridiculed by the rest of humanity. Such indeed is the way of the world. Regarding the character and personality of Aguinaldo it is doubtless true that he is neither the sublime hero as pictured by Edward Atkinson and his followers nor the cruel, ignorant, corrupt and murderous wretch that he is represented to be by the imperialist press and stump orators. As a matter of fact he belongs to the most respectable and educated type of the Filipinos. That he is a young man of most wonderful and extraordinary powers, as compared with others of his race, he has amply proved by being able to maintain for over two years a constant, if not successful, armed resistance to a large, brave and splendidly equipped army of invasion. As for his being corrupt, no tangible evidence has been produced to substantiate the charge. It is at least a fair presumption that he is not, for the reason that if he was American gold would have found a way long ere this to have turned him against his countrymen. The charge that he is a traitor will not stick. A traitor to whom? Certainly not the United States, a nation to whom he had never owed allegiance. There was some reason perhaps in the tyrant king of England applying the odious epithet of traitor to the immortal

Washington, for from the English standpoint he was such. But he was not a traitor to the cause of human liberty and neither is Aguinaldo.

AS was expected Gov. Rogers has vetoed the ill-conceived Gunderson text book bill pass up to him by the late unlamented legislature. This bill was designed to do away with the present desirable system of uniformity that exists in the selection of the text books for the schools of the state. This uniformity the Gunderson bill proposed to destroy by extending the privilege of selection to the different counties. There is good reason to believe that the bill was drawn by the representatives of the American Book Co., which is simply the legal name of the odious trust which has so long meddled with the school system of this state. The governor's knockout blow to the wily scheme of the trust agents ought to be upheld by the patrons of the schools. In his veto of the bill the governor says in part: "It is claimed by the advocates of this measure that the selections by the state board of education for five year terms in 1895 and 1900 were not well adapted and in fact were bad. Therefore it is claimed that the particularly difficult and responsible duty of selecting text books to be used by the children of this state should be turned over to the heterogeneous selection of school officers in the 36 counties of the state, thus providing 36 different opportunities for book agents and companies to impose 36 different selections of books upon a suffering public. Possibly three or four counties might secure better books than those now in use, but it is extremely probable that 30 out of the 36 would not. Some of the selections that would be made under the terms of this bill would undoubtedly, however hard it might bear upon the children compelled to study them, afford laughter and scorn for both gods and men. I cannot think it my duty to approve so heartless a scheme."

EVERY man, woman and child who obtains the means of sustenance in this valley and expect to make it their future home are interested in maintaining and preserving unimpaired the watershed that feeds the streams which make nearly all forms of vegetable life possible on what would otherwise be a parched and absolutely useless desert. If the statement is true that we hear frequently made that the grazing of sheep is working a serious injury to the preservation of the watershed, then the government which assumes the right to protect it should exercise its full authority by excluding sheep and for that matter cattle and horses or any other animals that pasture there if it can be clearly shown that their presence is injurious. Many old timers in this valley say that the summer flow of water in our streams has decreased from 25 to 50 per cent. during the last two decades. It is not, they say, but what the snowfall in the mountains is still as great in volume as ever, but for the

reason that the physical changes that have been brought about in the upper altitudes has had the effect of melting the snow early in the spring and sending the water down in raging torrents. Thus we have not only a great and useless waste of nature's energy, but every bridge, adjacent highway and often the growing crops themselves are annually endangered and often damaged by reason of these floods. This paper is not an alarmist and has no grievance against any particular class of stockmen, who have long been in the habit of pasturing in the reserve and naturally wish to continue in the exercise of that privilege. We also fully recognize the importance of the stock growing industry in this community and are anxious to see it continue to flourish. But we shall not forget that the tiller of the soil also has his rights and that the total or partial loss of water to him means failure and to the community general disaster.

OUR people should wake up to the importance of preparing a creditable exhibit of Yakima products for the Pan-American exposition which opens at Buffalo, N. Y., on May 1st. There is no longer any reason to doubt the claim that the fair is going to be a success and the splendid opportunity that it affords the people of this state to advertise their resources to the best advantage ought not to be overlooked. The legislature appropriated \$25,000 with which to make an exhibit and the commissioners since appointed by the governor are very anxious to have the active co-operation of the people.

