Dear Click,

Thanks so very much for forwarding one each of the three photographs taken by the HERALD. I think you must have misunderstood my first letter; I did not want to borrow the negatives, I meant that one time in March of 1949 I went to the HERALD office to have some prints made of the one used in the article by you, SUNDAY HERALD of Feb. 27/49, and the HERALD office told me that they could not supply any prints as they did not keep negatives. BUT undoubtedly they do for you certainly got some prints---not of one negative, but THREE! Good boy !

Well, as I said before I do not expect you to supply these to me "for free" and now that I have seen them all, I would like to have just SIX more prints of the one used in the issue referred to above. I am enclosing the clipping so that you can pass it to the photographer and he will then know which one I want. Incidentally this is my LAST clipping of this and so when you are through with it please return it in your next communication. After one has passed away all these things become more precious and irreplaceable. More than I can say, I certainly appreciate your getting this information and arranging for the extra prints. Of course I like the whole uncropped photograph like you sent, but if your photographer will print my photos on a MATTE paper instead of the Glossy I'd prefer it. Also if he would like to enlarge ONE of the six I am ordering, I would like that too ! But in any case I don't want the enlargement cropped. Print or enlarge the whole negative.

Also--if they will---why don't you have them just mail them to me directly, with invoice (including the 3 already received) and then you won't need to bother with it again.

Sorry to learn that you two were not together at Christmas. Hope the New Year was better in that respect, and also that this year will prove to be the BEST of your lives. Please consider the possibility of visiting with us next time you are over this way, either each alone or together. If we knew ahead of time that you were coming we ~~you~~ could do better still. Anyway, do keep in touch with us. And Click, I hope the Book is going very well.

Cheerio---and with best wishes,
Sincerely,

Alex
