## FOREWORD

In the past few years the Commercial Fishing Industry has become one of the state's biggest industries. Now, over 70,000 people of this state are employed in some phase of catching and processing fish and sea foods in our waters and in Alaska.

The value of this year's catch (including our participation in the Alaska Fisheries) is estimated at 330 million dollars. This figure approaches the annual volume of our lumber and forest industries and the annual volume of our farms and orchards.

The Commercial Fishing Industry, much like our farming, dairy and fruit industries, is made up of thousands of small businesses, boat owners and processors, all independent operators and individuals who have equal rights to the Northwest's annual harvest of fish and sea foods.

It is important to the welfare of the state and to you who make up our fishing industry that its opportunities remain available to all—entirely free of the special favoritism and monopolistic privileges that have in the past depleted many of our great resources and usurped the opportunities for their development.

It is important, too, that catch limits, regulations and propagation measures be provided and enforced so that all may be assured high levels of abundant and profitable yield.

For your protection the state requires all those engaged in catching, processing, wholesaling and retailing our sea foods to secure licenses and permits and imposes privilege taxes on the various species.

It is the duty of the State Treasurer to collect these privilege taxes and to issue and collect for the licenses and permits required.

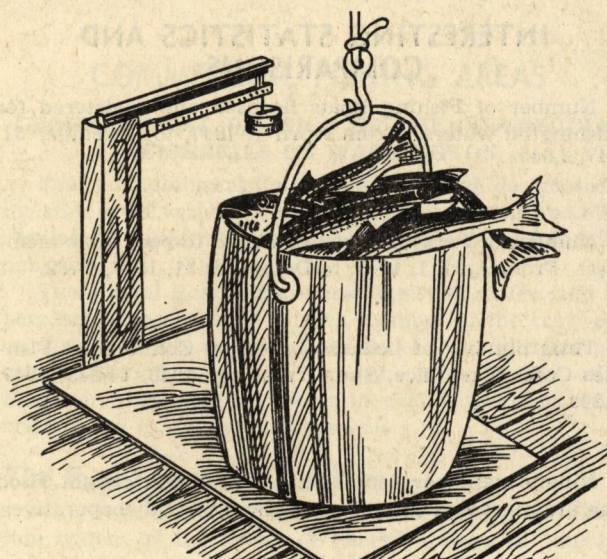

You will find this pamphlet helpful in determining the licenses and permits needed for the boat, the crew and each type of gear used—licenses and taxes for processing, wholesaling and retailing seafoods—licenses for commercial oyster, clam and crab taking and other phases of the state's commercial fishing industry. It will also help you understand the procedures and duties of the Fisheries Collector's Office of the State Treasury. For your convenience the State Treasurer maintains a special office in room 1318, Smith Tower Building, Seattle, to handle, exclusively, applications and issuance of licenses and permits and to collect the privilege taxes pertaining to the fishing industry.

Here you find all the necessary forms and a well informed, courteous staff to answer your inquiries and assist you in your problems.

*Russell H. Flaen*

State Treasurer.

Note: This pamphlet is not intended to be an annotation of the Food and Shell Fish Laws of Washington, but merely a helpful guide and handbook of the duties and procedures of this office pertaining to licenses, registrations and other related taxes. Annotated Laws relating to Food and Shell Fish may be had by writing to the Department of Fisheries.

## COMMERCIAL FISHING AREAS

### GEOGRAPHICAL DIVISION OF THE COMMERCIAL FISHERIES OF WASHINGTON

Four commercial fishing areas have been designated in the state with variations in catch limits, seasons and other regulations conforming to local conditions and propagation habits.

The annual Boat License and Registration fee, and the personal licenses issued to each member of the crew permit fishing in any or all of these areas. No additional permit is needed to move from one area to the other. However, there are variations in gear regulations which are covered in following pages.

#### The Puget Sound District

The Puget Sound District includes Puget Sound, all the tide waters of the Strait of Juan De Fuca, all the tide waters of Georgia Strait, all the tide waters of Washington Sound, all the tide waters of Puget Sound and all other tide waters emptying into Puget Sound and all the bays, inlets and estuaries of Puget Sound.

#### The Columbia River District

The Columbia River District consists of all waters of the Columbia River and its tributaries within the confines of this state.

Columbia River Mouth Defined: (Sec. 5663A, Rem. Rev. Stat.) For the purpose and computation and determination of any statute, rule or regulation with respect to the fishing industry in the State of Washington or upon the Columbia River, the mouth of the Columbia River is hereby established and declared to be as follows:

Beginning at the present outshore end of the north jetty of the Columbia River to the knuckle of the south jetty on such river, which knuckle is approximately four miles westerly from the government dock at Fort Stevens. The said line will pass approximately six-eighths of a mile westerly from Buoy No. 10 as shown on the geodetic survey No. 6151, dated January 5, 1917.

#### The Grays Harbor District

The Grays Harbor District consists of all the waters of Grays Harbor and its tributaries, and the Pacific Ocean within three miles of the shore line north of the south entrance of Grays Harbor and south of Cape Flattery, and all rivers and streams emptying therein.

#### The Willapa Harbor District

The Willapa Harbor District consists of the waters of Willapa Harbor and its tributaries, the Pacific Ocean within three miles of the shore line between the south entrance of Grays Harbor and North Head, and all rivers and streams emptying therein.

## LICENSES, PERMITS AND FEES

### Boat Licenses and Registration

#### Section 51-c, Chapter 74, Laws of 1947

(1) There shall be a commercial fishing vessel license fee by every person, firm or corporation, owning or operating any commercial vessel which delivers or lands fish or shellfish within the State of Washington: *Provided*, That nothing in this section shall apply to vessels operated by any person, firm or corporation having an oyster or clam farmer's license and used exclusively for such purpose.

(2) Each annual application for a commercial fishing vessel license shall contain the name and address of the owner of the vessel, the name and address of the operator of the vessel, the name and number of the vessel, a description of the vessel and fishing gear to be carried thereon, and such other information as may be required by the department of fisheries.

\* (3) At the time of the issuance of such license the Director of Licenses shall furnish each applicant with a certificate of registration and two metal license plates with the registration number stamped thereon. Such registration shall be known as the "State of Washington License and Registration Number" and shall not be transferable. The registration certificate shall be carried aboard the vessel at all times and the metal license plates shall be affixed and carried in plain sight on each side of the vessel well forward.

(4) Registrants shall report immediately any change of name, ownership or operator of the vessel. Defaced, mutilated or lost license plates shall be replaced immediately and a fee of two dollars (\$2) shall be charged for such new plates.

### Personal Licenses

#### Section 51-a, Chapter 74, Laws of 1947

Section 51-a. There shall be a personal commercial fishing license fee of five dollars (\$5) per annum, which shall be obtained by every person who takes or assists in taking any fish or shellfish from the waters or beaches of the State of Washington for commercial purposes, or who operates or assists in operating any boat or gear for the taking of fish or shellfish from the waters or beaches of the State of Washington for commercial purposes, or who brings or assists in bringing any fish or shellfish into the State of Washington for commercial purposes after having taken such fish or shellfish in the waters of the Pacific Ocean. The personal license shall be carried on the person whenever such person is engaged in the taking, landing, or selling of any fish or shellfish: *Provided, however*, This section shall not apply to those persons engaged solely as employees of any person, firm or corporation holding a valid oyster or clam farm license.

\* (License plates referred to in section 3, are issued by the Department of Fisheries after fees have been paid to the Collector of Fisheries.)
