OFFICIAL PAPER OF NORTH YAKIMA

MR. ENGLEHART might well exclaim, "save me from my friends." We refer of course to the attempt that was made last week by our esteemed contemporary the Republic to bolster up his legislative record. The usually brilliant colonel has presented us with a certificate of good character which we highly appreciate, but in his labored attempt to likewise present one to our mutual friend the "gentleman from Yakima" he seems to slip a cog or two. The editor says "it is easy to find fault and that it is the nature of some men to criticise their political opponents." All of which is very true, but who is attempting to interject politics into this matter? Certainly not this paper. We have passed some criticism upon Mr. Englehart's vote and record on the railroad question in the late legislature, but we have not done so for political effect; neither have we been actuated by malice. We have merely given fair and free expression to the general sentiment of disappointment which no man can successfully deny exists among all classes of people in this county over the failure to procure relief from burdensome freight and passenger tariffs. It was Mr. Englehart himself who made this question an issue in politics. His eloquent voice was raised from nearly every rostrum in this county in denunciation of the unrighteous burdens that laid so heavily upon the backs of our people. By all that was "good and holy" he promised that if elected he would do his utmost to reduce freight rates. The people elected him by a vote that surprised him. In order to elevate him they remorselessly turned down a man who is acknowledged to be both honest and able; but Mr. Englehart was chosen because he is a "brilliant and influential man." The Republic says, "he did not fail at any time to speak and to vote as the interests of his constituents required." Why mock the people in this way? Is not the record an open book that can be appealed to? It would indeed be better to say that the people need no relief at all. The organ intimates that our representative was very busy doling out appropriations and had no time to fool away with railroad bills. Too

bad that he allowed himself to be sidetracked in fruitless talks about state roads etc. As for THE DEMOCRAT's criticism of the gentleman's course, it might be likened as the dew from heaven compared to a thunder shower, alongside of the judgment that is being passed upon him by members of his own political party. It would have been better indeed had the organ kept silence. 'Tis a painful subject.

DOES any body know what has got into the P. I.? The leading republican organ of the state has been acting strangely of late and there is consternation in the ranks of the G. O. P. Whats the matter with Hanna? He's all right, we've been told all along, but the P. I for some reason has lately changed its tune and now seems to think that Hanna is all wrong. In a recent issue it warns the "warwick" of the administration that he "must stand aside" otherwise he might be stepped on. In a later issue Mark is cartooned in the act of clinging to the elephants (republican party) tail with the unwieldy animal attempting to escape from him. The picture is not true to life. The great Marcus should have been represented astride of the animal as more in keeping with the political situation. But what can be the motive for this sudden attack on the great Moloch? What means these signs of rebellion. Does it mean that a conspiracy has been formed to unhorse the great commander of the faithful and that the Seattle organ is merely doing its part? Or does this smoke all come from a fire kindled merely by a personal grudge. The paper's course in the future will be watched with the keenest interest.

LIEUTENANT GOVERNOR DANIELS and his bright newspaper, the Vancouver Register, will be welcome in the democratic fold. In another column we quote from the last issue of the Register in which Mr. Daniels says: "It is the duty of every patriot, regardless of all former political affiliations, to go at once to the NEW DEMOCRACY. Get ready for the battle of 1900 and rally to the support of the representative party of the people." The Lieutenant Governor's advice is both timely and wise. While he does not say so, it is plainly evident that he believes that there is no resurrection for the populist party in either state or nation and that the only hope of relief for the masses of this country is through the success of the democracy. Mr. Daniels has made a good start. He wields a trenchant pen and will prove a valuable recruit.

WEDNESDAY'S Tacoma News contained a splendid double cartoon representing the two wings of the democracy in banquet at New York. The picture is a striking one and well exemplifies the great differences that divide the party and renders harmonious action impossible. At the Jeffersonian board the great Bryan is the central figure, surrounded by some of the leading lights of the new democracy. The other half of the cartoon represents the \$10-a-plate crowd, consisting of Cockran, Gorman, Belmont, Cleveland, J. P. Morgan and other silk stockings, with Croker, the corrupt king of New York, at the head of the table. A glance at these two pictures ought to convince the most skeptical as to which class represents the true democracy.

THE steamship Tacoma, which reached the sound last Sunday from oriental ports brought over a cargo of 327 Japanese laborers, most of whom are believed to be laborers who arrived under contract to work on railroads. This has been the second or third consignment to arrive lately, none of whom had any difficulty in passing the custom officers. Are we to be over run by a horde of Japs as we were a few years ago by the Chinese? There ought to be some way of keeping these undesirable people out lest they become a plague upon us.