SENATOR CROW of Spokane is not so well supplied with railroad passes as formerly. At the recent session of the last legislature Senator Crow voted in favor of the two railway commission bills that were rejected. This so angered the officials of the Great Northern road that they demanded of him the return of the pass they had sent him, in a very sarcastic letter in which the offending statesman was informed that that company did not propose to furnish free transportation to legislators who turn about and antagonize the great railway interests of the state.

THE colonel of the Republic has violated the ethics of his profession by prematurely publishing our letter from Aguinaldo. It was a mean scurvy trick for the colonel to anticipate us in this matter, but we will forgive him on this occasion if he will promise to quit revamping those musty flavored jokes.

LAST Sunday's Tacoma Ledger contained a very excellent and interesting writeup of North Yakima and vicinity which is worth a careful perusal.

THE P. I. favors Mart Maloney for the wardenship. This is pretty rough on Mr. Maloney and will likely defeat his aspirations.

The runaway of a farm team near the depot Monday created a mix-up of milk cans, an upturned wagon badly demolished, and a spasm of excitement in a crowd of on-lookers. A broken wagon tongue, a few leaks in a milk can and the loss of several gallons of skimmed milk resulted.

On last Saturday School Director Weed sold at public auction lots 2 and 4 in block 53, belonging to the school district for \$250, Geo. S. Hough being the successful bidder. These lots were sold in accordance with the wishes of voters in the district, expressed at a called meeting two weeks ago.

The Ellensburg papers have an account of a gold nugget valued at \$1,100, which was taken out in Hulton McCauly's claim in the Swank district last week. This is the largest nugget yet discovered in that section, and will be placed in the mineral exhibit at the Buffalo Pan-American exposition.

A front view of the plans accepted for the construction of the new block to be erected by Ditter Bros. has been on exhibition this week in the window of that firm's store. The structure according to the plans will be a handsome one. The front will be constructed of pressed brick and will be of the most modern design.

L. C. Parish of the Moxee met with quite a serious accident one evening of last week. A young horse that he was riding home became frightened and suddenly threw his rider to the ground. It is feared that the sudden contact with mother earth has seriously injured his spine. He was also badly bruised about the shoulders.

On Tuesday evening, at the residence of the bride's mother, Charles Niles and Miss Nellie Jungst were made man and wife, in the presence of about thirty of the friends and relatives of the bride and groom. The young couple were the recipients of numerous handsome and valuable presents, and start in the matrimonial life with the best wishes of hosts of friends.

An old case in which Thomas Pearne was plaintiff and W. W. McCormick defendant was settled and the records made to square with the compromise.

The criminal docket will be light, most offenders having simplified matters by pleading guilty.

"Faust" To-Night.

An eminent writer once wrote: "Success does not depend upon what a man knows, but what he does." How much more successful then must be the man who both knows and does. Such a man is Lewis Morrison whose famous production of "Faust" will be presented here tonight. Mr. Morrison's wide experience in the theatrical world spans a period of nearly two score years and covers every position in the province of the stage to bestow, from the carrying of a spear to becoming a gem in the constellation of stars in the histrionic firmament. His whole aim in that long period has been to give the public the very best entertainments his genius, experience and wealth could supply. The result is, that he has accumulated a fortune and the public has always been gratified. His greatest success has been his big production of "Faust" which this season makes its farewell tour in this country. In connection with this announcement a word about the coming presentation is permissible. It will be on a more elaborate scale than ever before. All the scenery is positively new, startling electrical effects are introduced and many novel mechanisms presented, particularly in the famous "Broken" scene. A chorus promises us classical music and the company is guaranteed to be superior to that of any former organization presenting this famous play. With this wealth of embellishments to heighten this always popular production, a presentation of unusual merit is sure to be given.

If you wish to spend a pleasant evening you can do so by attending the social at the residence of E. B. Moore, on Natchez avenue, next Tuesday evening. The entertainment is for the benefit of the Congregational church.

