Reference to:

Requisition WSH-790 PO no. 82448 Memo: April 22/1963

Item: 1 book Helander-Strangers on the Land

Western State Hospital, Fort Steilacoom

Attn: Chief accountant, via Mr. Ivan E. Lockett

Dear Sir:

Regarding the above, enclosed is another bill as requested.

Ordinarily this would not be possible in view of these circumstances:

1-The order was evidently placed on the basis of one of numerous reviews. These specified publisher, but not always the vendor.

2-Order was placed to Franklin Press, to my home address, 1212 North 32nd Ave., Yakima. While I am NOT associated with the Franklin Press beyond being employed next door to the printing firm, I am known to the operators. They were engaged to produce Strangers on the Land, which I wrote, and all copies were delivered over to The Yakima Tribe.

I mentioned the billing situation to their clerk today and it was concluded it be handled in this manner. They will endorse over the check to me and it will be used for repayment to the Yakima Tribe for a book withdrawn from tribal stock and sent in response to purchase order No. 82448. Some scattering of orders from distant points have been sent directly to The Franklin Press, these their clerk brings to me, sometimes with

endorsed checks and these are used for replacement of stock withdrawn from the tribe to fulfill the order.

If this does not satisfactorily clear up the situation, perhaps it would be best to return the publication. (The billing, a photostat of which you enclosed) is always sent inserted in the book when the order is filled). The publication was not in a large issue and will soon be out of print, so its return would make little difference, although I believe the library will wish it. The publication was sold at virtual cost, \$2.25. Normally books, (in hard cover) with 63,000 to 65,000 words, footnoted and in this field sell for \$7.50 to \$12.00.

Sincerely

Click Relander