A retired Yakima editor advertises that he will induct embryonic editors into the mysteries of journalism for an honorarium. What is needed is for some one to direct his energies to the handle end of a grub hoe. There is more in it.—Herald.

The above fling which was intended for an honored citizen and a respected member of this community illustrates the conception that some people have of the functions of a newspaper. It is dirty journalism. An organ that employs such methods must necessarily be in its decadence.

LET us by all means have a State Fair this year and endeavor to have a good one. All of the conditions will be more favorable this year than last for the success of the enterprise; especially so if the governor sees fit to reappoint the two members of the commission whose terms have expired. These gentlemen have gained some valuable experience, which new men would have to learn.

WE publish in this issue a letter from the late Ralph Van Buskirk; which will doubtless prove of interest to our readers.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, MARCH 25TH, 1899.

Senator Thurston, of Nebraska, isn't one of those wild republicans who regard the presidential election of next year, as already settled. In an interview, Mr. Thurston said: "The Presidential battle next year promises to be lively and exciting. McKinley will probably be renominated and I presume that Bryan will head the democratic ticket. I believe that the republicans will win if we stand together and work hard, but our democratic friends will undoubtedly put up a stiff fight. We must not indulge ourselves with the delusion that we are going to have a walk-over."

Secretary Alger doesn't appear to care anymore about being consistent than he did about the welfare of the soldiers during the war. Several days before congress adjourned, Alger announced that the junket he had intended to conduct to Cuba and Porto Rico was off, because his official duties would prevent his leaving Washington. Of course, it was well known that Alger abandoned the intended junket because he failed to get a sufficient number of democratic senators and representatives to accept invitations to accompany him. But for consistency's sake, it was supposed that Alger would remain on duty and make a bluff of being busy. Not he. He left immediately after Mr. McKinley did, for a trip to New England, which was extended to Canada, and this week he is going to start for Cuba and Porto Rico, but he won't carry any congressmen with him. He says he is going to pay the expenses of himself and the two men who will accompany him, but it would require the vouchers for the payments to convince the public.

Private news from the Philippines indicates that the administration is again juggling with the public in regard to the situation. While no official dispatches have been quoted, officials have talked so as to leave the impression that the reports of Gen. Otis, since the victories of the past week have been to the effect that Aguinaldo's army is about ready to ask for terms and that a general collapse of the rebellion may be looked for at any time. Owing to the strict censorship, no private telegrams dealing with the conditions existing, can be sent from Manila direct, but some have been sent to Hong Kong by boat and cable from there, which do not take such a rosy view of the situation. According to these, the war is a long ways from being over, and the only effect that will follow thrashing Aguinaldo's army, which our troops do every time they come into contact with any portion of it, will be to transfer the fighting ground to the hills and bushes, where it will be difficult for our men to get at them except when they choose to be got at, and possibly to other islands of the group. There is a nightly panic in Manila and most of the white women and children have been sent away for fear of a native uprising. Time will tell which is correct, the official or the private view of the situation. The Oregon has arrived in Manila Bay.

An Appeal to Patriots.

The republican party is impoverishing the people and through its machinery has turned the government over to a money-making mob. The transition through which we are now passing threatens the life of the greatest Republic, the best government, the world has ever known.

It is the duty of every patriot, regardless of all former political affiliations, to go at once to the new democracy. Get ready for the battle of 1900, and rally to the support of the representative party of the people.

On the one hand is the Money Power, enthroned in the White House. On the other is oppressed humanity, struggling against the trusts and Monopolies which, octopus-like, are encircling them in their myriad tentacles. Amid the desolation of their hearthstones arise the cries for relief of the toilers of the field and shop.

The wool and cotton trusts, the shoe and leather trusts, the sugar trust, the coffee trust, the meat and milk trusts, the oil trust, the iron and nail trusts, yea the coffin trust, and 112 other new and frightful monsters, unknown to any past age, born at the maturity of the republican party, suckled upon protection, fattened upon bounties, have developed that strength when they exact obedience from the maternal agent who gave them life, and compel the trembling parent, in the name of the American people, to allow them continued existence.

The Register proposes to stand by the common people, to advocate the principles of the grandest existing party, the new democracy—to be what a republican paper was thirty years ago, and to demand a government by the people, not by the machinery of a party.—Vancouver Register. (Pop.)

From Ralph Van Buskirk.