Sunnyside people take notice. Dr. Stephenson, dentist, will visit Sunnyside Monday, April 22nd and will remain for a few days. Those needing dental work performed remember the date.

THE YAKIMA DEMOCRAT

NORTH YAKIMA.....APRIL 6, 1901

Barbara Fretchie In Kansas.

Down in the land of Pops and corn,
On a cool and frosty winter morn,
Did Mrs. Nation the loud "ha ha"
Give the saloons in Wichita.
Roundabout her rabbies surged,
Yet always seathless she emerged;
Bravest of all in that brave town,
She tore all the bars and fixtures down,
And ever the mob set up a yell
Another bevel-plate mirror fell.
Up the street came a heavy tread,
Bold Mrs. Schilling a vast crowd led;
Under her bonnet left and right
She glanced, the wrecked bars met her sight.
"Halt!" and her followers stood fast;
"Look!" and their icy eyes they cast
At Mrs. Nation, who ax in hand,
Was smashing bottles to beat the band.
She paused a moment, and looked around.
And at the mob she sternly frowned.
"Who dares to interfere with me—
Well, just attempt it once," said she.
A deadly pallor, a sudden chill,
The leader's breast began to fill.
"Who touches a hair of yonder head
Is taking a large-sized chance," she said.
All day long in Wichita,
Sounded brave Carrie's "ha, ha, ha,"
All day long barkeeper's wives
Wisely refused to risk their lives,
And stayed their shrewdly planned attacks,
At the sight of Mrs. Nation's ax.
Mrs. Nation's work goes on,
And will, till all the bars are gone,
And ever her ax ascends and falls
Go crumbling down the barroom walls.
When she has got them all torn down
She'll journey to some other town,
And when she comes along the pike
The prudent liquor men will hike.
When Carrie's earthly work is done,
And o'er her smiles the Kansas sun,
Let this inscription, in letters bright,
Glint in the mellow morning light:
"She wasn't a handsome or cultured dame,
But there's no denying that she was game."

Playing Warfare.

It is evident from recent events in the orient that none of the powers are very anxious to get up a fight. They bluff each other at uncomfortably short range for a few days, and then the world is informed that the differences will be settled by arbitration. Nations have every reason to fully understand what is meant by a modern war, and while they are armed to the teeth most of the time, they prefer to test their new guns at some immovable object and maneuver the troops in front of dignitaries rather than rush them against an enemy. No one could forecast the frightful loss of life in an international war in this age. Our war with Spain could not be taken as any criterion, as the resistance was feeble and half hearted. But let two of the European countries start in to fight in earnest, and the bloodshed would doubtless be terrible. But the possibilities of such a war are becoming more remote every year. The fighting nations will rub up against each other for a while and then let a third one settle their differences.—Walla Walla Union.

State Fair News.

The annual meeting of the State Fair Commission was held in this city, on Monday. All the members except W. L. McDonald of Tacoma were present. The secretary and president were authorized to begin making preparations for the fair to be held September 30 to October 5. One new feature to be added to the exhibition this year will be the showing of blooded dogs. Special efforts will be made to get all the animals possible and give a fine exhibition of canines.

The board is not full because of the expiration of terms of some members. F. D. Schnebly, the Ellensburg man, has asked the governor to appoint some one to succeed him, as his time will be fully occupied in attending to private business and looking after the interests of the Pan American exposition, he being a delegate to the National Editorial association. The next meeting will be held April 15, when the board is expected to be full.

One of the important decisions of the board is to increase the premiums on plate displays by individual gardeners, fruiters and farmers. Premiums will be doubled and especial efforts made to get out all the small growers and induce them to exhibit what they produce. To this end all are asked to begin at once to plant and properly care for various vegetables in order to make a fine showing.

The Banishment of Eve.

