Dear friend Click:

Thanks a lot for the two clippings you sent. I caught up with one of them last Friday on my way to Spokane, I was taking the train over and got off at Yakima long enough to get a copy of the paper. You folks have certainly done a very fine job in cooperating with the Centennial in general, and local history in particular.

This morning I came down town early and got only a quick look at the P. I. I saw a story and picture in there which I will read later in the day.

I trust you didn't get seasick from the journey and am sure you picked up some very interesting information.

Yours fraternally,

*Chapin*
