El Monte, Calif., 91733

January 30, 1967

Dear Lynn:

I suspect that Tom Papaleo and crew have been busy moving into the new Classic Bronze foundry, and if I had the address, I'd write Tom directly.

I've been hoping, each mail, would bring the mockup of the Miss S.I. Anthon memorial plaque so it could be approved and work get under way on it.

Workmen are now engaged in quite extensive remodeling operations in our newsroom and it would be nice to have it lined up in that connection.

Enclosed is a small picture of ~~x~~ a wax model I'm puttering around on, coming along pretty good too. It is 14 inches high.

Can Tom give me estimates: Bronzing (and casting) for 7 foot bronze; 8 foot bronze (and 14 inch figurine?)

Hope things are going well with the new setup, and that mockup comes through soon on the Miss S.I. Anthon memorial plaque.

Sincere Regards