A small colony of men who are of the opinion that women are not necessary to their happiness are about to establish themselves in a salubrious and fertile corner of the state of New York and to rigorously exclude from their midst all women, both young and old. In this way they will find peace and avoid worry. Their friendships will be undisturbed, their minds will be unruffled, their work and their amusements will show no checks, and they seem to fancy that they will all be supremely happy. Of course the scheme will end in dismal failure. The cooks may be perfect, the Chinese laundrymen may wash and mend most satisfactorily, the domestic arrangements may be thoroughly carried out by male servitors, but there is great consolation in the knowledge that man will not be satisfied all the time. He will miss being worried, he will miss having some thing at which to grumble. More than all, he will miss being admired, and as the vanity of men is even more insistent than that of woman, no man will be happy under such barren conditions.—Ex.

There appears to be a disposition on the part of the powers that be to make congress a fifth wheel to the administration wagon. McKinley is to be given all the powers of dictator and czar. He rules the Philippine Islands the same as an emperor would. He buys islands of Spain and hands over the people's money. It is now suggested that he be given discretion to choose the route for the Nicaragua canal. Of course Mr. Hanna would know in advance all about the route to be selected. What a magnificent chance for speculation? Perhaps you hadn't thought of it. Watch it.—Vancouver Register.

WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, March 29, 1091.

More crookedness in Cuba! Only a little matter of \$40,000, but doubt as to who got it is giving some prominent friends of the administration a bad case of shivers. A stockholder of the Havana Gaslight Co. has filed charges saying that a person of influence had collected \$40,000 from that company for securing a 50 per cent reduction in the tariff on crude petroleum used for the manufacture of illuminating gas. The War Department is said to be investigating the charge. There are some sensational stories going around about this case, which may or may not be true, and there are some known facts. About the first of the present month the President issued an order reducing the tariff on crude petroleum, to be used exclusively for making illuminating gas in Cuba, from \$1.40 per 100 Kilos to 70 cents, and the order was officially promulgated in Havana on the 18th inst. That order was issued on the recommendation of Gov. Leonard Wood, endorsed by Secretary Root. There are known facts and Gen. Wood, of course, should be able in the explanation he has been asked to make by the War Department to say why he recommended that reduction, and the gas company stockholder should be made to tell to whom the \$40,000 was paid. Meanwhile there are naturally rumors as well as fears that Neeley's stealing of Cuban postal funds may be petty larceny compared with other crooked financial work over there by Americans.

What to do with Aguinaldo, now that he has been captured, is greatly puzzling the administration.

Representative Warner, of Illinois, brought back the gloomiest sort of budget from his recent visit to Cuba. For instance, he said: "The Cubans will sign anything or do anything just to get us away from their property and when they have the reins in their own hands you can expect the worst. From what I could learn they will assess everybody with any money and have a division of the spoils. They will drive all Spaniards and American sympathizers from the island and for a brief period revel in loot. Law and order will become a mockery and a state of anarchy will reign. Of course, we must turn the island over, but it is a crime against humanity to withdraw at this time. When our troops leave the island you will witness a reign of lawlessness that will startle the world and compel us in the name of justice to take matters in our own hands again."

There has been so much humbug about various acts of the McKinley administration that it was a little difficult for Mr. McKinley to do anything in that line striking enough to cause more than a passing comment, but the bit of humbuggery attached to filling the vacancy on the Civil Service Commission caused by the recent death of Commissioner Brewer was a corker. Of course, it has long ago been made apparent that the professed admiration for civil service reform by the administration was cant and hypocrisy of the worst sort, but nobody supposed for an instant that Mr. McKinley would appoint a Civil Service Commissioner who had a public record showing him to be in favor of killing the Civil Service Commission. Well, that is precisely what Mr. McKinley did. Ex-Representative W. A. Rodenberg, of East St. Louis, Ill., who was this week

appointed Civil Service Commissioner, on the 17th day of February, 1900, only a little more than a year ago, voted, in the House, against making an appropriation for the Civil Service Commission, with the full knowledge that the appropriation was to be refused, if the necessary votes could be secured, for the purpose of killing the Civil Service Commission and the law under its acts. Now, Mr. Rodenberg is a Civil Service Commissioner and, unless the Senate should refuse to confirm his nomination, which is not likely, will draw \$3,500 a year salary and a liberal allowance for expenses during the remainder of the McKinley regime; and he has had the nerve to say in a published interview that he had always been a friend of civil service reform. Such humbug is disgusting.

