#### *GOODLY NUMBERS*

If there's one thing you can count on it's that you can't count on how many will show. Take last week....following a miserable showing the week before, we really kinda packed 'em in. Among the long lost brothers to make the scene was ole Earnie Amos. And it seemed like old times as he commented on this and that. Also with us again was former member Phil Kooser who brought along a not-so-regular attendee, Fred Greenough.

#### *HALF QUOTA ON GUESTS*

Our normal pattern of two guests was not realized. Well, technically you might class Kooser as a guest. The one real bona fide type guest was Homer Splawn's. He had Elwyn Nellis from the Yakima dailies.

#### *THE INEVITABLE*

Well, we knew Wes Bryant's "final" financial report on the Air Show was too much to expect. Remember how smug he was a couple of week's ago when he reported all bills paid and a rather substantial "what we got left" figure. Well, in the first of his ammended reports we lost another buck and a half.

#### *SCUTTLE TUTTLE*

Filling in for vacationing Tom Patterson, Jim Tuttle absolutely lost his head. He even fined people for being fined. He employed all the tricks. He threatened, black mailed, accused, cajoled....even brought sex into the act. When he had finished he hinted at the reason for his rath. It seems that Jim never got a past president's pin after being the only member to serve as president for a year and a half. For God's sake, get him a pin or keep him away from the pig.

#### *GROWN MAN GRINS*

It finally happened. After years and years of moaning and groaning about "never winning a pot", Ed Estabrook picked up the marbles last week. What a welcome relief it was to see "Easy Ed" beaming like a Chessy cat following the drawing.

#### *ANOTHER FINE PROGRAM*

P.B.O.M. Ted Roy rounded up another interesting program for us last week. Click Relander from the newspaper spoke to us on his favorite subject, Indians. What Click doesn't know about the American Indian in these parts just isn't to be known. We fought a couple of battles, killed a couple of miners, an Indian agent and generally got a capsule account of Indian activities in the mid and late 1800's. Some fair stories, too.

#### *CHARLIE'S SWAN SONG*

This week will be "it" for Charlie Countryman. As usual, it hardly seems a year since Charlie's dreams were realized and he was elected our president. And now it's over and next week our new leader, Ian Knocker, will take over the gavel and gong. Well, that's life, Charlie. Glory and honor one week and then melted into the masses the next.

#### *THIS WEEK*

In addition to the final appearance of Charles C. Countryman at the helm, Ted Roy has another dandy figured out for us. Marion Bunnell, County Extension Agent will speak.