The following letter was received this week by Willie Iler from the young soldier who has since been killed by the Filipinos.

SANTA ANNA, FEB. 20TH, 1899.

DEAR OLD CHUM:—I can never tell you how pleased I was to receive your letter and the presents accompanying it. In fact dear boy you never can know any thing about it until you get 8000 miles from home and friends where it takes over a month to get a letter. If you ever get in the same box I hope I may have the privilege of throwing a ray of sunshine over the gloom, but if that is impossible heres hoping that you may find many friends as kind and considerate as you have been to me. The photo is a good likeness. Receiving the picture was the next best thing to shaking hands with you. Well, I am now at the guard house. I have stood guard for an entire week without a days lay off and I am so sleepy that I can hardly keep my eyes open. Of course you have heard long, long before this reaches you how we "did" the Insurgents on Sunday morning Feb. 5th. I went through it without a scratch although the bullets dropped all around me just like hail. But fate dealt kindly with me and I am still in the land of the living. I wished I could say the same of all our boys, but I cannot four of our boys marched into that fight never to return. Frank Smith, George Reichardt, Matt Cherry and Ralph E. Shearer are the four precious lives, the price Co. E paid for her victory, a price far to costly. Of course you knew Matt, and I think perhaps Ralph Shearer. Poor mothers! God pity them. It is terrible sad and hard to bear for us, but how much harder must the blow fall on the loved ones at home! Matt Cherry was shot in the head. He was aiming his rifle. The ball struck the hammer glanced, struck his eye and passed through his head. He did not utter a word. Smith was shot in about the same way. Shearer was shot in stomach, only a flesh wound and we thought he would get well, but he died the next morning. Reichardt was shot through the breast. Walter Fox shot through arm, is all right now. One or two other boys received slight wounds. About 60 were killed on our side, all told and the Insurgents lost not less than 6000. My but we did slaughter them. I spent that Sunday a little different than I am used to spending the Lord's Day and I never want to spend another one in the same way so long as I live. We drove the enemy a way back in the country.

Our army is now in trenches just outside the walls of San Pedro Macati about two miles and a half from Santa Anna. There is a great deal of firing every night but not much damage done. Last Tuesday word was brought down to Santa Anna that the Insurgents were corraled nine miles up the river and that assistance was needed, so right after supper the Washington regiment started on a forced march for the scene of action. And the pace we took was terrific and the night was as dark as the River Styx. Mile after mile we stumbled on, conversing only in a whisper. We reached our destination about 10 o'clock and although I was tired enough to drop in my tracks, I was put on vedette guard all night long. Got just one hours sleep the entire night. Well, the next day we climbed around, up and down steep hills all day long. The Insurgents were in the valley below us, but we did not get to attack them or fire a single shot. We retreated to San Pedro taking the same double quick time that we did on going out and when we arrived at San Pedro I

was so tired and blistered that I could hardly walk so I got permission to go back to quarters to rest up. I was put on guard the day I came in and have been on guard ever since. I tell you that march was a fright. All the boys agree that it was the hardest service we have ever seen since enlisting. Another days work of that kind and half the American army would be in the hospital.

You say you would like to be here. I don't think you would, I tell you Will, its hot down here. I never knew what hot weather was before. Its hot enough to boil eggs. As one of the boys expressed it: "Its so hot that the chickens have to eat cracked ice to keep from laying hard boiled eggs." Well anyway, several of the men have keeled over from the heat. Thursday the 15th was a terror, the men were brought in from the lines by the wagon loads, overcome by the heat. They do not seeme to be made of as tough material as our Regiment.

Well old boy, how did you enjoy your trip to California? I wish you could have taken the trip overland, it is grand. The scenery along Shasta Springs and through Northern California is magnificent beyond expression. It would be foolish to ask you if you enjoyed the visit. The boy that wouldn't enjoy a visit with his folks is an unnatural son. I only hope you enjoyed your visit half as much as I expect to enjoy my home coming if I am lucky enough to ever get home. I expect to have a fine old time when Co. E comes marching home. We expect to do nothing and live on peaches and cream. In your next you must tell me all about your vacation. How you found your folks, what you did, I mean how you passed your time. How do you like California?

You telling about snow and skating makes me sick. Say but I do long to go gliding over the ice in the face of a cutting breeze, or taking some of those moonlight rides that we used to have in the bonny days gone by, and you bet I would like to play shinny, even if I did get my shins cracked a few times. But you can't have it all your own way. How would you like to be able to go swimming in the middle of February, or eat roasting ears, young onions, radishes, lettuce and greens in the middle of winter? The Pasig river runs right in front of our quarters, about 100 yards away and swimming is out of sight. We go in almost every day and have a great time. And as for the vegetables we can get them any time we want to.