While Mr. McKinley is racking his brains to try to satisfy the demands of the republican bosses for patronage, American interests in China are in a fair way to suffer. According to late advices from Peking, the other powers are considering the advisability of quietly pushing the United States out of the Chinese question by ignoring it in future negotiations. If the United States should be pushed out of the Chinese diplomatic door, what would become of the "open door" to American trade in China? Mr. McKinley may find the filling of a few offices a more important question than this is, but when he hears from the American people he will discover what a mistake he has made, but unfortunately that discovery will not restore the American trade with China, which is now, in the opinion of those most competent to judge, in jeopardy.

Representative Steyens, of Minn., who has recently been in Cuba, has given the annexation-or-bust men a hard nut to crack by calling attention to the fact that Cuba can produce sugar at a little more than half the cost of producing American beet sugar and for a great deal less than cane sugar can be produced by our Southern planters, and that it can produce enough of it to supply the market of this country, which means, in his opinion, that the annexation of Cuba would at once kill the entire sugar industry, both cane and beet, of this country. He is opposed to either annexation or an American protectorate.

A Billion for Pensions.

Senator Gallinger, chairman of the Senate committee on pensions, estimates that the new pension legislation strenuously urged upon the last Congress by a committee of the Grand Army would bring the total pension expenditures of the government up to the enormous sum of \$1,000,000 a year. This would be one and a third times the present annual expenses of the United States for all purposes. Fortunately for the people who pay what Congress appropriates, this proposed legislation did not go through. There is, however, every reason to believe that it will be revived next autumn and earnest efforts will be made by pension attorneys and others to induce Congress to pass it. Constant vigilance will be necessary to prevent it by those who do not care to see the National Treasury looted.—N. Y. Herald.

Why the Boers Refused.

In the British offer to the Boers, unexpectedly liberal as it was in many respects, amnesty was refused the Cape Dutch who took up arms for the republics and who now constitute a very considerable part of the armies of Botha,

De Wet and Delarey. That is, the British demanded that the soldiers of the republics abandon to imprisonment and death their comrades-in-arms who had made the greatest sacrifices for the cause of liberty.

Our own experience in the civil war, indeed the simple teachings of common sense, might have shown the British that they would lose nothing by a general amnesty that would "let bygones be bygones." Certainly they could hardly expect men who have shown such high nobility of character as have the Boers to make terms that would involve a betrayal of their faithful, if overzealous, kinsmen and friends just over their borders. Would Englishmen anywhere in the world do that?—N. Y. World.

English Tribute to the Boers.

(William Watson.)

Unschool'd in letters and in arts un-
versed;
Ignorant of empire; bounded in their
view
By the lone billowing veldt where they
upgrew
Amid great silences; a people nursed
Apart, the far-sown seed of them that
erst
Not Alva's sword could tame; now,
blindly hurled
Against the march of the majestic world.
They fight and die with dauntless bosoms
crushed.
Crazed, if you will; demented, not to
yield
Ere all is reft! Yet, mad though these
may be,
They have striven as noblest Englishmen
did use
To strive for freedom; and no Briton he
Who to such valor in a desperate field
A Knightly salutation can refuse.

Our Change of Nationality.

Why is there only one child born in so many families? It seems sad for the one child, and it is certainly unfortunate for it, that it has no child company. Has God, the great Father, changed his law of average families? It was once the rule that their would be seven or eight children in a family, but now in civilized countries there seems to be only from two to three as an average number. In the United States three and a fraction is the number of children per family for the whole country. If therefore the (say) four million people of 1776 had not been added to by white immigrants, there would have been only about one-half million white people now in the territory called the United States, instead of nearly seventy millions. This appears, because death takes of the young such a number, that it requires that five children be born into a family, so that when the parents die, there will be left alive two; therefore, needing five children born into each family as an average number to just maintain the number of the population as reckoned at any given date. It follows therefore, that the present sized families will produce a decrease in the population of 40 per cent, every generation nearly. Or, in other words, we need 60 per cent of immigration to just maintain our number for each generation of about 33 years time.

We are changing our nationality every generation at least. In fact we have changed several times more than that. At first we might have called ourselves English, but immigration has changed so that it may have been Irish, German, Norwegian, Spanish, Italian, negro, or French Canadians, in large sections, and it is the dominant nationality that shapes the so-called national behavior and tone.

Every generation we are more thoroughly overcome in peace, than any war of subjugation could. If a foreign people invaded our country three times every hundred years, successfully, it would not be so complete an overturning in its practical effects, as the way it is now in peace, because eighty foreigners in peace most certainly will dominate the twenty natives completely, for they are all called American citizens, and the majority would rule over the twenty more effectually than they would or could if they came in as subjugators in war.

EVERY DAY adds to the list of deaths attributed to heart failure. If the truth were told the bulk of these deaths might be written down as due to *stomach failure*. For it is in the failure of the stomach and other organs of digestion and nutrition, that "weak" heart, "weak" lungs, "weak" nerves and other forms of physical deterioration have their beginning. The man whose stomach is sound, who can digest and assimilate the food he eats, and so keep each organ of the body well nourished, is the man who is least liable to collapse under the sudden weakness of some vital organ.

The preservation of health which follows the use of Dr. Pierce's Golden Medical Discovery, is chiefly due to the fact that it perfectly and permanently cures diseases of the stomach and organs of digestion and nutrition, purifies the blood and increases the blood supply of the body. Weak people will find in this medicine a sure means of strength.

There is no alcohol contained in "Golden Medical Discovery" and it is absolutely free from opium, cocaine and all other narcotics.

"I was under doctors' care for quite a time," writes Mr. J. F. Kidd, of Parmleysville, Wayne Co., Ky. "They had almost given me up, and my suffering was very great. My pulse was weak, breath short and I had severe pains in back, head and legs. Had palpitation of heart, and for eleven months I was not able to do a day's work. I purchased five bottles of Dr. R. V. Pierce's Golden Medical Discovery and by the time the fifth bottle was gone I was a well man."

lation have done since the rebellion, our descendants from George Washington's day ought now to number about sixteen millions instead of one-half a million. Our vast landed inheritance has necessarily been given to strangers. Is it any wonder then that European customs about the Sabbath, intoxicants and governmental methods should prevail to the extent that they do? A little thought along this line will be a matter of serious problems for the patriot who sincerely loves his country.

In ancient days the blessing of God was reckoned by the number of children He gave as well as by other physical and moral favors and the Bible mentions such as marks of God's blessings. Some people now would call such blessings as evidences of curses.

Paying Old Scores

If reports be true, Leigh S. J. Hunt of Seattle is a very worthy and unusual man. Five or six years ago he left Seattle in a bad way financially, being one of those whom the hard times left broke and in debt. He went to Korea and built a new fortune. Meantime his debts were outlawed and he could probably have settled at ten per cent. But he came back and paid every dollar with interest, and one institution is said to have received \$62,000 as a consequence of Mr. Hunt's return, according to the White River Journal. This is the only notable case of the kind that we have heard of on Puget Sound, a region which has certainly been fruitful of many such opportunities.—Whatcom Blade.

THE RESERVE QUESTION.

A Communication From Mr. Shoemaker.

EDITOR DEMOCRAT: My business as a press correspondent is to furnish the news, with the industrial, commercial and agricultural development of the country. In doing this I have given Yakima valley thousands of dollars in advertising in the leading papers of the State and in many eastern publications of prominence. The people as a whole, appreciate this and are thankful for my efforts in their behalf. It is also my duty to draw attention to the public evils that threaten the lives and properties of the people. Some of the best men in the county have informed me that the snow fall in the mountains is light and there will be a water shortage this season especially in the Wenas, Ahtanum and Cowlitz valleys. I have published this fact as a duty to the people. Because of this, some individuals take it upon themselves to publicly abuse me, thus showing their ignorance and exhibiting personal hatred not characteristic of the highest type of man.