Yes I have heard about Yakima's growth, she's pushing right to the front isn't she? I would liked to have seen Brother and sister Rose very much. Brother Rose promised to write me but he has failed to do go thus far. I get fine tetterers from Brother Stephens and Brother Utz every once in a (great) while.

Well your new pastor is there now and from what I can learn he must be a fine man, just the man for the place. You young people must get right beside him put a hand to the wheel and move that Yakima church as it never has moved before. I expect to hear that this will happen. I know that you will do your share. You must not disapoint me Will. I am trying to do better too Will. Its all any of us can do, its all our master expects us to do. Each day I try to do better than I did the day before. God knows how far short I fall from being the christian that I should be but with the masters help I continue to try and try and try. We must not expect to do it in our own strength but in the strength of the all powerful we can succeed. We must go to him in prayer. May God give you strength to over come is the prayer of one who knows what it is to suffer temptation. Well I must close as mail leaves to night. Remember me to all the boys.

Affectionately your friend,
RALPH.

State Press Comment.

This year the government will fall one hundred and eighty millions of dollars short of paying current expenses notwithstanding the gold standard, the Dingley tariff and the war tax.—Aberdeen Herald.

A republican victory in this state has always been a victory for the railroads, regardless of anti-railroad planks in their platforms. The anti-plank is put in to catch suckers and it is a successful bait.—Ellensburg Dawn.

Governor Rogers is stronger with the people of this state today than at any time since his inauguration. His courage and honesty stand out in bold relief when brought in contrast with the truckling cowardice and rank corruption of a shameless legislature.—Walla Walla Argus.

Can it be that the P.-I. is paving the way to a flop into the populist camp? Anyway, it has been feeling the public pulse ever so tenderly of late and is endeavoring to throb in perfect unison with that pulse. In its eyes Hanna is no longer an angel, Reed is a Czar, McKinley a weak man, absolutely afraid of his own expansion shadow, and it says the railroads owned the state legislature.—Seattle Herald.

It is now given out that Hon. William Sulzer, of New York, will be the leader of the democrats in the next congress. This would be a happy solution of the democratic muddle in New York—and would mean that New York bimetalists were to, in future, ignore Hill, Croker, Sheehan, Cleveland and Belmont. And it might also mean that Congressman Sulzer would be the nominee on the democratic ticket for vice-president in 1900.—Seattle Review.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was. Free trial bottles of this Great Discovery at Louis O. Janeck's store. Only 50 cents and \$1, every bottle guaranteed.

Death by Accidental Shooting.

The news was received in this city on Sunday of the accidental killing of a young man named John McMonigle near Prosser on the morning of that day. The unfortunate man, together with a man by the name of Bender, and two other friends started out for a hunt, when Bender, discovering a bird raised his gun to fire, but happening to stumble discharged the piece prematurely, McMonigle who stood a few feet in advance receiving the charge in his side, killing him almost instantly.

Deceased leaves a wife and two small children to mourn his untimely death. A coffin was shipped from this city on Monday and the remains were brought to this city and buried on the following day. A Prosser justice of the peace summoned a jury and held an inquest on Sunday which returned a verdict of accidental death. Coroner Rosser who was ignored in the matter wrote a sharp reprimand to the J. P. for not having notified him.

History of Alfalfa.

Alfalfa, or Lucern (*Medicago sativa*), has been cultivated as a forage plant for more than twenty centuries. It is a native of the valleys of the central district of Western Asia, having been found in an apparently wild condition in the region to the south of the Caucasus, in several parts of Beloochistan and Afghanistan, and in Cashmere. It was introduced into Greece at the time of the Persian war, about 470 B. C. The Romans often cultivate it as forage for the horses of their armies. It was in especial favor with them as a forage crop during the first and second centuries, and its cultivation has been maintained in Italy down to the present time. From Italy it was introduced into Spain and the south of France. It was carried from Spain into Mexico at the time of the Spanish Invasion, and thence to the west coast of South America. It was brought from Chile to California in 1854, and from there it rapidly spread over the arid regions of the Pacific Coast and Rocky Mountains, where it is now cultivated almost to the exclusion of other forage plants.

Lucern was introduced into the state of New York at least as early as 1820, or more than thirty years before it was brought to California; but it has never been so extensively cultivated there as on the Pacific Coast.