Official measurements show that the water is annually decreasing and men who have investigated the Rainer forest reserve and country tributary state that the vegetation is being destroyed every year through sheep grazing. Now, because I warn the people of this threatened danger I am made a scape goat for personal abuse. This does not alter the fact that the farmers are getting alarmed over the destruction of the watershed and does not make an argument in favor of continuing sheep grazing on the reserve. In California the people have expelled sheep from the watersheds, in Utah they are asking for the creation of reserves in order to prohibit grazing and in this county they must do something at once to protect the forests. The people are with me on this proposition and I had rather have the people on my side than own the reserve.

YAKIMA'S MUSICAL GENIUS.

A Tacoma Paper Pays a Deserved Tribute to Miss Daisy Boyle.

The Tacoma Daily News in its issue of March 30th contains a sketch of Yakima's musical prodigy, Miss Daisy Boyle. The half tone picture of the young lady which the News presents is hardly so complimentary, as it does not do justice to the fresh beauty of the fair young musician. The comment of the News is as follows:

"The News presents herewith a portrait of the famous musical prodigy of North Yakima, whose name and face are familiar to many prominent society and musical people of Tacoma. Her name is Lilly Amony Boyle. She is in her nineteenth year, and is admitted by all who have heard her as the most wonderful piano soloist in the Northwest. She was born in Sherman, Texas, and is a natural musician. The only instruction she has had was from her mother and Mrs. Guy MacL. Richards, the latter being the most finished and capable piano instructor in Central Washington. Daisy, as Miss Boyle is known, has an astonishing insight for one so young, into the harmonies of the great musical masters, and plays with a magnetism and delicate ease that is the wonder of competent judges. The general decision of those who have heard her is that she is

a genius, and she certainly is possessed of an infinite capacity for detail, which is the distinguishing mark of genius."

The Steel Trust's Two-Edged Sword.

Our Consul-General at Melbourne transmits interesting particulars of the deal in steel rails and fish-plates, briefly announced by cable in December last, between the Victoria Government and Illinois Steel Company.

Requiring 17,440 tons of steel rails for the Government railways in Victoria, the Agent-General of the colony in London (Sir Andrew Clarke) was directed to advertise for bids. Six tenders were received, and they included bids from English, German and American steel mills. The price per ton asked by the English and German bidders is not given by Consul Bray, but the Illinois Company's bid, which was \$28.65 per ton, was much the lowest, and was at once accepted.

When the freight charges from Chicago to Victoria are allowed for, the \$28.65 per ton charged for the rails delivered in that colony is much less than the \$26 per ton charged for them in the United States. The Dingley tariff is thus seen to be a two-edged weapon of world-wide efficiency. One edge is turned against the German and English competitors of the Steel Trust abroad, and the other against the American people at home.—N. Y. World.

A resolution for a sidewalk along lots 9 to 16, inclusive, in block 67, was unanimously agreed to.

A resolution for a sidewalk assessment district from block 104 to block 110 was voted down.

A resolution calling for payment of assessment for laying sub-sewers on Sixth street was ordered published in the official city paper.

An ordinance establishing a local improvement district on Yakima avenue from Natcheez avenue to the eastern

city limits was carried to final reading and passed unanimously.

Ordinance No. 306 excluding Park addition from the city limits, in accordance with the result of the recent election, was put upon final passage and was unanimously passed.

Rev. Dr. Hayden addressed the council in behalf of the Presbyterian congregation, desiring permission to put a \$500 wood addition to the present church structure. This was clearly beyond the power of the council to grant unless the fire limit ordinance were first amended, and the matter was clearly expressed accordingly.

The bid of the DEMOCRAT for the city printing was unanimously accepted and the paper made the official organ of the city for the ensuing year.

A petition for the construction of a sewer on Selah street, after considerable discussion was laid on the table. The petition was warmly advocated by Richard Strobach and others.

The poll tax ordinance was so amended that all must be paid in cash.

Bids for grading Yakima avenue east to the city limits from Natcheez avenue were read. Aumiller and Hines offered to take the job at 67½ cents per lineal foot, and Wm. McKivor's bid was 66 cents per foot. The latter bid was accepted and contract awarded.

The city marshal, on motion of Sinclair, was instructed to arrest all draymen who had not paid the license fee, also to collect cigarette license from all dealers, as provided by the state law and city ordinance.

A desultory talk, engaged in by nearly everybody in the house, occurred over the Sixth street grade, but the matter was left about as when taken up.

In response to a demand from bootblacks, the city attorney was instructed to draft an ordinance licensing that line of industry. The council then adjourned.

Commandery Comes Here.

It is announced that the Ellensburg Commandery of Knights Templar will shortly be removed to this city, the matter having been settled at a convocation held in Ellensburg last week. The local Knights are sanguine that the Commandery will flourish like a green bay tree after they get it removed, but what is worrying them just now is where to procure a home. The lodge room in the Syndicate building where the other Masonic bodies meet is already taxed to its full capacity, being in use every night in the week. It is possible that the different Masonic organizations may conclude to all go in together and build a temple suitable to their needs.

Farmers

We want you to raise more good potatoes. We will buy them at good prices. We can't fill half our orders for good, smooth Yakima potatoes. Why so? Because Yakima farmers have planted old, run out stock year after year till the result is a rough, scabby, small and scrubby good-for-nothing spud. Don't repeat it again. We have just shipped in three carloads of Oregon and California Burbanks, large and small seed from red and black soil. Also Oregon Early Rose for early Northern shipment this fall. We will sell them low to introduce as many as possible in large or small quantities. J. M. PERRY & Co.

The city council has instructed Street Commissioner Chappell to collect all poll taxes in cash this year and to allow no man liable for the tax to escape payment. At the last meeting of the council Mr. Chappell reported having collected \$130 for what time he was engaged in collecting in April. Sheriff H. L. Tucker returned home from Spokane Monday, where he had been waiting for the recovery of the highwayman injured in an attempt to rob the Taylor boys near Prosser last week. The man was found to have sustained a dislocated hip, and the hospital surgeon refused to allow him to be removed. In some mysterious manner the prisoner disappeared from the hospital, although previously he could not walk and the sheriff had to return home alone.

Indian Agent Jay Lynch informed the DEMOCRAT on Wednesday that Secretary of the Interior Hitchcock had positively declined to recede from his ruling against leasing lands on the Yakima reservation for a longer period than five years. In fact, the secretary states that he will approve five year leases only in exceptional cases. Mr. Lynch says that the ruling will not have a particularly bad effect this year as the land already under lease will require all the water that can be furnished.

The most bitter partisan denunciation of the administration and its policies which has appeared in the papers lately was an interview with Senator Turner on his return from Washington. You can always trust a renegade to point out the weak spots of his old friends.—[Yakima Republic.]

Now Brother Robertson knows just what that means, having been a former democrat he well knows the meaning of the word "renegade," and if there is a fellow in this state who tries harder to show up the weak points of his old friends, even though he fails, we do not know who he is.—[Tacoma Sun-Democrat.]

Tellers and clerks of savings banks have a rare opportunity to study human nature. All sorts of people, with many strange notions of the methods and purposes of banks, come before them. A teller of a Boston savings bank tells a true story of a good Irish woman who came to the bank to open an account.

"Please write your name on that line," said the official, pushing toward the woman a book and a pen.

"Do yez want me first name?" she asked, taking the pen in her hand.

"Yes, your full name and middle initial if you have any."

"Do yez want me husband's name?"

"Yes, his last name, but your own first name."

"Oh, me name before I was married?"

"No, your given name—Ellen or Bridget?"

"Sure, then, me name is nayther wan o' them!"

"Well, what is it then?"

"Sure, it's Mary."

"Very well. There are others waiting for you, so please hurry and write your name."

"Ah, sure, do yez want the 'Mrs.?'"

"No, never mind that. Now go ahead."

"Ah, sure, mister, I would, honest, but ye see I can't write!"—Youth's Companion.

Most editors have their own special method of declining contributions, but for a terse and pointed rebuke we have heard of nothing better than the letter lately received by a well known author. As a rule, his stories are wholly unobjectionable, but in this particular case he gave himself a little more license than usual and produced a story which, though quite moral, was not altogether suitable for family reading. He sent it to a magazine editor with whom he was on friendly terms, and the manuscript was promptly returned with the following note:
